Subject Index

- Abel
 - constant, 22
 - equation, 197
 - identity, 21, 23
 - integral equation, 82
- absolutely integrable, 101, 152
- Adjoint
 - boundary conditions, 17
 - Green's function, 18
 - of a matrix, 17
 - operator, 16, 17
- airfoil theory, 146
- analytic
 - continuation, 160, 162
 - domain, 152, 153
 - functions, 146
 - signal, 144
- angular frequency, 211
- anti-derivative, 123
- approximate kernel, 74
- asymptotic forms, 52

- Bessel
 - function, 20, 34
 - inequality, 73
- bi-linear, 44
 - concomitant, 18
- bi-orthogonal, 27
- Boundary Element Method, 84, 88
- boundary integral method, 84
- branch cut, 186
- Brillouin approximation, 210
- Bromwich contour, 176, 183

- Cagniard–De Hoop method, 198
- calculus of variations, 70
- Cauchy
 - integral, 39, 145
 - principal value, 88, 129, 144, 147
- Cauchy's theorem, 143
- causal, 142
- characteristic
 - equation, 63
 - line, 196
 - polynomial, 188
 - variables, 196
- circulation, 146
- collocation, 87
- complex conjugate, 100
- conformal mapping, 36
- convolution
 - integral, 119, 155, 180
 - operator, 119
 - sum, 164
 - theorem, 123, 128
- crystal acoustics, 210

- D'Alembert solution, 194
- degenerate kernel, 74
- delta sequence, 115
- determinant, 63
- difference equation, 205
- differential
 - equation, 10
 - operator, 10, 62
- diffusion equation, 134
- diffusivity, 130
- Dirac delta function, 3, 104
