Index of subjects

- absenteeism 2–3, 47, 96–7, 145–8, 150
 adjustment speed *see* overtime – adjustment speed
 annualised hours *see* hours – annualised
 approximately efficient contracts 84–6
 Australia 12, 19, 21
- bargaining models 44, 67–70
 Nash 69
 Britain *see* United Kingdom
 business cycle
 marginal cost 126–8
 overtime 7, 12–17
 wages 8
- Canada 12, 139, 150
 capital stock 59
 compensating differentials
 job length 3, 4
 number of hours 49
 overtime pay 49, 119–20
 Cost minimisation 51–3, 60, 61–2, 64, 65, 78–9,
 135–6, 147
 Custom and practice *see* overtime premium – custom
 and practice
- demand *see* labour demand
 and supply *see* hours – demand and supply
 workers–hours *see* workers–hours demand
 discriminating monopsonist 47
- earnings
 by hours of overtime 28, 29
 cyclical *see* business cycle – wages
 distributions 39–2
 longitudinal micro studies *see* micro studies
 metal working 130
 paid-for and effective 41, 129–31
 versus wage rates 37, 118–20
 earnings decomposition 35–6, 37,
 118–19
 frequency domain 128–9
 effort 60, 65–6
 employment subsidies 142–4
- employment taxes 142–4
 engineering 81, 123–4, 125
 Europe 98, 134
 European Working Time Directive 30
- Fair Labor Standards Act (FLSA) 9, 30, 36, 48, 73,
 83, 123, 138–40
 Finland 19, 21, 101, 107
 Fixed job model *see* hours – indivisibility
- Germany 12, 17–19, 24–5, 27, 39–42, 100–1, 102,
 105–6, 108, 109, 111–12, 113–15, 131, 135, 136,
 155
- heterogeneous preferences *see* preferences –
 heterogeneous
- hours 100–16
 actual and desired 111–13
 annualised 154–5
 demand and supply 67
 job attribute 44, 153
 shift working 59–60
 standard/overtime and production 57–9
 standard/total 26
 stock of capital *see* capital stock
 yearly 27
 hours curves 132–3
 hours indivisibility 3, 4, 70–3, 90, 153
 and earnings 119
- industrial relations *see* overtime premium – industrial
 relations
- institutional compensation rules *see* overtime
 premium – legislation
- interrelated factor demand 6
 inventories 128
- Japan 2, 12, 34, 35, 127–8
- labour demand 2, 44, 50–65, 134–5, 140
 for workers and hours *see* workers–hours demand
 labour supply 2–3, 5, 43–4, 45–9
 labour service 50–1
 legislation 1, 29–30, 31, 70–3

- leisure preferences *see* preferences – leisure
 Lewis model 4–5, 70, 72, 90, 119, 135
- make-to-order production 60–1, 153
 make-to-stock production 60
 marginal employment premium *see* employment
 subsidies
 micro studies 100–1, 120–2
- New Zealand 30
 non-overtime workers *see* proportion of overtime
 workers
- OECD 13–14, 30, 31, 143
- Overtime
 adjustment speed 7, 109–11, 151–3
 bargaining over *see* bargaining models
 by occupation 19, 20, 40
 collective agreements 101
 demand *see* labour demand
 demand and supply 5, 43–4, 134–41
 effort *see* effort
 establishment-based studies 104–6
 individual-based studies *see* micro studies
 legislation *see* legislation
 overemployment 47–8
 part-time employment *see* part-time employment
 per-employee 12–14, 15–17, 18, 22, 27, 33, 38
 proportion of workers *see* proportion of overtime
 workers
 regulation *see* legislation
 standard hours 25–9
 standard wage compensation 28, 49
 underemployment 48, 49
 unpaid *see* unpaid overtime
 supply *see* labour supply
- overtime pay 117–32
