	<i>List of illustrations</i>	page xi
	<i>Preface</i>	xiii
	<i>Acknowledgements</i>	xvi
	<i>Summary of key notation</i>	xvii
<b>1</b>	<b>Introduction</b>	1
	1.1 The structure of negotiation	2
	1.2 Parameters of automated negotiation	4
	1.3 A strategic approach	7
	1.4 Desiderata for automated negotiation	10
	1.5 Advantages and disadvantages of automated negotiation	11
	1.6 Structure of this book	13
	1.7 Historical notes and further reading	14
<b>2</b>	<b>Games in normal form</b>	17
	2.1 Zero-sum and non-zero-sum games	19
	2.2 Pure and mixed strategies	20
	2.3 Rational behaviour in strategic settings	21
	2.4 Solution concepts	22
	2.5 Solution properties	28
	2.6 Social measures of utility	30
	2.7 A first glimpse of bargaining as a game	33
<b>3</b>	<b>Games in extensive form</b>	35
	3.1 A formal definition	36
	3.2 Types of games and strategies	40
	3.3 Nash equilibrium	41
	3.4 Subgame perfect Nash equilibrium	42
	3.5 Beliefs and sequential rationality	47
	3.6 Weak perfect Bayesian equilibrium	50

3.7	Sequential equilibrium	52
3.8	The role of information	53
<b>4</b>	<b>Negotiation domains</b>	<b>56</b>
4.1	Classifying negotiation domains	57
4.2	Some example negotiation domains	64
4.3	Historical notes and further reading	72
<b>5</b>	<b>Strategic analysis of single-issue negotiation</b>	<b>74</b>
5.1	The negotiation model	75
5.2	An infinite-horizon alternating offers protocol	76
5.3	A finite-horizon alternating offers protocol	83
5.4	Negotiation with imperfect information	86
5.5	Indivisible issue negotiation	92
5.6	Negotiating an issue with discrete values	93
5.7	More on negotiation protocols	94
5.8	Historical notes and further reading	95
<b>6</b>	<b>Strategic analysis of multi-issue negotiation</b>	<b>97</b>
6.1	Negotiation procedures	97
6.2	The negotiation model	98
6.3	Negotiation with perfect information	100
6.4	Negotiation with imperfect information	112
6.5	Dealing with indivisible issues	114
6.6	Negotiating multiple issues with discrete and continuous values	117
6.7	Historical notes and further reading	119
<b>7</b>	<b>The negotiation agenda</b>	<b>121</b>
7.1	Negotiation agenda	122
7.2	Optimal agendas: package-deal procedure	123
7.3	Optimal agendas: sequential procedure	130
7.4	Optimal agendas: simultaneous procedure	137
7.5	Historical notes and further reading	137
<b>8</b>	<b>Multilateral negotiations</b>	<b>139</b>
8.1	Alternating offers protocol with multiple bargainers	139
8.2	Auction protocols	141
8.3	Contract net protocol	145
8.4	Two-sided matching	148
8.5	Bargaining for resource reallocation	151
8.6	Historical notes and further reading	155

*Contents*

ix

<b>9</b>	<b>Heuristic approaches</b>	157
9.1	Generating counter offers	157
9.2	Predicting opponent preferences and generating counter offers	162
9.3	Generating optimal agendas	169
9.4	Design and evaluation of heuristic strategies	171
9.5	Historical notes and further reading	174
<b>10</b>	<b>Man–machine negotiations</b>	176
10.1	Agent decision making	178
10.2	Modelling human negotiators	185
10.3	Virtual agent negotiators	190
10.4	Historical notes and further reading	191
<b>11</b>	<b>Axiomatic analysis of negotiation</b>	192
11.1	Background	192
11.2	Single-issue negotiation	193
11.3	Multi-issue negotiation	199
11.4	An alternative view of the Nash bargaining solution	201
11.5	Axiomatic versus non-cooperative models of bargaining	203
11.6	Historical notes and further reading	204
<b>12</b>	<b>Applications</b>	206
12.1	Business process management	206
12.2	Electronic commerce	209
12.3	Grid computing	210
12.4	Load balancing	211
12.5	M-services	213
12.6	Data, task, and resource allocation	215
12.7	Resolving policy disputes over natural resources	215
12.8	Supply chain management in logistics	217
12.9	Event scheduling	218
12.10	Crowdsourcing	218
12.11	Assisting and training human negotiators	219
12.12	Energy exchange in remote communities	221
12.13	Web-based software negotiation systems	222
<b>13</b>	<b>Related topics</b>	224
13.1	Social choice	224
13.2	Argumentation	229
13.3	Fair division	231
13.4	Historical notes and further reading	232

<b>14</b>	<b>Concluding remarks</b>	233
<b><i>Appendix A</i></b>	<b>Proofs</b>	235
	<i>References</i>	246
	<i>Index</i>	267
