## INDEX

- accounting, carbon accounting 15, 133–4
- adaptation  
costs 18  
economic instruments 16  
necessity 10
- Adaptation Fund 31
- Agenda 21 383
- Agreement on Agriculture  
biofuels and  
classification 85, 172–4  
green box opportunities 174–7  
subsidies 80–1, 172  
Peace Clause 176
- agriculture  
*See also* Agreement on Agriculture;  
biofuels  
green box opportunities 174–7  
marketable agricultural products 175–6  
subsidies  
amber box subsidies 173  
farmer lobbies 227
- air traffic control 25
- airspace, sovereignty 34
- Amerasinghe, Hamilton Shirley 36
- amici curiae* 377, 379, 380
- Antarctic Treaty, co-operation 27
- Antarctica 3–4, 24, 34
- APEC 91–2, 397
- Arab League 374
- Arctic 8, 9, 48
- Argentina 324, 391, 398, 400
- Asia Pacific Partnership 286
- atmosphere, common concern of mankind 33–4
- Australia 29, 164, 239, 265, 391, 404
- Austria, renewable energy 181
- aviation fuels, Kyoto Protocol 14
- Bali Conference 17, 19, 31
- Baracol, Donah 270
- Baumert, Kevin 298, 312, 319
- Belgium 200–1, 239
- Bentham, Jeremy 381
- Bhagwati, Jagdish 59, 66–7, 68, 74
- Biermann, Frank 33–4, 35
- Bigdeli, Sadeq Z. 88
- Bio Suisse 132–3, 145
- biodiesel  
classification 172  
EU tariffs 416  
Germany 203  
subsidies 175
- Biodiversity Convention 24, 383
- biofuels  
*See also* biodiesel; ethanol  
alternative to fossil fuels 197–8  
certification  
Belgium 200–1  
Brazil 202–3  
Canada 203  
companies 205–6  
effectiveness 227  
European Union 203–5  
Germany 203  
international bodies 206–7  
international standards 224–5  
issues 207–11  
key actors 200–7  
local and national governments 200–5  
logistics 199–200  
Netherlands 201

- NGOs 206
- schemes 199–207
- suggestions 224–5
- sustainability and 198
- United Kingdom 201–2
- United States 205
- WTO and 211, 218–24
- certification issues 207–11
  - costs 210–11
  - developing countries 210–11
  - discrimination under GATT 218–24
  - evaluation of macro-level effects 208–9
  - greenhouse gas impacts 209–10
  - 'like products' 214–18
  - measurable indicators 207–8
  - processes 211
- developing countries 210–11, 225, 416
- food security and 205, 208
- GATT exceptions and 220–4
  - exhaustible resources 222–3
  - public health 220
- leakage effects 208
- mandatory blending targets 169
- MFN treatment 85–6
- SPS measures 417
- subsidies
  - Agreement on Agriculture and 172
  - classification 83–5, 172–4
  - green box opportunities 174–7
  - SCM 176
  - tax exemptions 166–7
  - upstream subsidies 181
  - US conditionality 183
  - US tax credits 184
  - WTO challenges 185–7
- sustainability
  - criteria 198, 365
  - EU criteria 204–5
  - NGO criteria 206
- tariffs 83
- Biosafety Protocol 324
- Birnie, P. 382
- border tax adjustments
  - carbon taxes and 62, 64–6
  - like products 214–15, 342
  - objectives 104
  - OECD definition 64–5
  - PPMs 122–3
  - SCM 65–6
- Boyle, A. 382
- Brazil
  - Biodiesel Programme 203
  - biofuel certification 202–3, 210, 217
  - biofuels 181
  - Brazil—Retreaded Tyres* 406–3
  - CDM projects 300
  - ethanol 85, 184, 185
  - renewable energy 417
  - US biofuel subsidies and 186
- Brundtland Report 353
- Bush, George W. 205, 288
- call options 249
- Calster, Geert van 341–2
- Canada
  - on *amici curiae* 380
  - biomass certification 203
  - Canada—Aircraft* 171
  - EC—Biotech* and 324
  - EGS proposals 265, 271, 404
  - foreign investment legislation 302
  - hydro power 182
  - renewable energy, subsidies 164
  - US biofuel subsidies and 186
  - US—Lumber* 75, 161–2, 179
- cap-and-trade schemes 69–73, 78
- carbon accounting 15, 133–4
- carbon dioxide
  - concentrations 3–4
  - impact of emissions 48–9
  - Kyoto Protocol reductions 51–2
  - persistence 9
- carbon leakage, EC proposal 76–7
- carbon sinks 44, 78
- carbon taxes
  - border tax adjustments 62, 64–6
  - direct taxes 60
  - European Union, on imports 97
  - indirect taxes 60
  - MFN treatment 61
  - protectionism 19, 62
  - WTO rules and 60–9

- carbon trading. *See* emissions trading
- Cartagena Protocol on Biosafety 324
- Carter, Jimmy 155
- Charnovitz, Steve 317
- Chichilnisky, Graciela 53
- China
  - CDM projects 77, 79, 300
  - development v. environment 354–5
  - Kyoto Protocol and 51
  - renewable energy 164, 417
- CITES 324
- Civil Aviation Organization 14
- CLASP process 91
- classification
  - biofuels 83–5, 172–4
  - electricity 177
  - energy services 250–1
  - environmental services 262–7, 402, 403–4, 411
  - GATS 262–3
  - renewable energy certificates (RECs) 250–1, 414

  - assessment 301
  - certified emissions reductions (CERs) 300
  - conditions 310
  - dispute settlement 321
  - EGS, EAI approach 412–13
  - emissions reduction projections 79
  - exclusion of non-Kyoto parties 310, 320, 321–2
  - Executive Board 300, 325, 326
  - FDI rules and 321–7
  - imposition of investment under 45
  - investor grievances 326
  - Kyoto Protocol 15
  - Marrakech Agreement 300
  - mechanism 52
  - overview 299–301
  - potential conflicts 19
  - practical difficulties 78–9
  - projects 77, 300–1
    - development restrictions 326–7
    - numbers 325
    - stages 300
    - subsidies as 79–80
  - role 247, 292
  - strengthening 17
  - sustainable development 300, 322
  - technical barriers 80
  - TRIMS and 78
    - discrimination against foreign investors 310–13
    - local content requirement 304–5, 313–17, 323
    - performance requirements 311–12
    - potential conflicts 310–13
    - unilateral projects 304, 312–13, 323
  - WTO compatibility 77–80
- clean technologies 261, 268–9, 285
- climate change
  - 1988 UNGA Resolution 33, 38
  - adaptation to 10, 16, 18
  - cause 4, 259
  - common concern of mankind
    - impact of concept 31–2
    - legal implications 33–9
  - conventions 232
  - erga omnes* obligations 41–3
  - extreme events 8–9
  - future regime 17–20
  - global warming projections 48
  - global warming targets 7–8
  - long-term changes 9
  - magic fixes 10
  - mitigation. *See* mitigation
  - precautionary principle 40–1
  - regional changes 8
  - threat 4–10, 13
  - tipping points 9–10
  - trade conflicts 13, 16–17, 18–19
- climate commitment 9
- Codex Alimentarius 144, 375, 377, 386, 387
- coercion, PPMs 112–18, 126
- Colombia 265, 404
- common but differentiated responsibilities
  - Chinese interpretation 354–5
  - concept 34, 42–3

## INDEX

423

- Kyoto Protocol 50
- UNFCCC 50, 288
- common concern of mankind
  - atmosphere 33
  - climate change
    - impact of concept 31–2
    - legal implications 33–9
  - common heritage and 34–7
  - content of message 38–9
  - ecological imperialism 45–6
  - emerging obligations 33–4
  - erga omnes* obligations 41–3
  - extraterritoriality 45–6
  - from international to domestic
    - concerns 30
  - legal status 34–7
  - liabilities 39–40
  - origins 23–4, 29–30, 33
  - precautionary principle 40–1
  - settled expectations 37
  - trade implication 44–6
  - unilateral measures 45
- common heritage of mankind
  - common concerns and 34–7
  - deep seabed mining and 35–6
  - redistributive justice 35
- comparative advantage, PPMs and 105–11, 127–8
- compensation, state responsibility 40
- competition law, territoriality 25
- conflict of treaties
  - concept 308–10
  - EC—Bananas III* 309–10
  - EC—Biotech* 324
  - good faith 308
  - lex posterior* 308
  - lex specialis* 308
  - parties v. non-parties 324
  - presumption against conflict 309
  - WTO Agreements 309–10
  - WTO disputes and international law 323–4
- consent, international law 31
- consumers, awareness 15
- continental shelf 23
- co-operation
  - development 23
  - international law 26–7
- trade and MEAs, Doha Round 389, 392
- WTO and NGOs 377–81
  - dispute settlement 379–81
  - Secretariat and Director-General 377–9
- WTO and other IGOs
  - forms 374–6
  - WTO dispute settlement 376–7
- Corfu Channel* case 28
- Cosmos* 39
- Cottier, Thomas 270
- countervailing carbon delinquents 73–6
- countervailing duties 45, 194
- Cramer Commission 201, 206, 208
- Cramer Report 210, 218
- Cranfield University 134
- Cuba 181, 271, 380
  
- Dana, David 175
- decolonisation 23
- deforestation 45, 205
- derivatives 249
- Desta, M. 342
- developing countries
  - biofuel certification 210–11
  - capacity building 225
  - costs 210–11
  - suitability of processes 211
- CDM. *See* Clean Development Mechanism
- common but differentiated responsibilities 34, 42–3, 50, 288, 354–5
- common heritage of mankind and 24
- demand for emission reduction 17
- development and climate change 288
- intellectual property and 19
- level playing fields and 127
- mitigation policies 18
- private eco-labelling and 134–5, 151
- renewable energy 416–17
- Seabed Declaration and 35
- Stockholm Declaration and 42
- technology transfer. *See* technology transfer
- UNFCCC standards 44

- development aid 19
- discrimination
  - biofuels and 218–24
  - CDM projects 78, 310–13
  - EU green electricity 360–2
  - fossil fuel users, against 19
  - GATT exceptions, chapeau conditions 221–2
  - green procurement, de facto discrimination 332–3
  - less favourable treatment 218–24
  - MFN treatment. *See* MFN treatment
  - national treatment. *See* national treatment
  - PPMs 119–20
  - TBT 360
  - trade in RECs 253
  - trade restrictions on non-Kyoto participants 59–60
  - TRIMS and GATT 302
  - US—*Shrimp* 221–2
- Doha Declaration, environmental mandate 15, 85, 259–60, 389, 391–2, 395
- Doha Round
  - biofuels and 85
  - EGS negotiations 270, 278–9, 396
  - energy services 90
  - environmental concerns 307–8
  - fishing 196

- economic instruments
  - adaptation to climate change 16
  - environmental law and 305
  - Kyoto Protocol 15
- Egypt 380
- electricity. *See* energy; renewable energy
- emissions reduction
  - CDM projections 79
  - EC carbon leakage proposal 76–7
  - energy efficiency 49, 90–2, 269
  - IBEW-AEP proposal 69–73
  - joint implementation 52
  - Kyoto Protocol 51–2
  - mitigation strategy 49
  - renewable energy. *See* renewable energy
  - Stiglitz proposal 73–6
  - unilateral solutions 97–8
- emissions-related import restrictions effectiveness 99–100
- EU carbon taxes 97
- PPMs. *See* production and process methods
- protectionism 99
- trade sanctions compared 98–9
- unilateralism 97–8
- WTO and 100–1, 123
- emissions trading
  - entry barriers 57
  - EU ETS. *See* European Union
  - EU market 246
  - future 18–19
  - GATS and 49, 53–4
  - national treatment 57–8, 59
  - quotas 58–9
  - growth 234
  - Kyoto Protocol 15, 49, 52, 245–7
  - Kyoto Units 246
  - pooling 243
  - RECs and 247
  - subsidies 56–7
  - WTO rules and 53–60
- energy
  - bioenergy. *See* biofuels
  - Doha Round 90
  - efficiency. *See* energy efficiency
  - global increase in demand 197
  - renewable. *See* renewable energy
  - security, pipeline diplomacy 232
  - services. *See* energy services
  - subsidies 415
  - White Certificates 239

- energy efficiency
  - relative concept 269
  - technical standards 91–2
  - WTO and 49, 90–2
- energy services
  - classification 250–1
  - GATS 414
  - importance 231–2
  - liberalisation 232–3
- entry barriers, emissions trading and 57
- environmental goods and services
  - classification 262–7
    - Australian proposal 265, 404
    - Canadian proposal 265, 404
    - Colombian proposal 265, 404
    - Doha Round 396
    - EAI approach 402, 403–4, 411
    - EC proposal 264–5, 404
    - GATS 262–3
    - goods v. services 266–7
    - OECD 263–4
    - protection of ambient air and climate 266
    - Swiss proposal 266, 404
    - US proposal 265–6, 404
  - clean technologies 261, 268–9
  - definition 260–2
  - Doha Declaration 15, 85, 259–60, 389, 391–2, 395
  - Doha Round 278–9
    - climate change approach 269–71
    - issues 269, 396
    - lack of common definition 262
    - slow progress 270
  - Doha Round proposals
    - assessment 398–401
    - Environmental Project Approach 398, 399
    - Integrated Approach 398, 399–401
    - list of EPPs 397–8, 399
    - list of industrial products 397, 398–9
    - main proposals 397, 398
    - new initiatives 279–80
  - end-of-pipe approach 260
- Environmental Area Initiative
  - agreement overlaps 411
  - alternative proposal 396–7, 401–11
  - CDM and 412–13
  - classification 402, 403–4, 411
  - commitment modalities 406–8
  - criteria setting 405–6
  - draft Framework Agreement 408–11
  - identification of areas 404
  - IPRs 396, 401, 403
  - Kyoto Protocol and 411–13
  - operational requirements 403–11
  - philosophy 401–3
  - renewable energy 413–17
  - standards 403, 409, 410
  - subsidies 409–10
  - technology transfer 396, 403, 411
- GATS commitments 274
- Kyoto Protocol and 411–13
- liberalisation and climate change 259, 267–9
- EPICA 3
- erga omnes* obligations 29–30, 41–3
- ethanol
  - cellulosic ethanol 175
  - expanding trade 185
  - subsidies 174
    - classification 84–5, 172–3
    - consumers 176
  - tariffs 83–4, 416
  - US classification 83–4
- European Union
  - amici curiae* on 380
  - biofuels
    - Directive 201, 204–5
    - subsidies 164
  - sustainability criteria 198, 204–5
  - targets 203–4
  - tariffs 416
  - taxation 217
- carbon leakage proposal 76–7
- carbon taxes, on imports 97
- CDM operation 78–9
- climate change targets 7
