Bridging the Atlantic

THE QUESTION OF AMERICAN EXCEPTIONALISM IN PERSPECTIVE

Bridging the Atlantic compares developments in modern European and American history. The case studies on British, German, and U.S. history since the eighteenth century assembled here seek to establish an integrated vision of Atlantic history. The contributions by European and American historians challenge the concept of American exceptionalism and present a vivid example of the ongoing debate between American and European historians on the structure and nature of European-American relations.

Elisabeth Glaser is a historian of international relations and a student of psychotherapy.

Hermann Wellenreuther is a professor of history at the University of Göttingen.
