CUMULATIVE INDEX
VOLUMES 1–5

Note 1: This index focuses on legal issues and on the arbitral and judicial decisions under consideration. Parties’ arguments, facts and ancillary documents are indexed only to the extent they are essential to an understanding of the legal issues.

Note 2: For procedural points reference should be made to the ICSID Convention (1965) by Article and the ICSID Rules headings. References are included under subject headings only where the point at issue is of special interest or the subject of debate.

Note 3: References to cases are to substantial discussion of those cases, not to the original report of the case. For a fuller guide to cases cited, including passing references, see the Table of Cases Referred To in Volumes 1–5.

Note 4: State immunity entries are listed under the separate headings of State immunity from execution/attachment and State immunity from jurisdiction only if it is clear that they apply in that particular context. Where the same principles apply in both cases they appear under the general heading ‘State immunity’.
