The Cambridge Introduction to Tragedy

Tragedy is the art form created to confront the most difficult experiences we face: death, loss, injustice, thwarted passion, despair. From ancient Greek theatre up to the most recent plays, playwrights have found, in tragic drama, a means to seek explanation for disaster. But tragedy is also a word we continually encounter in the media, to denote an event which is simply devastating in its emotional power. This introduction explores the relationship between tragic experience and tragic representation. After giving an overview of the tragic theatre canon – including chapters on the Greeks, Shakespeare, Ibsen and Chekhov, American tragedy and post-colonial drama – it also looks at the contribution which philosophers have brought to this subject, before ranging across other art forms and areas of debate. The book is unique in its chronological range, and brings a wide spectrum of examples, from both literature and life, into the discussion of this emotional and frequently controversial subject.

Jennifer Wallace is Fellow, Lecturer and Director of Studies in English at Peterhouse, University of Cambridge.

This book could not have been completed in its present form without the fantastic picture research of photo editor and friend, Sunita Sharma-Gibson. I am extremely grateful to her for her help and to the following photographers who generously gave me their images for nothing or for greatly reduced permission fees: Robert Wallis, Geraint Lewis, Philip Mynott, and Corbis on behalf of Kevin Carter. Various friends and colleagues read portions of this book and I have benefited hugely from their comments and expertise: Mark Berry, Jean Chothia, Jacobia Dahm, Martin Golding, Peter Howarth, Ben Quash, and Robert Wallis. But more than anyone, my students continue to challenge and inspire me. Invidious to name individuals, their questions and reactions to these tragic texts and issues over the last twelve years have shaped incalculably the ideas in this book.
