Cambridge University Press has no responsibility for the persistence or
accuracy of URLs for external or third-party Internet websites referred to in
this publication, and does not guarantee that any content on such websites is,
or will remain, accurate or appropriate.

Every effort has been made in preparing this book to provide accurate and up-to-
date information that is in accord with accepted standards and practice at the
time of publication. Nevertheless, the authors, editors, and publisher can make no
warranties that the information contained herein is totally free from error, not least
because clinical standards are constantly changing through research and regulation.
The authors, editors, and publisher therefore disclaim all liability for direct or
consequential damages resulting from the use of material contained in this book.
Readers are strongly advised to pay careful attention to information provided by the
manufacturer of any drugs or equipment that they plan to use.
