The Federal Theatre Project

A Case Study

Drawing upon archival resources, official correspondence and personal interviews, this book provides a detailed examination of the operations of the US Federal Theatre Project in the decade of the 1930s. From the colorful bus tours through the Civilian Conservation Corps camps to the turbulent productions of the Living Newspapers, the book recreates the often chaotic but frequently exhilarating story of Uncle Sam as producer. Special attention is given to the controversial Seattle Negro unit, the prize-winning production of See How They Run and the mass spectacles which attempted to incorporate Hallie Flanagan’s vision of a truly national project rooted in local culture. The Federal Theatre Project: A Case Study illuminates both the ambitions of the program and the day-to-day details of making art from a new model – a subsidized national theatre.

Barry B. Witham is Professor at the School of Drama, University of Washington. He is the author of thirty articles in scholarly journals and editor of Theatre in the United States: A Documentary History, Vol 1: Theatre in the Colonies and the United States (Cambridge, 1996).
The American theatre and its literature are attracting, after long neglect, the crucial attention of historians, theoreticians, and critics of the arts. Long a field for isolated research yet too frequently marginalized in the academy, the American theatre has always been a sensitive gauge of social pressures and public issues. Investigations into its myriad of shapes and manifestations are relevant to students of drama, theatre, literature, cultural experience, and political development.

The primary intent of this series is to set up a forum of important and original scholarship in and criticism of American theatre and drama in a cultural and social context. Inclusive by design, the series accommodates leading work in areas ranging from the study of drama as literature to theatre histories, theoretical explorations, production histories and readings of more popular or para-theatrical forms. While maintaining a specific emphasis on theatre in the United States, the series welcomes work grounded broadly in cultural studies and narratives with interdisciplinary reach. Cambridge Studies in American Theatre and Drama thus provides a crossroads where historical, theoretical, literary, and biographical approaches meet and combine, promoting imaginative research in theatre and drama from a variety of new perspectives.

Acknowledgments

I owe a debt of gratitude to all the librarians and scholars who aided my research, especially Lorraine Brown at George Mason University, Karyl Winn, Nicolette Bromberg, Carla Rickerson and Gary Lundell at the University of Washington and Walter Zvonchenko and Chamisa Redmond at the Library of Congress.

I’m indebted to dozens of students who have shared my interest in this era and this project, especially Ron West, Terry Smith, Sheila McNerney, Mark Farrelley, Tamara Underiner, Jennifer Jones, Theresa May, Mark Weitzencamp, Derek Davidson, Karin Waidley, Victor Holtcamp, Jim Fitzmorris, Sydney Cheek and John Warrick.

To my colleagues in the study of theatre in the United States I also owe special recognition. Rose Bank and Don Wilmeth have been friends and role models, but there are many others who have helped shape my teaching and research including Felicia Londré, Tom Postlewait, Bruce McConachie, Ron Wainscott, Spencer Golub and David Rinear.

There are many faculty colleagues who have been supportive of my interests and my desire to accomplish this task: Jack Wolcott, Sue-Ellen Case, Sarah Bryant-Bertail, Odai Johnson and the late Michael Quinn.

I am especially grateful to Tina Redd for her insights and encouragement, and to Sue Bruns who was invaluable in bandaging my computer wounds, undoing my technical glitches and always pointing me towards solutions I had not imagined.

Portions of Chapters 5 and 6 were originally published in Theatre History Studies and part of Chapter 8 first appeared in the Journal of American Drama and Theatre.
