- Leaping 233, 236
- Profile 233–4
- Support use 230, 232–3

Posture
- Foraging 241–2
- Profile 242
- Support use 244

Predation 155–68
- By chimpanzees 13, 155–68
- Comparison to Gombe 165–6
- Comparison to Kibale 166–8
- Comparison to Mahale 166–8
- By eagles 156, 158, 159, 181
- By humans 156, 158
  (see also Poaching)
- By leopards 156, 158, 159
- Predation pressure 159–61
- Response to chimpanzee vocalizations 30–1, 158–60
- Socio-ecological features 12–14, 79, 144
- Territoriality 93–4, 96
- Procolobus badius waldroni (Miss Waldron’s red colobus)
  - Extinction of 273, 292

Procolobus verus 14–16, 72–101
- Activity budget 243
- Affiliative behaviors 90–2, 96–100
- Agonistic behaviors 89–90, 92–4, 96, 98–9
- Anti-predation strategies 227
- Body size 14, 144, 224
- Coalitions 92
- Cooperation 92–3
- Diet 84–8
- Dispersal 95–7, 100
- Extirpation vulnerability 298, 302
- Food biomass 86–7
- Food competition 72–101
- Foraging strategy 232–3
- Grooming 98–9
- Group size 298
- Home range size 88–9, 97, 298
- Intermembral index 15, 236
- Polyspecific associations 15, 187, 227, 302
- Population density 298
- Positional behavior 248
- Habitat structure
  - Locomotor profile 239, 240
- Locomotion
  - Canopy use 227, 228
  - Leaping 236
  - Profile 233–4
  - Support use 230, 232–3

Posture
- Foraging 241–2
- Profile 242
- Support use 244

Predator detection 162
- Socio-ecological features 14–16, 79, 144
- Territoriality 93–4, 96

Putty nosed monkey (see Cercopithecus nictitans)

Red colobus monkey (see Procolobus badius)

Semantic communication 194–215
- Evolution 194–7
- Sexual selection of 195–6

Social behavior 28–9
- As an adaptive response to predator pressure 171, 177–8
- Social brain hypothesis 109

Social systems 52, 109–10
- Guenons 51–66
- Sooty mangabey (see Cercopithecus atys)
- Stephanoaetus coronatus 31, 171–91
  (see also Predation)
- Activity patterns 175
- Capture method 174
- Clutch size 173
- Density 173
- Distribution 172
- Home range 174
- Hunting behavior 257–8
  - Cooperative 177
- Opportunistic 178
- Life history traits 172–3
- Nest characteristics 173
- Population density 179
- Predation rate 184–5
- Previous studies 172
- Prey preference 178, 180–2, 189
- Prey profile 178
- Territoriality 172, 174
- Surinam 223

Tai Monkey Project 5–9, 272
- Tar National Park 3–5
- Area 3, 292
- Centre de Recherche en Ecologie (CRE) 259
- Conservation 290–310
- Funding 292–3
- Issues 308–10

Ecology 4–5
- History 3–4, 292
- Human population pressure 293
- Impact of primate reduction 306
Index

Taï National Park (cont.)
  Location 3
  Poaching 257, 259
  Pressure 290–1
  Rainfall 5
  Taï Primate community 8–11
  Feeding data 11
  Radiation 8–10
  Socio-ecological features 12

Territoriality 63, 76, 93–4, 96
Third party relationships 127
Tiwai Island, Sierra Leone 60, 63

Vocalizations (see also Alarm calls)
  Call production 211–15
  Call use 213–15
  Sound production 212–13
