 in this publication, and does not guarantee that any content on such
 websites is, or will remain, accurate or appropriate.

Every effort has been made in preparing this book to provide accurate and up-to-date information
 which is in accord with accepted standards and practice at the time of publication. Although case
 histories are drawn from actual cases, every effort has been made to disguise the identities of the
 individuals involved. Nevertheless, the authors, editors and publishers can make no warranties
 that the information contained herein is totally free from error, not least because clinical standards
 are constantly changing through research and regulation. The authors, editors and publishers
 therefore disclaim all liability for direct or consequential damages resulting from the use of
 material contained in this book. Readers are strongly advised to pay careful attention to infor-
 mation provided by the manufacturer of any drugs or equipment that they plan to use.
