 quantum like (QL), xiv, xviii, 23, 27, 28, 36, 39, 84, 93, 132, 146, 163, 173, 180, 206, 207, 237, 248
 quantum Markov chain, 163, 164
 quantum Markov model, 164, 169, 170
 quantum observable, 19, 20, 22, 85, 86–89, 131, 137, 244, 245
 quantum probability, 56, 164
 quantum randomness, 242
 quantum social science, 38, 39, 54, 55–63
 quantum state, 74, 87, 95, 217
 quantum waves, 59, 107
 qubit, 64
- Rabin paradox, 64
 Radon–Nikodym derivative, 199, 216, 217, 218, 219, 220
 Radon–Nikodym theorem, 216
 Rapoport, 132
 rational, 115, 133, 135, 143, 156, 175, 177, 178
 reflexivity, 173, 179, 180, 181, 182, 198, 199, 206
 Rényi (quantity of information), 217, 219, 220
 representative agent, 190, 216, 217, 218
 Riemann's integral, 14
 Riemann–Silberstein representation, 13, 246
 risk (attitude towards), 45
 risk free rate, 44–53, 175, 176, 186, 193–223
 risk neutral probability measure, 193, 194
 Roehner, 38
 Rosen, 238
 Ross, 79
- Samuelson, 37, 46, 117, 177
 Savage, 37, 38, 115, 120, 120, 133, 135, 143
 Savage sure-thing principle, 38, 115, 120, 121, 132–140, 263
 Scheinkman, 175
 Schmeidler, 121, 125
 Schoemaker, 120
 Schäl, 48, 226
 Schweizer, 48, 226
 Segal, 63, 120, 121, 122, 234
 selection context, 128, 226, 129
 self-consciousness, 62
 self organizing system, 183
 Shafrir, 132, 163, 167
 Shepard, 61
 Shevchenko, 124, 125
 short selling, 205
 Shubik, 64

 Sornette, 48, 226
 Soros, 173, 179, 180, 181, 182, 198, 199, 206
 spatial localization, 192, 193, 194–196
 Specker, 35, 58
 square-integrable, 13, 20, 21, 22, 59, 72, 73
 Stanley, 38
 state functions, 94, 95, 194, 195
 stationary independent increments, 81
 St. Petersburg paradox, 117
 subjective probability, 56, 115, 121, 129, 133
 Suppes, 27, 208
 superposed state, 92
 symbolism, 18, 23
- Tan, 226
 tensor product, 243, 259
 time (psychological), 62, 251
 time scale, 42, 229, 237, 238, 243, 245
 time scale (mental), 251, 252, 259
 time scale (premental), 251
 Tirole, 174, 175, 178
 transition expectation, 162, 163, 164
 transition probabilities (matrix of), 136, 138, 141, 164, 166
 transitivity, 115, 121
 Tversky, 132, 133, 135, 134, 136–167
- Ullmann–Margalit, 177
 uncertainty creation, 174, 179
 unitary transformation, 76
 utility function, 45, 113, 114, 115, 116, 117, 118, 190
- vacuum field, 31, 238, 239, 240, 260
 value of an asset, 199
 Varadarajan, 90
 Varian, 116, 118, 119
 Verhulst, 60
 Vigier, 186
 violation of the law of total probability, 152, 237
