Name: Loging, William T., editor.

Title: Bioinformatics and computational biology in drug discovery and development / edited by William T. Loging.

Description: Cambridge, United Kingdom; New York: Cambridge University Press, 2016. | Includes bibliographical references and index.

Identifiers: LCCN 2015041412 | ISBN 9780521768009 (hardback)

Subjects: | MESH: Drug Discovery—methods. | Biomarkers, Pharmacological. | Computational Biology—methods. | Data Mining—methods.

Classification: LCC RS420 | NLM QV 745 | DDC 615.1/9—dc23

LC record available at <http://lccn.loc.gov/2015041412>

ISBN 978-0-521-76800-9 Hardback

Cambridge University Press has no responsibility for the persistence or accuracy of URLs for external or third-party internet websites referred to in this publication, and does not guarantee that any content on such websites is, or will remain, accurate or appropriate.

Every effort has been made in preparing this book to provide accurate and up-to-date information which is in accord with accepted standards and practice at the time of publication. Although case histories are drawn from actual cases, every effort has been made to disguise the identities of the individuals involved. Nevertheless, the authors, editors and publishers can make no warranties that the information contained herein is totally free from error, not least because clinical standards are constantly changing through research and regulation. The authors, editors and publishers therefore disclaim all liability for direct or consequential damages resulting from the use of material contained in this book. Readers are strongly advised to pay careful attention to information provided by the manufacturer of any drugs or equipment that they plan to use.
