- Bacon, Francis, 7
- bacteria, and flagellum, 282–3
- Baer, Karl Ernst von, 92–3
- Barrett, P. H., 243
- Bates, Henry Walter, 116
- Bauplan*, and fossil record, 74
- Beagle*, HMS (ship), 13
- Behe, Michael, 282–3
- Bergson, Henri, 55–6, 67, 198, 236
- biodiversity, 206, 237–8
- biogenetic law, 92–3, 221
- biogeographical distribution, 38–40, 72
- biology: and culture, 182; and rules of reasoning, 244; and skepticism toward Darwinism, 3; and time scale for evolutionary change, 208–209
- bipedalism, and human evolution, 168, 173
- birds: and fossil record, 86–7; and “rings of races,” 121–2; and study of Darwin’s finches, 117–18; and parasitization of nests by cuckoos, 137
- Bloggs, Joe, 68
- bluegill sunfish (*Lepomis macrochirus*), 128–9
- body, and mind, 181
- botany, and plant evolution, 198–9; *see also* plants
- Bowler, P. J., 6
- Boyle, R., 8
- brachiopods, 154–6
- Brahe, Tycho, 223

- brain, and human evolution, 172–4, 176, 178, 180, 181
- branching, and fossil record, 76
- Broca's area, of brain, 176, 177
- Brongniart, Adolphe de, 74
- Burgess Shale (Canada), 82
- Burt, Sir Cyril, 217
- Butler, Samuel, 258–62, 270, 274
- Cain, A. J., 20
- Cambrian Era, and fossil record, 82–4, 138
- Carboniferous Era, and fossil record, 85–8
- Carnegie, Andrew, 204
- Cartesianism, 8
- causes, of evolution, 26, 103–33, 172–4 *see also* final causes
- Chain of Being, 9
- Chambers, Robert, 196
- Chesterton, G. K., 34–7
- child abuse, and debate on human nature, 190–3
- chimpanzee, and human evolution, 167, 168
- Chomsky, Noam, 175
- Christianity: and creation, 277–8; final causes and history of evolutionary theory, 8; and miracles, 280–1; and nature or status of humans, 278–9; and problem of evil, 285; and “science stoppers,” 49–50; *see also* Creationism; Intelligent Design; religion circularity, in Darwinian epistemology, 244–8
- cladism, 92–100, 158
- cladogram, 94–6
- classification, Linnaean system of, 30, 31f
- climatic change, and human evolution, 173
- coelacanth, 78
- coiling, of shells, 154–6
- comets, and mass extinctions, 84, 89; *see also* meteorites
- complexity, and natural selection, 159–65
- Condorcet, marquis de (Jean-Antoine-Nicholas Caritat), 9
- consciousness: and human evolution, 177–81; and nature of humans, 278
- consiliences: and argument to the best explanation, 38; and fossil record, 102; and status of evolution as fact, 37–43, 51
- continental drift, 26
- convergence, and ecological niches, 201
- Conway Morris, Simon, 200–2, 275, 279
- Cope, Edward Drinker, 85
- Copernicus, 223
- correlation, and genetic variation in humans, 186
- “cosmic history,” 51
- creation, meaning of, in Christianity, 277–8
- Creationism, 1, 194, 212; *see also* Intelligent Design
- Creative Evolutionism, 263–5, 270
- cuckoos, European, 137; *see also* birds
- culture: and Darwinian epistemology, 241–2; and human nature, 181–2; and metaphors, 211–12; and racial differences, 187
- Cuvier, Georges, 11, 73–4, 196
- cyanobacteria, 80, 81
- Daley, Martin, 190–3
- Darlington, C. D., 5
- Darwin, Charles: and approaches to fact of evolution, 27–51; on artificial selection, 113–14; communication with other scientists, 215; and concept of progress, 197–9; on continuity of fossil record, 75–6; and Darwinian epistemology, 245; and development of theory of evolution, 5–6, 11–17, 22–4; and embryology, 220; on human evolution, 166; on problem of evil, 284–5; and scientific integrity, 218–19; *see also* Darwinians; Darwinism
- Darwin, Erasmus, 9, 59, 196
- Darwin, Robert, 11
- Darwinians: and development of evolutionary theory, 17–22; and ethics, 248–57; and “Out of Africa” hypothesis, 172; science and culture in epistemology of, 241–2; *see also* Darwin, Charles; Darwinism
- Darwinism: and controversy on human evolution, 166–7; and debate on values, 194; hundredth anniversary of, 22; and Popper on philosophy of science, 237; *see also* Darwinism; evolution and evolutionary theory; neo-Darwinism; Social Darwinism
- Darwin's finches (*Geospiza fortis*), 117–18
- Davies, Nicholas, 137
- Davies, Paul, 68
- Dawkins, Richard, 23, 108, 123, 125, 199–200, 241, 246, 249, 275, 282, 284, 285, 288, 290
