0521816041 - Global IT Outsourcing: Software Development across Borders

Sundeep Sahay, Brian Nicholson and S. Krishna

Index

[More information](#)

# Index

- academic institutions, India, 95, 101, 102, 104–5, 107
- acquisition of companies, 71–2, 73
- agency, 91, 92, 93
- amicable separation phase of GSAs, 248–9
- anti-globalization movement, 254
- Arrk, 4, 251
- attrition
  - Comsoft, 97
  - GlobTech attitude to, 115, 241
  - Indian attitude to, 191, 198, 242–3
  - MCI, 115, 117, 119
  - Witech, 70
- background knowledge, 135, 148, 150
- Bangalore, 12, 13
- Barbados, 21
- Bartlett and Ghosal classification of firms, 3–4
- Beck, 220
  - see also* risk perspective on GSAs
- Beijing, 12
- body shopping, 3, 13, 59, 163
- 'born global' firms, 4, 23
- boundaries within GSAs, 89
- Brazil, 12
- broker business model, 183–5
- brokers, 5, 57, 183–5, 239
- business analysts, 245–6
- business models for GSAs, 182–3, 238, 241
- calculability dimension of institutions, 6
- calculative trust, 250, 252–3
- call centres, 25
- Canada, 21
- Capability Maturity Model, 13, 33, 76, 133, 243
  - see also* standards
- Castells' network model, 11–12, 30–1, 40, 205, 220
  - see also* networks
- champions, 251
  - see also* Ghosh Jones, Mitra, Paul and Shinde
- change dialectical principle, 124, 125–6
- Chile, 12
- China
  - as GSA supplier, 12, 18–20, 243
  - cultural affinity with Japan, 184, 187, 196
- Cisco Systems, 4
- clients, interfaces with, 137–138
- collaboration, in communication, 42
- communication
  - and knowledge transfer, 230–231
  - and power, 230
  - and standardization, 230
  - dissonances, 230
  - in GlobTel–Witech GSA, 209–10
  - management of, 245–8
  - theory, 229–32
- communication links, 61, 68
  - see also* email, ICTs and videoconferencing
- community of practice, 36–7, 134–5, 147, 152, 221–2, 240
- competition
  - as motivation for GSAs, 56
  - between suppliers, 21–22
- ComSoft
  - and attrition, 97
  - and Indian Institute of Technology, 95, 104
  - and Japan, 99–100, 104
  - and North American, 99–100
  - culture, 101, 102, 105–6, 107
  - development vision, 95–7
  - identity, 95–7, 100, 103–4, 207
  - 'Indianness', 94, 96–7, 104
  - self-reliance, 96
  - telecommunications expertise, 99, 100
- Comsoft–GlobTel GSA
  - analysis, 101–9
  - narrative, 94–100
  - survey methods, 43, 44, 51
- congruence, 152
- consumption of software, 7
- contradiction dialectical principle, 124, 126–7

- control  
 and standardization, 146, 253  
 and trust, 249–53  
*see also* power and control
- control dimension of institutions, 6
- co-presence, 129–30  
*see also* face-to-face contact, proximity and virtual presence
- corporate responsibility, 256, 258
- cost savings, 56, 238
- cross-cultural communication, 41–2, 176–201  
 research into, 177–8
- cultural orientation, 59, 183  
*see also* training
- decentralization, 31, 34
- Delhi, 12
- Deloitte Consulting, 238
- developers  
 movement of, 117, 212  
 shortage of, 54, 56  
 work preferences, 6–7  
*see also* attrition and immigration
- dialectic, 124–6
- disembedding mechanism, 31–2, 36, 206, 213, 231
- domain-focused service model, 182–3, 185
- Dublin, 12
- economies of scale, 7, 8, 10, 81
- efficiency dimension of institutions, 6
- Egypt, 12
- electronic spaces, 113, 127
- email, 42, 127, 190
- embedded knowledge, 145, 151
- embrained knowledge, 145
- employment, 203–204, 257  
*see also* attrition, human relations management, immigration and recruitment
- encoded dialogue, 151
- encoded knowledge, 145
- encultured knowledge, 145, 146, 148, 151, 240
- Enterprise India Initiative, 251
- Eron *see* Gowing–Eron GSA
- ethical code for GSAs, 256  
*see also* standards
- ethical management, 253–8  
*see also* standards
- expansion phase of GlobTel externalisation, 54, 59–62
- expatriate staff, 68, 70, 78–9, 82, 115, 116, 117
- extension phase of GSAs, 248, 249
- face-to-face contact, 60, 137, 138, 186  
*see also* co-presence, proximity and virtual presence
- financing, 58, 63, 234
- fixed price pricing method, 5
- Foucault, 155–6, 169, 208
- front-end offices, 250
- functionalist view  
 of communication, 246  
 of organizational culture, 90–1
- gateways, 184  
*see also* brokers, hub business model and middlemen
- geography of GSAs, 113–4, 127
- Germany, green card entry, 32
- Ghosh, Suomiro, 55–6, 94–5, 119, 214, 251
- Giddens, 157–8, 206, 207
- global organizations, types of, 3–4
- global software alliances (GSAs)  
 and globalization theories, 29–34  
 as models of globalization, 27–9  
 as networks, 30–1  
 as processes, 31–2  
 definition, 3–6, 23  
 implications for managers, 236–58  
 management of, 248–50  
 phases, 248–9  
 previous research, 23  
 revenue, world-wide, 11, 20  
 types of, 2–6, 239  
*see also* GlobTel–Comsoft GSA, Globtel–MCI GSA, GlobTel–Witech GSA, Gowing–Eron GSA and Japan–India GSAs
- global software work (GS)  
 definition, 1, 6–11  
 organizational forms, 2–6  
 overview, 11–20
- global standards, 83–4
- globalization, 2–3  
 and culture, 159–60  
 and Gow–Eron GSA, 170–1, 173  
 and identity, 88, 109  
 and individuals, 32, 33  
 and space–place distinction, 112  
 GSAs as models of/for, 27–8, 204, 211, 219, 227, 231, 233  
 in analysis of GSAs, 29–34
- global–local standardization, 208
- GlobTel  
 externalization programme *see* GlobTel–Comsoft GSA, Globtel–MCI GSA and GlobTel–Witech GSA  
 Global R&D Group, 55–9, 82–83  
 GSODC, 117–18  
 history, 51–4, 62–63  
 ‘right angle turn’, 53, 63, 72–4, 98, 100, 119, 222  
 survey methods, 44–6, 51

- GlobTel–Comsoft GSA  
 analysis, 101–109  
 narrative, 94–100  
*see also* Comsoft
- GlobTel Manager, 71, 79–81
- GlobTel–MCI GSA  
 and attrition, 115, 117  
 and GSODC proposal, 117–18  
 communication links, 115, 116–17  
 culture, 118–19  
 dialectical analysis, 123–31, 206  
 first-level analysis, 120–3  
 growth phase, 116–19, 121, 122–3  
 initiation phase, 114–16, 120–2  
 narrative, 114–20  
 stabilization phase, 119–20, 121, 123  
 survey methods, 45–6  
 telecommunications expertise, 114  
 time line, 121  
*see also* MCI
- GlobTel Overseas Software Development Centre,  
 72
- GlobTel–Witech GSA  
 analysis, 74–81  
 communication links, 61, 68  
 extension phase, 73–74  
 growth phase, 71–3  
 initiation phase, 67–71, 214  
 survey method, 43, 44–6, 51  
*see also* Witech
- glocalization, 29
- Gowing–Eron GSA, 43, 44, 46  
 analysis of, 165–71  
 and identity, 215  
 communication links, 164  
 company backgrounds, 160–2  
 growth phase, 163–5  
 initiation phase, 161–3  
 motivation, 162–3  
 mutual trust, 252  
 survey methods, 43, 44, 46  
 use of standardization, 211–12  
 growth phase of GSAs, 248, 249
- Hall communication model, 195, 197–9  
 hardware development, problems of, 183  
 Harvey criterion of dialectic, 124, 129  
 heterogeneity, of software development, 8  
 hierarchical organizations, 31  
 high-context communication, 198  
 high-technology business, 101, 102, 103–4, 107  
 Hofstede cultural model, 159, 177, 208  
 homogenization, 29  
 Hong Kong, 19
- hub business model, 5, 68, 81, 184  
*see also* business models for GSAs
- human resources management, 28, 70, 71, 72,  
 242–5  
*see also* attrition, developers and immigration
- ‘hybrid manager’ concept, 245–6
- hybrid work models, 256–7
- hybridization, as form of globalization, 29, 200
- Hyderabad, 12
- ICTs  
 and cultural normalization, 188, 200  
 as control mechanisms, 157  
 cross-cultural communication, 41–42  
 enabling role for GSAs, 6, 23, 31, 56  
 in Japan–India GSAs, 192  
 limitations, 151, 152  
 simultaneity and synchronicity, 232  
 usage strategies, 246–248  
*see also* communication links, email and  
 videoconferencing
