Contents

<i>List of contributors</i>	page viii
<i>Foreword</i>	
Peter W. Price	xiii
<i>Preface</i>	xv
1 Introduction <i>Takayuki Ohgushi, Oswald J. Schmitz and Robert D. Holt</i>	1
PART I COMMUNITY	7
2 Perspective: kinds of trait-mediated indirect effects in ecological communities. A synthesis <i>Thomas W. Schoener and David A. Spiller</i>	9
3 Consequences of trait changes in host–parasitoid interactions in insect communities <i>F. J. Frank van Veen and H. Charles Godfray</i>	28
4 The impact of trait-mediated indirect interactions in marine communities <i>Jeremy D. Long and Mark E. Hay</i>	47
5 Trait-mediated indirect interactions in size-structured populations: causes and consequences for species interactions and community dynamics <i>Volker H. W. Rudolf</i>	69
6 Trait-mediated effects, density dependence and the dynamic stability of ecological systems <i>Robert D. Holt and Michael Barfield</i>	89
7 Plant effects on herbivore–enemy interactions in natural systems <i>Kailen A. Mooney and Michael S. Singer</i>	107

vi CONTENTS

8	The implications of adaptive prey behaviour for ecological communities: a review of current theory <i>Scott D. Peacor and Clayton E. Cressler</i>	131
9	Community consequences of phenotypic plasticity of terrestrial plants: herbivore-initiated bottom-up trophic cascades <i>Takayuki Ohgushi</i>	161
10	Model-based, response-surface approaches to quantifying indirect interactions <i>Toshinori Okuyama and Benjamin M. Bolker</i>	186
	PART II COEVOLUTION	205
11	Perspective: trait-mediated indirect interactions and the coevolutionary process <i>Benjamin J. Ridenhour and Scott L. Nuismer</i>	207
12	Evolutionary indirect effects: examples from introduced plant and herbivore interactions <i>Jennifer A. Lau</i>	221
13	Indirect evolutionary interactions in a multitrophic system <i>Timothy P. Craig, Joanne K. Itami, Michael Dixon and Terry R. Hams</i>	244
14	The role of trait-mediated indirect interactions for multispecies plant–animal mutualisms <i>Rebecca E. Irwin</i>	257
15	Consequences of trait evolution in a multispecies system <i>Craig W. Benkman, Adam M. Siepielski and Julie W. Smith</i>	278
	PART III ECOSYSTEM	293
16	Perspective: interspecific indirect genetic effects (IIGEs). Linking genetics and genomics to community ecology and ecosystem processes <i>Gerard J. Allan, Stephen M. Shuster, Scott Woolbright, Faith Walker, Nashelly Meneses, Arthur Keith, Joseph K. Bailey and Thomas G. Whitham</i>	295
17	Species functional traits, trophic control and the ecosystem consequences of adaptive foraging in the middle of food chains <i>Geoffrey C. Trussell and Oswald J. Schmitz</i>	324
18	Effects of herbivores on terrestrial ecosystem processes: the role of trait-mediated indirect effects <i>Mark D. Hunter, Barbara C. Reynolds, Myra C. Hall and Christopher J. Frost</i>	339

CONTENTS vii

19	Functional and heritable consequences of plant genotype on community composition and ecosystem processes <i>Jennifer A. Schweitzer, Joseph K. Bailey, Dylan G. Fischer, Carri J. LeRoy, Thomas G. Whitham and Stephen C. Hart</i>	371
20	Microbial mutualists and biodiversity in ecosystems <i>Jennifer A. Rudgers and Keith Clay</i>	391
21	Integrating trait-mediated effects and non-trophic interactions in the study of biodiversity and ecosystem functioning <i>Alexandra Goudard and Michel Loreau</i>	414
	PART IV APPLIED ECOLOGY	433
22	Perspective: consequences of trait-mediated indirect interactions for biological control of plant pests <i>Maurice W. Sabelis, Arne Janssen and Izabela Lesna</i>	435
23	Natural enemy functional identity, trait-mediated interactions and biological control <i>Tobin D. Northfield, David W. Crowder, Randa Jabbour and William E. Snyder</i>	450
24	Trait-mediated effects modify patch-size density relationships in insect herbivores and parasitoids <i>Peter A. Hambäck, Petter Andersson and Tibor Bukovinszky</i>	466
25	Plasticity and trait-mediated indirect interactions among plants <i>Erik T. Aschehoug and Ragan M. Callaway</i>	489
26	Climate change, phenology and the nature of consumer-resource interactions: advancing the match/mismatch hypothesis <i>Jeffrey T. Kerby, Christopher C. Wilmers and Eric Post</i>	508
27	Coda <i>Takayuki Ohgushi, Oswald J. Schmitz and Robert D. Holt</i>	526
	<i>Index</i>	530

The colour plates are to be found between pages 432 and 433.
