Introduction: Pediatric traumatic brain injury: New frontiers in clinical and translational research 1
Vicki Anderson and Keith Owen Yeates

1 Biomechanics of pediatric TBI 7
Susan S. Margulies and Brittany Coats

2 Neurobiology of TBI sustained during development 18
Mayumi L. Prins, Christopher C. Giza, and David A. Hovda

3 Using serum biomarkers to diagnose, assess, treat, and predict outcome after pediatric TBI 36
Rachel P. Berger, Ronald L. Hayes, Kevin K. W. Wang, and Patrick Kochanek

4 Clinical trials for pediatric TBI 54
P. David Adelson

5 Advanced neuroimaging techniques in children with traumatic brain injury 68
Stephen Ashwal, Karen A. Tong, Andre Obenaus, and Barbara A. Holshouser

6 Neurobehavioral outcomes of pediatric mild traumatic brain injury 94
Michael W. Kirkwood and Keith Owen Yeates

7 Very long-term neuropsychological and behavioral consequences of mild and complicated mild TBI: increased impact of pediatric versus adult TBI 118
Erik Hessen

8 Neurobehavioral outcomes of pediatric traumatic brain injury 145
H. Gerry Taylor

9 Neuropsychological rehabilitation in children with traumatic brain injuries 169
Ingrid van’t Hooft

10 Psychosocial interventions 179
Shari L. Wade

11 Pediatric TBI: challenges for treatment and rehabilitation 192
Cathy Catroppa and Vicki Anderson

12 Integrating multidisciplinary research for translation from the laboratory to the clinic 207
Bryan Kolb, and Robbin Gibb

Index 225

Color plates are situated between pp. 88 and 89.

Phoenix, AZ, USA

Vicki Anderson
Department of Psychology
Australian Centre for Child Neuropsychology Studies
Murdoch Children’s Research Institute,
Royal Children’s Hospital,
University of Melbourne,
Melbourne, Victoria, Australia

Stephen Ashwal
Division of Pediatric Neurology
Department of Pediatrics
Loma Linda University School of Medicine,
Loma Linda, CA, USA

Rachel P. Berger
Children’s Hospital of Pittsburgh
Safar Center for Resuscitation Research,
Pittsburgh, PA, USA

Cathy Catroppa
Research Fellow
Australian Centre for Child Neuropsychology Studies
Murdoch Children’s Research Institute,
Royal Children’s Hospital,
University of Melbourne,
Melbourne, Victoria, Australia

Brittany Coats
Department of Bioengineering
University of Pennsylvania,
Philadelphia, PA, USA

Robbin Gibb
Department of Neuroscience
University of Lethbridge,
Lethbridge, Alberta, Canada

Christopher C. Giza
Division of Pediatric Neurology,
Mattel Children’s Hospital, UCLA
Department of Neurosurgery
UCLA Brain Injury Research Center
David Geffen School of Medicine at UCLA,
Los Angeles, CA, USA

Ronald L. Hayes
Chairman, Clinical Programs Director
Banyan Biomarkers Inc.,
Alachua, FL, USA

Erik Hessen
Department of Neurology
Akershus University Hospital,
Oslo, Norway

Barbara A. Holshouser
Department of Radiology
Loma Linda University School of Medicine,
Loma Linda, CA, USA

Ingrid van’t Hooft
Neuropediatric Rehabilitation Unit
Astrid Lindgren Children’s Hospital
Karolinska University Hospital/Karolinska Institute
Stockholm, Sweden

David A. Hovda
UCLA Brain Injury Research Center
Department of Neurosurgery
David Geffen School of Medicine at UCLA,
Los Angeles, CA, USA

Michael W. Kirkwood
Department of Physical Medicine and Rehabilitation
University of Colorado,
The Children’s Hospital,
Aurora, CO, USA

Acknowledgments

This book evolved from a research conference held in San Diego, California, November 8–10, 2007, entitled 'New Frontiers in Pediatric Traumatic Brain Injury'. The editors served as the conference organizers. The conference was held with support from a grant (R13 HD55078) awarded to the editors by the National Center for Medical Rehabilitation Research of the National Institute of Child Health and Human Development, the National Institute of Neurological Disease and Stroke, and the National Center for Injury Prevention and Control of the Centers for Disease Control and Prevention. We would like to acknowledge the additional support for the conference provided by the Murdoch Childrens Research Institute, Melbourne, Australia; the Research Institute at Nationwide Children’s Hospital, Columbus, Ohio; and the Australian Society for the Study of Brain Impairment. We would like to thank David Hovda, Ph.D., Linda Noble, Ph.D., and Patrick Kochanek, M.D., for serving on the conference organizing committee. We would also like to acknowledge the Office of Continuing Medical Education at the University of California at San Diego, which provided logistical support for the conference, and Kate Anderson who provided administrative assistance in compiling and editing the book. Dr. Yeates received support for preparation of the conference grant and this book in part through an Independent Scientist Career Development Award from the National Institutes of Health (K02 HD44099).
