- actions, 54, 63, 70. *See also* conversion of actions into activities; object-centered actions
- activity  
 child–adult joint, 62, 63, 70, 73, 74, 127, 231, 239  
 child independent exploratory, 5, 6, 19, 229  
 difference between animal and human, 15–17, 45–46, 52–55, 63–68  
 leading, 71–73, 75–76, 231–233, 239  
*See also* adolescence, peer interactions as leading activity in; conversion of actions into activities; emotional interactions of infants and caregivers as leading activity in infancy; learning at school as leading activity in middle childhood; object-centered activity as leading in toddlerhood; sociodramatic play as leading activity in early childhood
- activity theory  
 as an elaboration of Vygotsky's theory, 12–13, 71–76, 229–233
- disregard of the role of heredity in, 14, 26–28, 76, 213, 228, 233–235, 238–239
- adolescence  
 and self-consciousness. *See* identity formation and self-consciousness and identity formation. *See* identity formation  
 and mediation. *See* mediation in adolescence  
 and moral development. *See* adolescent moral development and motives. *See* adolescent motives neo-Vygotskian analysis of, 204, 208–213, 217, 221–222, 226–227  
 peer interactions as leading activity in, 210–212, 227–228  
 and puberty, 204, 206, 213, 222–223, 227–228, 239  
 and “the self.” *See* identity formation and “the self”  
 and “storm and stress.” *See* adolescent “storm and stress”  
 Vygotsky's view of, 204–207, 212–213  
 Western approaches to analysis of, 203–204, 205, 206, 213–227

## SUBJECT INDEX

- adolescent moral development  
 role of adults and peers in, 216–217  
 role of cognitive factors in, 214–215
- adolescent motives  
 neo-Vygotskian failure to explain, 201–202, 227–228  
 Vygotsky's explanation of, 40–41, 204–207, 227–228, 234
- adolescent “storm and stress”  
 nativist explanation of, 222–223  
 neo-Vygotskian explanation of, 211–212  
 role of cognitive factors in, 222–224  
 role of socio-cultural factors in, 224–226
- attachment, 77  
 its explanation by  
 behaviorists, 78–80  
 Bowlby, 79–81  
 neo-Vygotskians, 80–85  
 psychoanalysts, 78–80  
 Vygotsky, 77–78, 80  
 as a prerequisite for joint-object centered activity  
 Bowlby's position, 95–97  
 neo-Vygotskians' position, 85, 86, 92, 98–99  
 Piaget's position, 94–95
- cognitive mediation, 22–28  
 concepts  
 scientific, 12, 56, 60, 171–172, 180–186, 195, 197–198, 200  
 spontaneous, 171–172, 185, 193, 195, 197
- conversion of actions into activities, 65–71, 84
- conversion of goals into motives, 65–73, 76, 84, 87, 89, 230–231
- determinants of child development, 2–11  
 in behaviorism, 4, 7–10  
 in nativism, 2–3, 7–10, 37, 222–223, 235, 237  
 in the neo-Vygotskian approach, 9–11, 74, 230, 234, 238, 239. *See also* mediation  
 in Piaget's approach, 5, 7–10, 19, 229  
 in Vygotsky's approach, 9–11, 15, 20–39, 43, 73, 229–230, 233–234.  
*See also* mediation
- discovery (empirical) learning, 183–185, 188, 192, 197  
 as leading to misconceptions, 183–185, 192–193, 195  
 as promoted by traditional school instruction, 183–185
- egocentrism  
 as a characteristic of preschooler thinking, 162, 163  
 its overcoming as a component of school readiness, 168–169  
 and sociodramatic play, 162–165  
 neo-Vygotskian view, 163  
 Piaget's view, 163  
 Western studies, 164–165
- emotional interactions of infants and caregivers  
 development of, 81–86  
 as leading activity in infancy, 84, 106–108  
 as leading to attachment, 80–85  
 and means of communication. *See* means of communication in infancy  
 and mediation. *See* mediation in infancy  
 motive of, 84, 86  
 and motive of object-centered activity. *See* motive of object-centered activity  
 as preparation for object-centered activity, 85–87, 91–94, 98–99, 107–108, 110–111
- formal-logical thought  
 cross-cultural studies of, 173–178  
 as a prerequisite for transition to adolescence, 201, 205–209, 218  
 role of schooling in development of, 172–178, 201, 214–215  
 theoretical learning and development of, 189–192, 201

## SUBJECT INDEX

- traditional school instruction and development of, 178–179
- goals, 54, 63, 70. *See also* conversion of goals into motives
- guided discovery learning, 192–200, 212  
 learning outcomes of, 196–200  
 theoretical assumptions of, 34, 192–196, 200
- identity formation  
 and self-consciousness, 205, 207, 209–211, 213, 226  
 role of adults in, 209–210, 218–220, 227  
 role of cognitive factors in, 205–209, 218  
 role of peers in, 210–213, 220–221, 227  
 and “the self,” 217–221
- internalization, 10–11, 19–20, 33–34, 58–59, 62, 73, 186, 210–211, 219.  
*See also* memory; self-regulation; tools psychological
- interrelationships between instruction and development, 36–39  
 in behaviorism, 38  
 in nativism, 37  
 in Piaget’s approach, 36–37, 172  
 in Vygotsky’s approach, 37–39, 171–172, 178–179, 182, 189–192, 201, 214–215
- knowledge  
 conceptual. *See* concepts  
 procedural, 180–187, 198, 199  
 scientific, 182–187, 193–195, 200, 201, 212
- learning  
 discovery. *See* discovery (empirical) learning  
 empirical. *See* discovery (empirical) learning  
 guided discovery. *See* guided discovery learning  
 theoretical. *See* theoretical learning
- learning at school  
 and development of formal–logical thought. *See* formal–logical thought, role of schooling in development of  
 during adolescence, 212  
 as leading activity in middle childhood, 201–202, 232  
 and mediation. *See* mediation in middle childhood  
 its motive. *See* motive to study at school  
 its preparation during early childhood, 153–170  
*See also* knowledge; traditional school instruction
- means of communication in infancy, 99–105  
 to express physiological needs, 99  
 gestural, 100–103, 106–107, 111  
 to serve emotional interactions, 86, 99–100  
 to serve object-centered activity, 86, 87, 100–102, 111  
 nativist explanation of, 103–105
- mechanisms of child development, 2–11  
 in behaviorism, 4, 8  
 in nativism, 3–4, 8  
 in neo-Piagetian theories, 7, 8  
 in the neo-Vygotskian approach, 11, 13, 76, 230–231, 232. *See also* conversion of actions into activities; conversion of goals into motives  
 in Piaget’s approach, 5–8, 10, 230  
 in Vygotsky’s approach, 11, 43, 74–75, 230
- mediation, 10–11, 12, 19, 20–39, 41, 42–43, 49, 50, 60–63, 69–73, 76, 110, 127, 229–235, 237–239  
 in adolescence, 209–213, 217, 221–222, 227  
 in early childhood, 141–150, 152–153, 161–162, 164

## SUBJECT INDEX

- mediation (*cont.*)  
 in infancy, 82–86, 90–94, 95, 98–103, 106, 107–108  
 in middle childhood, 37–39, 40, 56, 171–172, 181–182, 185–192, 201–202  
 in toddlerhood, 110–121, 126–132, 134, 140–141  
*See also* cognitive mediation; metacognitive mediation
- memory, 22–28, 57–59, 238  
 and children with mental retardation, 26  
 and quipus as mediators, 22–23  
 role of heredity in the development of, 26–28, 235
- mental processes, 10–11, 15, 17–20, 40, 42–43, 45–46, 47, 49–50, 55–56, 70–71, 73–76, 231  
 higher, 12, 18–19, 20–21, 33–34, 56–57, 233–234  
 lower, 18, 233–234  
*See also* memory; self-regulation; symbolic thought; tools psychological; zone of proximal development of mental processes
- metacognitive mediation, 28–33
- misconceptions. *See* discovery (empirical) learning as leading to misconceptions
- model of child development  
 neo-Vygotskian, 72–73, 76, 230, 231, 239  
 Vygotsky's, 41–43, 74–75, 230
- motive of object-centered activity  
 facilitation of, 90–91  
 neo-Vygotskian explanation of, 86–91, 98, 106, 110  
 in orphanage children, 90  
 Piaget's explanation of, 88
- motive of role-play, 117–123, 138  
 and ethnographic observations, 119  
 neo-Vygotskian explanation of, 117–121, 139–140  
 its study in Western psychology, 121–123, 140
- motive to study at school  
 as a component of school readiness, 167  
 and sociodramatic play, 153–156
- motives, 39–43, 52–54, 63–70, 71, 74–75, 230–231  
 leading, 73, 76, 231  
 misunderstandings of Vygotsky's view of, 39, 204  
 and physiological maturation, 40–41, 43, 74, 76  
*See also* adolescent motives; emotional interactions of infants and caregivers, motive of; conversion of goals into motives; motive of object-centered activity; motive of role-play; motive to study at school
- object-centered actions  
 as different with physical and social objects, 49, 93, 97–98, 109–110  
 neo-Vygotskians on origins of, 85, 87, 92–93  
 Piaget on origins of, 87–88, 94–95
- object-centered activity  
 and communicative language, 132, 138, 140, 232  
 development of, 111–114  
 and development of symbolic thought. *See* symbolic thought and language; symbolic thought and object substitutions  
 as leading in toddlerhood, 111, 137–138, 232  
 and mediation. *See* mediation in toddlerhood  
 its motive. *See* motive of object-centered activity  
 and motive of role-play. *See* motive of role-play  
 and object substitutions. *See* symbolic thought and object substitutions  
 its preparation during infancy, 85–87, 91–92, 94, 98–99, 107–108, 110–111

## SUBJECT INDEX

- as preparation for sociodramatic play,  
 117–123, 137–138, 140–141
- play  
 Piaget's view of, 114–115  
 role -, 113–114. *See also* motive of role-play; sociodramatic play  
 its study by Western psychologists,  
 114–117  
 symbolic (make-believe, imaginative, fantasy, dramatic, pretend), 113.  
*See also* symbolic thought and language; symbolic thought and object substitutions  
 Vygotskian view of, 114, 117
- reciprocal teaching, 62–63
- school readiness, 165–170
- self-regulation, 28–33, 233, 238  
 and caregivers' use of language, 29, 140  
 as a component of school readiness,  
 167–168  
 and egocentric (private) speech, 30–32,  
 61, 132, 138  
 and indicatory (pointing) gesture, 29,  
 106  
 and mutual regulation, 32, 156–160  
 and self-instructional training,  
 60–62
- social referencing, 96–98, 112
- social situation of development, 42–43,  
 74–75
- social smiling, 83–84
- sociodramatic play  
 as creating the zone of proximal  
 development of mental processes,  
 151–152, 158, 159  
 definition of, 139  
 and development of self-regulation. *See*  
 self-regulation and mutual  
 regulation  
 and development of symbolic thought.  
*See* symbolic thought and  
 sociodramatic play  
 its explanation in Western psychology,  
 139, 142  
 its extinction in Western societies,  
 141–143, 160  
 as leading activity in early childhood,  
 165–169, 232, 233  
 and low-SES children, 143, 147–150  
 and mediation. *See* mediation in early  
 childhood  
 its motive. *See* motive of role-play  
 and motive to study at school. *See*  
 motive to study at school  
 neo-Vygotskian explanation of. *See*  
 motive of role-play  
 and overcoming of egocentrism. *See*  
 egocentrism and sociodramatic  
 play  
 its preparation during toddlerhood,  
 117–123, 137–138, 139,  
 140–141  
 and school readiness. *See* school  
 readiness  
 its study by Western psychologists,  
 141–143, 145–150, 152–153,  
 159
- symbolic thought, 123–124, 138  
 as a component of school readiness,  
 168  
 and language, 132–137  
 and object substitutions, 112–113,  
 124, 133–135, 160–162  
 Piaget's view, 124  
 Vygotskian view, 113, 124–126, 140  
 Western studies, 126–128  
 and sociodramatic play, 160–162
- theoretical learning, 186–192, 212  
 as the avenue for acquisition of  
 scientific knowledge, 186–188,  
 201, 238  
 developmental outcomes of, 189–192,  
 201  
 and concordant ideas of American  
 psychologists, 188–189
- tools  
 psychological, 10–11, 12, 17–20,  
 33–34, 56, 60, 62, 63, 70, 73–74,  
 76, 107, 132, 135, 181–182,  
 210–211, 222, 229–230, 231, 237

## SUBJECT INDEX

- tools (*cont.*)  
     *See also* memory; mental processes; self-regulation  
     technical (or physical, or practical), 17, 18, 45, 46–49, 52, 54–55, 57  
     used by apes, 16–17, 45, 46–51, 52, 53
- traditional school instruction  
     its criticism by proponents of guided discovery, 193–194  
     and development of formal–logical thought, 178–179  
     shortcomings of, 179–185, 201.  
     *See also* discovery (empirical) learning as promoted by traditional school instruction; knowledge
- zone of proximal development of activities, 71  
 zone of proximal development of mental processes, 12, 33–39, 62, 71, 107, 110, 211, 216–217, 221  
     and assessment, 35  
     and instruction. *See* interrelationships between instruction and development in Vygotsky's approach  
     misunderstandings of Vygotsky's notion of, 34, 194  
     and sociodramatic play. *See* sociodramatic play as creating the zone of proximal development of mental processes
