<i>Introduction</i> <i>Russ B. Altman, David Flockhart, and David B. Goldstein</i>	xi
Part I: Critical Concepts	
1. Introduction to Population Diversity and Genetic Testing <i>Michael D. Caldwell, Ingrid Glurich, Kimberly Pillsbury, and James K. Burmester</i>	3
2. Genotyping Technologies <i>Cristi R. King and Sharon Marsh</i>	12
3. Pharmacokinetics: Absorption, Distribution, Metabolism, Excretion Overview Chapter <i>Terrence Blaschke</i>	21
4. Overview: Adverse Drug Reactions <i>Matthew R. Nelson</i>	27
5. PharmGKB, a Centralized Resource for Pharmacogenomic Knowledge and Discovery <i>Li Gong and Teri E. Klein</i>	38
6. DrugBank <i>David S. Wishart</i>	55
7. Ethical Considerations for Pharmacogenomics: Privacy and Confidentiality <i>Sandra Soo-Jin Lee</i>	66
8. Informed Consent in Pharmacogenomic Research and Treatment <i>Mark A. Rothstein</i>	74
9. Legal Trends Driving the Clinical Translation of Pharmacogenomics <i>Barbara J. Evans</i>	81
Part II: Therapeutic Areas	
10. Oncologic Drugs <i>Uchenna O. Njiaju and M. Eileen Dolan</i>	97

11. Pharmacogenetics and Pharmacogenomics of Cardiovascular Disease <i>Daniel Kurnik and C. Michael Stein</i>	115
12. Statin-Induced Muscle Toxicity <i>Russell A. Wilke, Melissa Antonik, Elenita I. Kanin, QiPing Feng, and Ronald M. Krauss</i>	125
13. Genomics of the Drug-Induced Long-QT Syndrome <i>Dan M. Roden, Prince J. Kannankeril, Stefan Kääh, and Dawood Darbar</i>	136
14. Pharmacogenetics of Diabetes <i>Mark C. H. de Groot and Olaf H. Klungel</i>	145
15. Pharmacogenetics – Therapeutic Area – Respiratory <i>Kelan Tantisira and Scott Weiss</i>	154
16. Pharmacogenomics Associated with Therapy for Acid-Related Disorders <i>Takahisa Furuta</i>	175
17. Pharmacogenetics of Rheumatology: Focus on Rheumatoid Arthritis <i>Robert M. Plenge, Yvonne C. Lee, Soumya Raychaudhuri, and Daniel H. Solomon</i>	188
18. Pharmacogenetics of Obstetric Therapeutics <i>David Haas and Jamie Renbarger</i>	202
19. Pharmacogenomics of Psychiatric Drugs <i>David Mrazek</i>	217
20. Pain and Anesthesia <i>Konrad Meissner and Evan D. Kharasch</i>	224
21. HIV and Antiretroviral Therapy <i>Amalio Telenti</i>	238
22. Application of Pharmacogenetics and Pharmacogenomics in Pediatrics: What Makes Children Different? <i>Jennifer A. Lowry and J. Steven Leeder</i>	249
23. Fetal and Neonatal Pharmacogenomics <i>Yair Blumenfeld</i>	263
