Cambridge University Press has no responsibility for the
 persistence or accuracy of URLs for external or third-party
 internet websites referred to in this publication, and does
 not guarantee that any content on such websites is, or will
 remain, accurate or appropriate.

To the extent permitted by applicable law, Cambridge University Press is not
 liable for direct damages or loss of any kind resulting from the use of this
 product or from errors or faults contained in it, and in every case Cambridge
 University Press's liability shall be limited to the amount actually paid by the
 customer for the product.

Every effort has been made in preparing this publication to
 provide accurate and up-to-date information which is in accord with
 accepted standards and practice at the time of publication. Although case
 histories are drawn from actual cases, every effort has been made to disguise
 the identities of the individuals involved. Nevertheless, the authors, editors
 and publishers can make no warranties that the information contained
 herein is totally free from error, not least because clinical standards are
 constantly changing through research and regulation. The authors, editors
 and publishers therefore disclaim all liability for direct or consequential
 damages resulting from the use of material contained in this publication.
 Readers are strongly advised to pay careful attention to information provided
 by the manufacturer of any drugs or equipment that they plan to use.
