<i>List of contributors</i>	page vii		
<i>Preface</i>	ix		
1 Notes toward a history of vertebrate paleontology at Gran Barranca	1		
<i>R.H. Madden and A. Scarano</i>			
PART I GEOLOGY			
2 Physical stratigraphy of the Sarmiento Formation (middle Eocene – lower Miocene) at Gran Barranca, central Patagonia	19		
<i>E.S. Bellosi</i>			
3 Paleomagnetism and magnetostratigraphy of Sarmiento Formation (Eocene–Miocene) at Gran Barranca, Chubut, Argentina	32		
<i>G.H. Ré, S.E. Geuna, and J.F. Vilas</i>			
4 A geochronology for the Sarmiento Formation at Gran Barranca	46		
<i>G.H. Ré, E.S. Bellosi, M. Heizler, J.F. Vilas, R.H. Madden, A.A. Carlini, R.F. Kay, and M.G. Vucetich</i>			
PART II SYSTEMATIC PALEONTOLOGY			
5 Middle Eocene – Oligocene gastropods of the Sarmiento Formation, central Patagonia	61		
<i>S.E. Miquel and E.S. Bellosi</i>			
6 Middle Tertiary marsupials from central Patagonia (early Oligocene of Gran Barranca): understanding South America's <i>Grande Coupure</i>	69		
<i>F.J. Goin, M.A. Abello, and L. Chornogubsky</i>			
7 Middle Eocene – Early Miocene Dasypodidae (Xenarthra) of southern South America: faunal succession at Gran Barranca – biostratigraphy and paleoecology	106		
<i>A.A. Carlini, M.R. Ciancio, and G.J. Scillato-Yané</i>			
8 The “condylarth” Didolodontidae from Gran Barranca: history of the bunodont South American mammals up to the Eocene–Oligocene transition	130		
<i>J.N. Gelfo</i>			
9 The Notohippidae (Mammalia, Notoungulata) from Gran Barranca: preliminary considerations		143	
<i>G.M. López, A.M. Ribeiro, and M. Bond</i>			
10 Rodent-like notoungulates (Typotheria) from Gran Barranca, Chubut Province, Argentina: phylogeny and systematics		152	
<i>M.A. Reguero and F.J. Prevosti</i>			
11 The Leontiniidae (Mammalia, Notoungulata) from the Sarmiento Formation at Gran Barranca, Chubut Province, Argentina		170	
<i>A.M. Ribeiro, G.M. López, and M. Bond</i>			
12 Colhuehuapian Astrapotheriidae (Mammalia) from Gran Barranca south of Lake Colhue-Huapi		182	
<i>A.G. Kramarz and M. Bond</i>			
13 The rodents from La Cantera and the early evolution of caviomorphs in South America		193	
<i>M.G. Vucetich, E.C. Vieytes, M.E. Pérez, and A.A. Carlini</i>			
14 Colhuehuapian rodents from Gran Barranca and other Patagonian localities: the state of the art		206	
<i>M.G. Vucetich, A.G. Kramarz, and A.M. Candela</i>			
15 A new primate from the early Miocene of Gran Barranca, Chubut Province, Argentina: paleoecological implications		220	
<i>R.F. Kay</i>			
16 Bats (Mammalia: Chiroptera) from Gran Barranca (early Miocene, Colhuehuapian), Chubut Province, Argentina		240	
<i>N.J. Czaplewski</i>			
PART III PATTERNS OF EVOLUTION AND ENVIRONMENTAL CHANGE			
17 The Mustersan age at Gran Barranca: a review		255	
<i>M. Bond and C.M. Deschamps</i>			

Cambridge University Press

978-0-521-87241-6 - The Paleontology of Gran Barranca: Evolution and Environmental Change through the Middle Cenozoic of Patagonia

Edited by R. H. Madden, A. A. Carlini, M. G. Vucetich and R. F. Kay

Table of Contents

[More information](#)

vi	<i>Contents</i>
18	A new mammal fauna at the top of the Gran Barranca sequence and its biochronological significance
264	<i>A. G. Kramarz, M. G. Vucetich, A. A. Carlini, M. R. Ciancio, M. A. Abello, C. M. Deschamps, and J. N. Gelfo</i>
19	Loessic and fluvial sedimentation in Sarmiento Formation pyroclastics, middle Cenozoic of central Patagonia
278	<i>E. S. Bellosi</i>
20	Paleosols of the middle Cenozoic Sarmiento Formation, central Patagonia
293	<i>E. S. Bellosi and M. G. González</i>
21	Ichnofacies analysis of the Sarmiento Formation (middle Eocene – early Miocene) at Gran Barranca, central Patagonia
306	<i>E. S. Bellosi, J. H. Laza, M. V. Sánchez, and J. F. Genise</i>
22	Phytolith studies in Gran Barranca (central Patagonia, Argentina): the middle–late Eocene
317	<i>A. F. Zucol, M. Brea, and E. S. Bellosi</i>
23	Stable isotopes of fossil teeth and bones at Gran Barranca as monitors of climate change and tectonics
341	<i>M. J. Kohn, A. Zanazzi, and J. A. Josef</i>
24	Hypsodonty and body size in rodent-like notoungulates
362	<i>M. A. Reguero, A. M. Candela, and G. H. Cassini</i>
	PART IV REGIONAL APPLICATIONS
25	Vegetation during the Eocene–Miocene interval in central Patagonia: a context of mammal evolution
375	<i>V. Barreda and L. Palazzesi</i>
26	Paleogene climatic and biotic events in the terrestrial record of the Antarctic Peninsula: an overview
383	<i>M. A. Reguero and S. A. Marensi</i>
27	Mid-Cenozoic paleoclimatic and paleoceanographic trends in the southwestern Atlantic Basins: a dinoflagellate view
398	<i>G. R. Guerin, M. V. Guler, H. Brinkhuis, and J. Warnaar</i>
28	Divisaderan: Land Mammal Age or local fauna?
410	<i>G. M. López</i>
	PART V SUMMARY
29	Gran Barranca: a 23-million-year record of middle Cenozoic faunal evolution in Patagonia
423	<i>R. H. Madden, R. F. Kay, M. G. Vucetich, and A. A. Carlini</i>
	<i>Index</i>
