Every effort has been made in preparing this book to provide accurate and up-to-date information that is in accord with accepted standards and practice at the time of publication. Although case histories are drawn from actual cases, every effort has been made to disguise the identities of the individuals involved. Nevertheless, the authors, editors, and publishers can make no warranties that the information contained herein is totally free from error, not least because clinical standards are constantly changing through research and regulation. The authors, editors, and publishers therefore disclaim all liability for direct or consequential damages resulting from the use of material contained in this book. Readers are strongly advised to pay careful attention to information provided by the manufacturer of any drugs or equipment that they plan to use.

“I would like to thank Lisa Litzenberger for her great effort in drawing beautiful schematic images for some chapters of this book. Also, this book cannot be accomplished without the hard work and the commitment of my co-editors and the many contributing authors and co-authors, for whom I am extremely grateful.”
Xiayuan Liang

“For Nicole, Isabel, Vivien, and Margo”
Bradford Siegele

“In remembrance and dedication to Dr. Ronald Jaffe, life-long mentor and dear friend.”
