Contents

<i>Preface</i>	<i>page vii</i>
1 Introduction	1
2 Income and wealth distribution data for different countries	7
2.1 What are money, wealth and income?	7
2.2 Empirical analyses using data from earlier periods	8
2.3 Empirical analyses using data from recent periods	10
2.4 Measures of income inequality: Gini coefficient and Lorenz curve	28
3 Major socioeconomic modelling	35
3.1 Models of income distribution	35
3.2 Models of wealth distribution	36
3.3 Statistical equilibrium theory of markets	52
4 Market exchanges and scattering process	55
4.1 Gas-like models	55
4.2 Models with commodity	87
4.3 Models on networks	97
4.4 Models with debt	105
4.5 Models with tax	107
4.6 Other related models	108
5 Analytic structure of the kinetic exchange market models	114
5.1 Analytic results for the CC model	114
5.2 Analytic results for the CCM model	127
5.3 Analytic results for other models	139

vi	<i>Contents</i>	
6	Microeconomic foundation of the kinetic exchange models	150
6.1	Derivation of the basic kinetic exchange model	150
6.2	Production of a vector of commodities	156
6.3	A generalized version of the CC model	157
6.4	Inequality reversal	159
6.5	Global market	163
6.6	Steady-state distribution of money and price	164
6.7	Discussion	165
7	Dynamics: generation of income, inequality and development	168
7.1	The economic significance	168
7.2	Analysis of income distributions	169
7.3	Analysis of wealth distributions	182
8	Outlook	193
8.1	Chapters in a nutshell	194
8.2	Beyond income and wealth	195
8.3	Open problems and challenges	199
	<i>References</i>	201
	<i>Index</i>	213
