Every effort has been made in preparing this book to provide accurate and up-to-date
information that is in accord with accepted standards and practice at the time of publication.
Nevertheless, the authors, editors, and publisher can make no warranties that the information
contained herein is totally free from error, not least because clinical standards are constantly
changing through research and regulation. The authors, editors, and publisher therefore
disclaim all liability for direct or consequential damages resulting from the use of material
contained in this book. Readers are strongly advised to pay careful attention to information
provided by the manufacturer of any drugs or equipment that they plan to use.
