|---|----------------|
| <i>List of contributors</i> | <i>page</i> vi |
| <i>Preface</i> | ix |
| 1. Definition and classification of estuaries <i>A. Valle-Levinson</i> | 1 |
| 2. Estuarine salinity structure and circulation <i>W. R. Geyer</i> | 12 |
| 3. Barotropic tides in channelized estuaries <i>C. T. Friedrichs</i> | 27 |
| 4. Estuarine variability <i>D. A. Jay</i> | 62 |
| 5. Estuarine secondary circulation <i>R. J. Chant</i> | 100 |
| 6. Wind and tidally driven flows in a semienclosed basin <i>C. Winant</i> | 125 |
| 7. Mixing in estuaries <i>S. G. Monismith</i> | 145 |
| 8. The dynamics of estuary plumes and fronts <i>J. O'Donnell</i> | 186 |
| 9. Low-inflow estuaries: hypersaline, inverse, and thermal scenarios <i>J. Largier</i> | 247 |
| 10. Implications of estuarine transport for water quality <i>L. V. Lucas</i> | 273 |
| <i>Index</i> | 308 |
