- autism, 231–3
- autonomy, 158–9
- avowals, 218–19
 as performative, 219–26
see also first-person authority
- Baldwin effect, 229
- basic belief (strand 1 belief), 6, 23–4, 33,
 43, 44–5, 50, 142
 not introspectable, 158
 relation to acceptance_p, 109–12
see also non-conscious belief; partial
 belief
- basic mind (strand 1 mind), 6, 33, 43, 50,
 122, 122–3, 147–8, 175–7, 178–81,
 182–3, 194–6, 198–200, 223–6,
 227–8
 austere view of optional, 9, 159–60
 role in akrasia, 205–8, 212
 role in self-deception, 214–17
 supports premising machine, 108–13
- basic reasoning (strand 1 reasoning), 33,
 45–7, 49, 50
see also non-conscious reasoning
- Bayesian challenge, 5, 52–5, 143–8
- Bayesian confirmation theory, 59–60
- Bayesian decision theory, 29–30, 45–9, 52
 as interpretative framework, 45–7
see also Bayesian challenge
- behavioural view, 65–70, 73–4
 of acceptance_p and goal pursuit, 85,
 108–13
 and active belief adoption, 70, 74,
 113–16
- defined, 65
 distinguished from austere functionalism,
 65–6
 extended to occurrent belief, 78
 integrated version of, 80, 85, 113
 of opinion, 73–4
 promises solution to the Bayesian
 challenge, 65
- behaviourism, 5, 15, 17
see also austere view; dispositionalism
- belief
 active formation of, *see* active belief
 adoption
 categorical-state versus dispositionalist
 views of, 34–6
 and context-relativity, 66, 86, *see also*
under superbelief
 divisions in folk view of, 12–24,
 34–8
 implicitly active, 28–9
 language-dependent, 23
 language-involving, 22–3, 56–8
 responsiveness to pragmatic motives, 86,
see also under superbelief
 truth-directedness of, *see under*
 superbelief
 two strands identified, 23–4
 two-strand views of, 58–89
 as a unitary psychological kind, 12,
 24
see also basic belief; conscious belief;
 flat-out belief; meta-representational
 belief; non-conscious belief; occurrent
 belief; partial belief; reflective belief;
 standing-state belief; superbelief;
 theoretical belief
- betting on sentences, 67, 73, 76
- categorical-state theories, 34–6

- conceptual capacities, chapter 7 *passim*
 basic-level, 199–200
 as general abilities, 185–6
 as inferential commitments, 186, 190,
 191–2, 199
 as personal skills, 189–90, 199–200
 sub-personal, 200

Subject index

- supermental, 191–6
see also conceptual modularity
- conceptual modularity, 7, chapter 7 *passim*
 absent at basic level, 198–9
 compatible with basic-level austerity,
 194–6
 exhibited by the supermind, 190–8
 folk commitment to, 184–90
 as involving sub-personal commitments,
 188–9
see also modularity of process; modularity
 of vehicle
- confidence, degree of, *see* partial belief
- confidence view, 60–4, 88
- conjunctive closure, 62–3, 68, 138–9
- connectionism, 162, 173
- conscious belief, 13–14, 23, 153–4
 as belonging to separate system, 14, 17,
 25–6
 defined, 13, 17
 and the Joycean machine, 77–80
 as language-involving, 22, 57
 as requiring occurrent activation, 28–9
see also superbelief; supermind
- conscious reasoning, 25–6
 as explicit, 26
 as language-involving, 32–3, 57
 not wholly Joycean, 78–9, 118–19
 role of suppressed premises in, 27,
 28–9
 usually classical, 30–1
see also active reasoning; premising;
 supermental reasoning
- consciousness, 14
 cognitive role of, 25–6, 153–4
- content, 8, 174
 conceptualized, chapter 7 *passim*
 of goals, 96–7
 information, 185
- degrees of confidence, *see* partial belief
- desire, 2, 24, 70
see also goal pursuit; superdesire
- direction of fit, 12, 126
- dispositionalism, 34–6
 as a form of functionalism, 34–5
see also austere view
- domain-general thinking, evolution of,
 230–1
- dual-process theories, 4, 10, 24–5,
 227–8
- eliminativism, 2, 7, 161–5, 182–3, 188–9,
 198, 200–1
 mitigated, 163–4
 and theories of reference, 162–3
 equipotency cases, 166–7, 170–2, 177–8,
 182, 195
- explicit reasoning, 26–9
 defined, 26
- first-person authority, 8, 128, 218–26
 and confabulation, 225–6
 other views of, 219
 and self-deceit, 224
 supermental (performative) view of,
 219–22
 supermental view of defended, 222–6
see also self-knowledge
- flat-out belief, 17–20, chapter 3 *passim*
 act view of, *see* act view
 apparent irrelevance of, 52–5
 assertion view of, *see* assertion view
 Bayesian approaches to, 59–71
 behavioural view of, *see* behavioural view
 confidence view of, *see* confidence
 view
 does not require certainty, 61
 influence on action, 52–5, 63–4, 68–70,
 143–8
 as a linguistic disposition, 67–70
 not context-dependent, 66
 as realized in partial beliefs and desires,
 65, 69
 role in scientific inquiry, 59–60
see also acceptance-as-a-premise;
 superbelief
- Fodor's challenge, 56–8, 78, 85, 107,
 152–3
- folk psychology
 architectural commitments of, 7, 165–73
 austere and rich interpretations of, 5, 38
 commitments vindicated, 173–83,
 190–200
 divisions in, 4–5, chapter 2 *passim*
 duality in explanatory practice of, 41–2
 as employing mongrel concepts, 3–4
 integration into science of, 1–4, 10–11,
 24, 38, 162–4, 200–1
 and neural architecture, 164–5, 182, 200
 regularization of, 2, 10, 42–4, 47–50,
 183
 use of term, 1

Subject index

- functional states, thickly carved versus finely carved, 35–6
- functionalism, 34
 austere versus rich forms of, 35–8
see also austere view; rich view
- general premise, 136
- Generality Constraint, 185, 199
- goal adoption, *see* goal pursuit
- goal pursuit, 83, 95–7, 140–2
 behavioural view of, 108–13
 content of, 96–7
 intention as form of, 210–11
 occurrent form of, 113
 tacit and implicit forms of, 96, 112–13
- heuristics and biases, 30, 46–7
- high-level dispositions, defined, 65
- holism of belief, 167–9

see also domain-general thinking
 mongrel concepts, 3–4

Subject index

- non-conscious belief, 13–14, 23
 defined, 13, 17
 distinguished from Freudian
 Unconscious, 13–14
 as lacking an occurrent form, 16–17,
 28–9, 44–5
 not language-involving, 44–5
see also basic belief
- non-conscious reasoning, 25–6, 49, 155,
 156–7
 interpretable as Bayesian, 45–7
 as non-explicit, 26–8
 not language-driven, 33
- non-explicit reasoning, 26–9
 defined, 26
- occurrent belief, 14–17, 20
 conscious versus non-conscious, 16–17
 role in action and inference, 16–17,
 75–6
- opinion, 3, 4, 71–6, 88
 behavioural view of, 73–4
 influence on action, 75–6
 and the Joycean machine, 79–80
 and strand 2 belief, 73, 75–6
- partial belief, 17–20
 as behavioural disposition, 45
 as non-conscious, 23
 not reducible to flat-out belief, 18–19
 and rational decision-making, 52–5,
 143–8
- partitioning strategies, 203, 205, 213,
 214
- passive reasoning, 32
- performative utterances, 220–1
 avowals as, 219–26
 role in acceptance_p formation, 115
- policy adoption, narrow and broad senses
 of, 114–15
- policy possession, 108–9, 211–12
- pragmatism, 53
- preface paradox, 62, 68, 138–9
- premise, 91, 97–107
 extended techniques of, 106–7
 minimal form of, 105–6
 role of heuristics in, 102
 role of inference rules in, 91, 98–103
 role of language in, 91, 99–102, 105,
 106, 107
 role of self-interrogation in, 103–5
- premise machine, 5–6, 85, chapter 4
passim
 compared with the Joycean machine,
 118–20
 failures of, 117
 influence on action, 116–18
 relation to the basic mind, 108–13
see also supermind
- premise policies, chapter 4 *passim*
 adoption of, 113–16
 causal role of, 174
 how constituted, 109–10
 nature and extent of, 90–3, 95–7,
 153–4
 realized in basic-level mental states,
 110–12, 138
 use of term, 97
- professional belief, *see*
 acceptance-as-a-premise, non-doxastic
- propositional modularity, 7, chapter 6
passim
 absent at the basic level, 182–3
 compatible with basic-level austerity,
 175–7, 178–81
 exhibited by the supermind, 173–82
 folk commitment to, 165–73
see also individual acquirability;
 individual efficacy
- propositions, optative and declarative,
 96–7
- Quine–Duhem thesis, 98
- realism, 36–7
 about mental acts, 146–7
- reasoning
 classical versus probabilistic, 29–31,
 143–4
 divisions in folk view of, 24–33
 language-driven versus not
 language-driven, 32–3
 two kinds identified, 33
see also active reasoning; conscious
 reasoning; dual-process theories;
 explicit reasoning; non-conscious
 reasoning; non-explicit reasoning;
 passive reasoning; unity of processing
 assumption
- reflective belief (Sperber), 120, 121
- representation theorems, 30
- representational theory of mind, 15

Subject index

- rich view, 5, 35–8
 appropriate for strand 2 mind, 43
 folk commitment to, 16–17, 165–73, 184–90
 and mental explanation, 40–1
 of the supermind compatible with
 basic-level austerity, 147–8, 175–7, 178–81, 194–6
see also austere view
- scientific inquiry, *see* theoretical inquiry
 scientific psychology, 226–33
 self-deception, 7–8, 73, 203–4, 213–18
 compatible with basic-level austerity, 216–17
 and first-person authority, 224
 interpersonal model of, 213
 and positive thinking, 214
 supermind theory's account of, 214–16
 and wishful thinking, 218
- self-interrogation, 103–5, 148, 196–7
 limitations of, 104
 role in abductive inference, 104
 role of language in, 105
 role in retrieving premises, 105
 and self-simulation, 103
- self-knowledge, 158
see also first-person authority
- shielding strategy, 214–17
- simulated belief, 136
- simulation theory, 103, 136
- standing-state belief, 14–17
 two types of, 17
- strand 1 belief, *see* basic belief
 strand 1 mind, *see* basic mind
 strand 1 reasoning, *see* basic reasoning
 strand 2 belief, *see* superbelief
 strand 2 desire, *see* superdesire
 strand 2 mind, *see* supermind
 strand 2 reasoning, *see* supermental reasoning
- subjective probability, *see* partial belief
- sub-mind, 122, 123
see also sub-personal psychology
- sub-personal psychology, 9, 43–4, 47, 49, 200
- superbelief (strand 2 belief), 6, 23–4, 33, 43, 50, chapter 3 *passim*, 88, 124–40, 141, 142, 143–54
 and acceptance_p, 84–7, 124–36
 active formation of, 128–9, 148–51
 and context-relativity, 129–30
 does not require certainty, 134–5
 as dynamic cause of action, 144
 high confidence necessary for, 135–6, 137–40, 180–1, 217
 as individually acquirable, 174–7
 as individually efficacious, 177–82
 influence on action, 143–8, 205–7,
 see also under acceptance-as-a-premise
 introspectable, 158
 and opinion, 73, 75–6
 relation to basic-level mental states, *see under* acceptance-as-a-premise
 responsiveness to pragmatic motives, 137, 149, 151
 tacit and implicit, 136, 176–7
 theoretical interest of, 125, 135
 truth-directedness of, 126–8, 137
 as unrestricted acceptance_p, 130–6,
 see also TCP deliberations
see also acceptance-as-a-premise;
 conscious belief; flat-out belief
- superdesire (strand 2 desire), 85, 140–2
see also goal pursuit
- supermental reasoning (strand 2 reasoning), 33, 50, 97–107, 118–19, 190–8
 control over, 157
 function of, 155–6
 improbability of, 157
 possibility of irrationality in, 147
see also active reasoning; conscious reasoning; premising
- supermind (strand 2 mind), 6, 33, 43, 50, 122, 122–3, 154–9, 173–82, 190–8, 200–1, chapter 8 *passim*
 and akrasia, 205–8, 212–13
 and autism, 231–3
 and autonomy, 158–9
 components of, 228–9
 cultural and individual variation in, 230
 development of, 228–31
 and domain-general thinking, 230–1
 exhibits individual acquirability, 174–7
 exhibits individual efficacy, 177–82
 exhibits modularity of process, 193–7
 exhibits modularity of vehicle, 197–8
 and first-person authority, 219–26
 functions of, 6, 154–9
 influence on action, 116–18, 143–8, 205–7
