<i>Preface</i>	xix
<i>Abbreviations and symbolic conventions</i>	xxiv
1 Introduction: 'grammar blindness' in the recent history of English?	1
1.1 Grammar is more than an arbitrary list of shibboleths	1
1.2 Grammatical changes: proceeding slowly and invisible at close range?	7
1.3 A frame of orientation: previous research on recent and ongoing grammatical changes in English	16
1.4 Conclusion	22
2 Comparative corpus linguistics: the methodological basis of this book	24
2.1 (Computer) corpus linguistics: the Brown Corpus and after	24
2.2 Comparable corpora and comparative corpus linguistics	27
2.3 The methodological basis of comparable corpus linguistics	31
2.4 Stages of investigation	33
(A) Rationalize the mark-up of the corpora	33
(B) Undertake annotation of the corpora	33
(C) Use search and retrieval software to identify and extract recurrent formal features in the corpus	34
(D) Refine the comparative analysis	34
(D1) Derive difference-of-frequency tables	35
(D2) Derive difference-of-frequency tables from inter-corpus comparisons	36

vi Contents

	(D ₃) Undertake further categorization of instances of features found in the corpora	36
	(E) Further qualitative analysis, examining individual instances, or clusters of instances, in both corpora	37
	(F) Functional interpretation of findings	37
2.5	Further details and explanations of the stages of investigation	37
	2.5.1 (B) Annotation	37
	2.5.2 (C) Search expressions in CQP	38
	2.5.3 (D ₁) Frequency across genres and subcorpora	40
	2.5.4 (D ₂) External comparisons	43
	2.5.5 (D ₃) Further categorization of instances found in the corpora	45
	2.5.6 (E) Further qualitative analysis	47
	2.5.7 (F) Functional interpretation of findings on all levels	49
2.6	Conclusion	50
3	The subjunctive mood	51
	3.1 Introduction	51
	3.2 The revival of the mandative subjunctive	52
	3.2.1 Overall developments of the mandative subjunctive	53
	3.2.2 Is the mandative subjunctive losing its formal connotations?	57
	3.3 The <i>were</i> -subjunctive	61
	3.3.1 The <i>were</i> -subjunctive: diachronic development	64
	3.3.2 The <i>were</i> -subjunctive: a recessive formal option?	66
	3.4 Revival and demise of the subjunctive? An attempt at reconciling apparently contradictory developments	67
	3.5 Summary and conclusion	69
4	The modal auxiliaries	71
	4.1 The declining use of the modal auxiliaries in written standard English 1961–1991/2	71
	4.2 The changing use of the modals in different genres and subcorpora	73
	4.3 The changing use of the modals in spoken vs written corpora	76
	4.4 The core modals and competing expressions of modality	78

4.5	Shrinking usage of particular modals: a more detailed examination	79
4.5.1	The modals at the bottom of the frequency list: <i>shall</i> , <i>ought to</i> and <i>need(n't)</i>	80
4.5.2	The semantics of modal decline: <i>may</i> , <i>must</i> and <i>should</i>	83
4.6	Conclusion	89
5	The so-called semi-modals	91
5.1	Auxiliary–lexical verb gradience	92
5.2	Overall changes in frequency of semi-modals	98
5.3	Further evidence for grammaticalization? Phonetics and semantics	105
5.3.1	Phonetic reduction and coalescence: <i>gonna</i> , <i>gotta</i> and <i>wanna</i>	105
5.3.2	Signs of abstraction and generalization (semantic weakening)	107
5.4	The ecology of obligation/necessity	114
5.5	Conclusion	116
6	The progressive	118
6.1	Introduction	118
6.2	Basic and special uses of the progressive	119
6.3	Historical background	120
6.4	Overview of recent distribution patterns	122
6.4.1	Distribution in written BrE and AmE	122
6.4.2	Distribution in contemporaneous BrE speech and other registers	124
6.5	Present progressive active	127
6.5.1	Quotations and contracted forms	128
6.5.2	Stative verbs	129
6.5.3	Subject type and reference	130
6.5.4	Special uses	131
6.6	The progressive passive	136
6.7	The progressive in combination with modal auxiliaries	139
6.7.1	Modal auxiliary + <i>be -ing</i>	139
6.7.2	<i>Will</i> + <i>be -ing</i>	139
6.8	Summary and conclusion	141
7	The passive voice	144
7.1	Introduction	144
7.2	The <i>be</i> -passive	148
7.3	The <i>get</i> -passive	154
7.4	The mediopassive	158
7.5	Summary and conclusion	164

8	<i>Take or have</i> a look at a corpus? Expanded predicates in British and American English	166
8.1	The state of the art	167
8.2	Hypotheses	170
8.3	Defining the variable	173
8.4	Results	174
8.4.1	Stylistic variation	174
8.4.2	Diachronic variation	175
8.4.3	Regional variation	175
8.5	Summary	179
9	Non-finite clauses	181
9.1	Introduction: long-term trends in the evolution of English non-finite clauses	181
9.2	Changes in non-finite clauses I: case studies of individual matrix verbs	186
9.2.1	<i>Help</i> + infinitive	187
9.2.2	<i>Prevent/stop</i> + NP + (<i>from</i>) + gerund	193
9.2.3	<i>Start</i> and <i>stop</i> in catenative uses	195
9.2.4	<i>Want to</i>	199
9.2.5	Assessing the speed of changes	201
9.3	Changes in non-finite clauses II: statistical trends in the tagged corpora	201
9.4	Conclusion	204
10	The noun phrase	206
10.1	Parts of speech: an overall survey	207
10.2	Nouns and noun sequences	211
10.2.1	Common nouns	212
10.2.2	Proper nouns, including proper nouns as acronyms	212
10.3	Noun sequences and other juxtapositions	214
10.3.1	Noun + common noun sequences	216
10.3.2	Noun sequences with plural attributive nouns	219
10.3.3	Sequences of proper nouns	221
10.4	The <i>s</i> -genitive and the <i>of</i> -genitive	222
10.4.1	The <i>s</i> -genitive	223
10.4.2	The <i>of</i> -genitive	224
10.5	Relative clauses	226
10.5.1	<i>Wh</i> - relative clauses	228
10.5.2	<i>That</i> relative clauses	229
10.5.3	Zero relative clauses	231
10.5.4	Pied-piping vs preposition stranding	231
10.6	Summary and conclusion	233
