

Contents

<i>Preface</i>	<i>page ix</i>
1 Introduction	1
1.1 Digital Image Restoration in Modern Society	1
1.2 What is a Digital Image?	3
1.3 Image Inpainting	5
2 Overview of Mathematical Inpainting Methods	8
2.1 Variational and PDE Methods	10
2.2 Structure Versus Texture Inpainting	21
2.3 Inpainting of Colour Images	24
2.4 Video Inpainting	25
3 The Principle of Good Continuation	26
3.1 Gestalt Theory	27
3.2 Kanizsa's Amodal Completion	29
4 Second-Order Diffusion Equations for Inpainting	32
4.1 An Axiomatic Approach to Image Inpainting	32
4.2 Harmonic Image Inpainting	41
4.3 Total Variation Inpainting	45
4.4 Absolutely Minimising Lipschitz Extensions	55
4.5 Further Reading and Some Extensions	59
5 Higher-Order PDE Inpainting	63
5.1 Second- Versus Higher-Order Approaches	63
5.2 Curvature-Based Inpainting	66
5.3 Cahn-Hilliard and TV- H^{-1} Inpainting	85
5.4 Low Curvature Image Simplifiers	119

Cambridge University Press

978-1-107-00100-8 - Partial Differential Equation Methods for Image Inpainting

Carola-Bibiane Schönlieb

Table of Contents

[More information](#)

viii	<i>Contents</i>	
5.5	Second-Order Total Variation Inpainting	121
5.6	Further Reading and Some Extensions	133
6	Transport Inpainting	137
6.1	Inpainting by Transport Along Level Lines	137
6.2	Inpainting with Coherence Transport	144
6.3	GuideFill: Fast Artist-Guided Transport Inpainting	150
7	The Mumford-Shah Image Model for Inpainting	161
7.1	Inpainting with Mumford-Shah	161
7.2	Mumford-Shah-Euler Inpainting	170
8	Inpainting Mechanisms of Transport and Diffusion	174
9	Applications	180
9.1	Restoration of Medieval Frescoes	180
9.2	Road Reconstruction	189
9.3	Sinogram Inpainting for Limited Angle Tomography	191
9.4	Inpainting for 3D Conversion	204
Appendix A	Exercises	211
Appendix B	Mathematical Preliminaries	217
Appendix C	MATLAB Implementation	229
Appendix D	Image Credits	231
	<i>Glossaries</i>	233
	<i>References</i>	237
	<i>Index</i>	253
