INDEX

- A. L. Burt, 337
- aberrance, as evidence of past extinction, 89
- accumulative selection, 18, 220
- acquired characters, principle of (Spencer), 299
- Acrita, 176
- adaptation, 166, 318
- and constancy of characters
 - corollary to general adaptation rule, 185
 - and flexibility of constitution, 39
 - and species from relations
 - mediated by natural selection, 87
 - and variation, 42
 - change through, xvii
 - embryological character corollary to general adaptation rule, 185
 - from perfect to relative, 5
 - functional, 179
 - general rule of, 184, 187
 - Lamarckian functional, 299
 - reproductive organs corollary to general adaptation rule, 184
 - rudimentary organs corollary to general adaptation rule, 185
 - special habits corollary to general adaptation rule, 184
- adaptive advantage, 3, 91
- adaptive divergence, and competition with other species, 94
- Addison, Joseph, 238
- Advancement of Learning* (Bacon, 1605), 265
- affinities, 100, 138, 139, 141, 152, 162, 183, 184, 192
- classificatory, established by embryological differentiation, 211
 - morphological, 198
- affinity, and filiation, 320
- affinity theory (MacLeay), 177
- Africa, xxii, 156, 162
- Agassiz, Louis, 6, 47, 84, 132, 147, 258, 270
- agnosticism, xxiv, 272
- Agricultural Gazette*, 218
- Alden, John B., 337
- Allen, Grant, 338
- altruism, evolution of, 127
- amphibians, 165
- Amundson, Ronald, 326
- analogies, 183, 187
- analogues, 179, 198
- theory of (Geoffroy St.-Hilaire), 198
- analogy, xxii
- MacLeay, 177
