I. INTRODUCTION

- | | |
|--|---|
| 1. Credibility in Fixed Exchange Rate Regimes: Theoretical and Historical Perspectives | 3 |
| <i>Michael D. Bordo and Ronald MacDonald</i> | |

II. THE CLASSICAL GOLD STANDARD

- | | |
|---|----|
| 2. Credibility and Fundamentals: Were the Classical and Inter-War Gold Standards Well-Behaved Target Zones? | 17 |
| <i>C. Paul Hallwood, Ronald MacDonald, and Ian W. Marsh</i> | |
| 3. Interest Rate Interactions in the Classical Gold Standard, 1880–1914: Was There Any Monetary Independence? | 46 |
| <i>Michael D. Bordo and Ronald MacDonald</i> | |
| 4. Realignment Expectations and the U.S. Dollar, 1890–1897: Was There a “Peso Problem”? | 71 |
| <i>C. Paul Hallwood, Ronald MacDonald, and Ian W. Marsh</i> | |

III. THE INTER-WAR PERIOD

- | | |
|--|-----|
| 5. The Inter-War Gold Exchange Standard: Credibility and Monetary Independence | 89 |
| <i>Michael D. Bordo and Ronald MacDonald</i> | |
| 6. Crash! Expectational Aspects of the UK’s and the U.S.’s Departures from the Inter-War Gold Standard | 116 |
| <i>C. Paul Hallwood, Ronald MacDonald, and Ian W. Marsh</i> | |

Tables

2.1. Variance ratio tests of classical gold standard exchange rates	<i>page 27</i>
2.2. Expected change in exchange rate within the band – classical period	28
2.3. Expected change in exchange rate within the band – inter-war period	33
2.4. Variance ratio tests of inter-war gold standard rates	34
2.5. Fundamental determinants of realignment expectations – classical	40
2.6. Fundamental determinants of realignment expectations – inter-war	41
3.1. FIML estimates of interest-rate parity	58
3.2. Error correction system for UK-France	60
3.3. Error correction system for UK-Germany	61
3.4. Error correction system for France-Germany	62
3.5. Trivariate systems	64
4.1. U.S. monetary and other “events” impacting exchange rate expectations, 1878–1897	75
4.2. FIML estimation results, 1890–1902 to 1908–1912	78
5.1. Co-integration tests of UIP	96
5.2. Co-integration tests of UIP and term structure	100
5.3a. Long-run estimates for system 3	104
5.3b. Long-run estimates for system 3	105
6.1. Expected change in exchange rate within the band	119
6.2. Fundamental determinants of realignment expectations	123
6.3. Three phases of the dollar after the UK leaving and the U.S. suspension of the gold standard	125

xii	<i>Tables</i>	
6.4.	Granger causality between devaluation expectations, gold flows, and banking crises	128
7.1.	Four major events used in the event analysis	138
7.2.	Variance ratio test for mean reversion of Gold Bloc exchange rates, December 1926–September 1936	141
8.1.	UK currency reserves, October 1964–December 1967	165
8.2.	Market intervention to support sterling, various dates, 1964–1967	169
8.3.	Regressions of the expected rate of realignment on the change in reserves	171
8.4.	Total reserve reaction functions	172
9.1.	Dickey-Fuller (τ_μ) test for unit roots	185
9.2.	Dickey-Fuller (τ_μ) test for unit roots	188
9.3.	Dickey-Fuller (τ_μ) test for unit roots	188
9.4.	Variance ratio statistics and significance levels. Exchange rate: BF/DM	190
9.5.	Variance ratio statistics and significance levels. Exchange rate: FF/DM	191
9.6.	Variance ratio statistics and significance levels. Exchange rate: IL/DM	192
9.7.	Variance ratio statistics and significance levels. Exchange rate: NG/DM	193
9.8.	Variance ratio statistics and significance levels. Exchange rate BF/FF	194
9.9.	Variance ratio statistics and significance levels. Exchange rate: IL/FF	195
9.10.	Variance ratio statistics and significance levels. Exchange rate: DK/IL	196
9.11.	Variance ratio statistics and significance levels. Exchange rate: IP/DK	197
9.12.	Panel unit-root tests	201
10.1.	Multivariate unit-root tests	210
10.2.	Numbers of co-integrating relationships in the trivariate ERM systems	211
10.3.	Estimates of the unrestricted β and α vectors	212
10.4.	Hypothesis tests on β and α , where $x = [i^{own}, i^{gy3}, i^{us3}, con]'$	213
10.5a.	Estimated values of H1 to H4	215
10.5b.	Estimated values of H5 to H8	215
10.6.	Implied half-lives (in days)	216
10.7.	Estimated values of H1 to H4 for sub-sample 1987–1991	218
