Cambridge University Press has no responsibility for the persistence
 or accuracy of URLs for external or third-party internet websites
 referred to in this publication and does not guarantee that any
 content on such websites is, or will remain, accurate or appropriate.

Every effort has been made in preparing this book to provide
 accurate and up-to-date information which is in accord with
 accepted standards and practice at the time of publication. Although
 case histories are drawn from actual cases, every effort has been
 made to disguise the identities of the individuals involved.
 Nevertheless, the authors, editors and publishers can make no
 warranties that the information contained herein is totally free from
 error, not least because clinical standards are constantly changing
 through research and regulation. The authors, editors and publishers
 therefore disclaim all liability for direct or consequential damages
 resulting from the use of material contained in this book. Readers are
 strongly advised to pay careful attention to information provided by
 the manufacturer of any drugs or equipment that they plan to use.
