### Section 1: Introduction

1 **Global perspectives on suicidal behavior**  1  
   Matthew K. Nock, Guilherme Borges, and Yutaka Ono

2 **The epidemiology of suicide and suicidal behavior**  5  
   Matthew K. Nock, Guilherme Borges, Evelyn J. Bromet, Christine B. Cha, Ronald C. Kessler, and Sing Lee

3 **Methods of the World Mental Health Surveys**  33  
   Ronald C. Kessler, Janet Harkness, Steven G. Heeringa, Beth-Ellen Pennell, Alan M. Zaslavsky, Guilherme Borges, Yutaka Ono, and Matthew K. Nock

### Section 2: Prevalence and course of suicidal behavior

4 **Prevalence, onset, and transitions among suicidal behaviors**  65  
   Guilherme Borges, Wai Tat Chiu, Irving Hwang, Bharat N. Panchal, Yutaka Ono, Nancy A. Sampson, Ronald C. Kessler, and Matthew K. Nock

5 **Persistence of suicidal behaviors over time**  75  
   Ronald C. Kessler, Sergio Aguilar-Gaxiola, Guilherme Borges, Wai Tat Chiu, John Fayyad, Mark Oakley Browne, Yutaka Ono, Nancy A. Sampson, Alan M. Zaslavsky, and Matthew K. Nock

### Section 3: Lifetime risk factors for suicidal behavior

6 **Sociodemographic risk factors for suicidal behavior: results from the WHO World Mental Health Surveys**  86  
   Matthew K. Nock, Charlene A. Deming, Christine B. Cha, Wai Tat Chiu, Irving Hwang, Nancy A. Sampson, Hristo Hinkov, Jean-Pierre Lépine, Yutaka Ono, and Annette Beautrais

7 **Parental psychopathology and the risk of suicidal behavior**  101  
   Oye Gureje, Bibilola Oladeji, Charlene A. Deming, Wai Tat Chiu, Jordi Alonso, Guilherme Borges, Yanling He, Irving Hwang, Viviane Kovess-Masféty, José Posada-Villa, Nancy A. Sampson, Ronald C. Kessler, and Matthew K. Nock

8 **Childhood adversities as risk factors for onset and persistence of suicidal behavior**  113  
   Ronny Bruffaerts, Koen Demyttenaere, Laura Helena Andrade, Guilherme Borges, Wai Tat Chiu, Ron de Graaf, Charlene A. Deming, Irving Hwang, Nancy A. Sampson, David R. Williams, Ronald C. Kessler, and Matthew K. Nock

9 **Traumatic events and suicidal behavior**  131  
   Dan J. Stein, Wai Tat Chiu, Irving Hwang, Guilherme Borges, Yueqin Huang, Herbert Matschinger, Johan Ormel, Nancy A. Sampson, Maria Carmen Viana, Ronald C. Kessler, and Matthew K. Nock

### Section 4: Twelve-month risk factors and treatment

13 Prevalence and identification of groups at risk for twelve-month suicidal behavior in the WHO World Mental Health Surveys 185

Guilherme Borges, Josep Maria Haro, Wai Tat Chiu, Irving Hwang, Giovanni de Girolamo, Maria Elena Medina-Mora, Nancy A. Sampson, David R. Williams, and Matthew K. Nock

### Section 5: Conclusions and future directions

14 Treatment of suicidal persons around the world 199

Ronny Bruffaerts, Koen Demyttenaere, Guilherme Borges, Wai Tat Chiu, Viviane Kovess-Masféty, Oye Gureje, Irving Hwang, Carmen Lara, Nancy A. Sampson, Maria Carmen Viana, and Matthew K. Nock

15 Research, clinical, and policy implications of the World Mental Health Survey findings on suicidal behavior 213

Evelyn J. Bromet

16 Conclusions and future directions 222

Matthew K. Nock, Guilherme Borges, and Yutaka Ono

Appendix 226

Color plate section between pp. 84 and 85.
Acknowledgements

The editors would like to acknowledge the amazing efforts of all of the investigators, staff members, and others who help with all aspects of the WHO World Mental Health Surveys. Only a fraction of those involved in this work are listed as authors of the chapters included in this volume, and we are merely representatives of the many people who made this important project a reality. We would like to express our gratitude also to those who helped with the preparation of this volume. Alison Hoffnagle was invaluable in coordinating the work and communication among all of the WMH researchers. Charlene Deming, Christine Cha, Victoria Choate, Sara Slama, Jeff Glenn, Meghan Brady, and Lauren St. Germain put in countless hours of work reviewing and formatting the many, many tables and figures that appear in this volume. At Cambridge University Press, Joanna Chamberlin and Richard Marley provided wonderful guidance (and patience!) throughout the course of this project and we are extremely grateful for their help and support.

This project was carried out in conjunction with the World Health Organization World Mental Health (WMH) Survey Initiative. We thank the WMH staff for assistance with instrumentation, fieldwork, and data analysis. These activities were supported by the United States National Institute of Mental Health (R01MH070884, R01MH077883), the John D. and Catherine T. MacArthur Foundation, the Pfizer Foundation, the U.S. Public Health Service (R13-MH066849, R01 MH069864 and R01 DA016558), the Fogarty International Center (FIRCA R03-TW006481), the Pan American Health Organization, the Eli Lilly & Company Foundation, Ortho-McNeil Pharmaceutical, GlaxoSmithKline, and Bristol-Myers Squibb. A complete list of WMH publications can be found at http://www.hcp.med.harvard.edu/wmh/. The São Paulo Megacity Mental Health Survey is supported by the State of São Paulo Research Foundation (FAPESP) Thematic Project Grant 03/00204-3. The Bulgarian Epidemiological Study of common mental disorders EPIBUL is supported by the Ministry of Health and the National Center for Public Health Protection. The Chinese World Mental Health Survey Initiative is supported by the Pfizer Foundation. The Shenzhen Mental Health Survey is supported by the Shenzhen Bureau of Health and the Shenzhen Bureau of Science, Technology, and Information. The Colombian National Study of Mental Health (NSMH) is supported by the Ministry of Social Protection. The ESEMeD project is funded by the European Commission (Contracts QLG5-1999-01042; SANCO 2004123), the Piedmont Region (Italy), Fondo de Investigación Sanitaria, Instituto de Salud Carlos III, Spain (FIS 00/0028), Ministerio de Ciencia y Tecnología, Spain (SAF2000-158-CE), Departament de Salut, Generalitat de Catalunya, Spain, Instituto de Salud Carlos III (CIBER CB06/02/0046, RETICS RD06/0011 REM-TAP), and other local agencies and by an unrestricted educational grant from GlaxoSmithKline. The Epidemiological Study on Mental Disorders in India was funded jointly by the Government of India and WHO. The Israel National Health Survey is funded by the Ministry of Health with support from the Israel National Institute for Health Policy and Health Services Research and the National Insurance Institute of Israel. The World Mental Health Japan (WMHJ) Survey is supported by the Grant for Research on Psychiatric and Neurological Diseases and Mental Health (H13-SHOGAI-023, H14-TOKUBETSU-026 and H16-KOKORO-013) from the Japan Ministry of Health, Labour, and Welfare. The Lebanese National Mental Health Survey (LEBANON) is supported by the Lebanese Ministry of Public Health, the WHO (Lebanon), Fogarty International, Act for Lebanon, anonymous private donations to IDRAAC, Lebanon, and unrestricted grants from Janssen Cilag, Eli Lilly, GlaxoSmithKline, Roche, and Novartis. The Mexican National Comorbidity Survey (MNCS) is supported by The National Institute of Psychiatry Ramon de la
Fuente (INPRFMDIES 4280) and by the National Council on Science and Technology (CONACYT-G30544-H), with supplemental support from the PanAmerican Health Organization (PAHO). Te Rau Hinengaro: The New Zealand Mental Health Survey (NZMHS) is supported by the New Zealand Ministry of Health, Alcohol Advisory Council and the Health Research Council. The Nigerian Survey of Mental Health and Wellbeing (NSMHW) is supported by the WHO (Geneva), the WHO (Nigeria), and the Federal Ministry of Health, Abuja, Nigeria. The Romania WMH study projects “Policies in Mental Health Area” and “National Study regarding Mental Health and Services Use” were carried out by the National School of Public Health & Health Services Management (former National Institute for Research & Development in Health), with technical support of Metro Media Transilvania, the National Institute of Statistics-National Center for Training in Statistics, SC, Cheyenne Services SRL, Statistics Netherlands, and were funded by the Ministry of Public Health (former Ministry of Health) with supplemental support of Eli Lilly Romania SRL. The South Africa Stress and Health Study (SASH) is supported by the U.S. National Institute of Mental Health (R01-MH059575) and National Institute of Drug Abuse with supplemental funding from the South African Department of Health and the University of Michigan. The Ukraine Comorbid Mental Disorders during Periods of Social Disruption (CMDPSD) study is funded by the U.S. National Institute of Mental Health (RO1-MH61905). The U.S. National Comorbidity Survey Replication (NCS-R) is supported by the National Institute of Mental Health (NIMH; U01-MH60220) with supplemental support from the National Institute of Drug Abuse (NIDA), the Substance Abuse and Mental Health Services Administration (SAMHSA), the Robert Wood Johnson Foundation (RWJF; Grant 044708), and the John W. Alden Trust.
