Every effort has been made in preparing this book to provide accurate and up-to-date information that is in
 accord with accepted standards and practice at the time of publication. Although case histories are drawn
 from actual cases, every effort has been made to disguise the identities of the individuals involved.
 Nevertheless, the authors, editors, and publishers can make no warranties that the information contained
 herein is totally free from error, not least because clinical standards are constantly changing through
 research and regulation. The authors, editors, and publishers therefore disclaim all liability for direct or
 consequential damages resulting from the use of material contained in this book. Readers are strongly
 advised to pay careful attention to information provided by the manufacturer of any drugs or equipment
 that they plan to use.
