## 1 Introduction  
MIROSLAV BEBLAVÝ, DAVID COBHAM AND L’UDOVÍT ÓDOR  

## 2 Towards a new architecture for financial stability in Europe  
ATHANASIOS ORPHANIDES  

### Part I  The experience of the crisis  

#### 3 Weathering the financial storm: the importance of fundamentals and flexibility  
THORVARDUR TJÖRVI ÓLAFSSON AND THÓRARINN G. PÉTURSSON  

#### 4 The Irish crisis  
PHILIP R. LANE  

#### 5 The crisis in Spain: origins and developments  
ANGEL GAVILÁN, PABLO HERNÁNDEZ DE COS, JUAN F. JIMENO AND JUAN A. ROJAS  

#### 6 The financial crisis and the Baltic countries  
AURELIJUS DABUŠÍNSKAS AND MARTTI RANDVEER
Part II  Accession to the euro area

7 The road to euro adoption: a comparison of Slovakia and Slovenia 131
BISWAJIT BANERJEE, DAMJAN KOZAMERNIK AND L’UDOVÍT ÓDOR

8 Is the euro really a ‘teuro’? The effects of introducing the euro on prices of everyday non-tradables in Slovakia 157
MIROSLAV BEBLAVÝ

9 The euro’s contribution to economic stability in Central, Eastern and Southeastern Europe: is euro adoption still attractive? 184
EWALD NOWOTNY

10 Is the euro still attractive for CEE countries? 190
ZDENĚK TŮMA AND DAVID VÁVRA

Part III  The future of the euro area

11 Why the current account may matter in a monetary union: lessons from the financial crisis in the euro area 199
FRANCESCO GIAVAZZI AND LUIGI SPAVENTA

12 National fiscal rules within the EU framework 222
DANIELE FRANCO AND STEFANIA ZOTTERI

13 The road to better resolution: from bail-out to bail-in 243
THOMAS F. HUERTAS

14 Financial stability and monetary policy: lessons from the euro area 268
LAURENT CLERC AND BENOÎT MOJON

15 Is there a case for price-level targeting? 292
BORIS COURNÉDE AND DIEGO MOCCERO

16 Heterogeneity in the euro area and why it matters for the future of the currency union 320
WENDY CARLIN

Figures

4.1 Ratio of private credit to GDP, 1984–2008  page 62
4.2 Net foreign liabilities of the Irish banking system, 2003–10  63
4.3 Current account balance, 1998–2010  64
4.4 Spread between ten-year bonds: Ireland over Germany, 2007–10  70
5.1 Ex post real interest rates, 1995–2008  83
5.2 Age distribution of immigration inflows  84
5.3 Public finances, 1995–2008  84
5.4 Public debt, 1995–2008  85
5.5 External imbalance, 1995–2008  85
5.6 Current account balance, 1995–2008  86
5.7 Demographic changes: data vs. model, 1998–2008  88
5.8 Demographic and interest rate changes: data vs. model, 1998–2008  90
6.1 Comparison with previous recessions  100
6.2 Comparison of the Baltic States, 2004–9 or 2004–10  106
6.3 Output gap and REER indexes: Baltic States, 2004–9  118
6.4 Merchandise export and REER indexes: Baltic States, 2004–9  118
6.5 Output gaps: Baltic States, July 2010 estimates, 2000–11  120
6.6 Output gap for 2007: forecasts and estimates, 2005–10  121
7.1 Twelve-month HICP inflation and the Maastricht inflation criterion, 2000–10  135
7.2 Unit labour costs, 2000–9  138
7.3 Output gap estimates for Slovakia by alternative methods, 2000–8  139
7.4 Real exchange rates: Slovenia, 2000–10  144
7.5 Exchange rate and forex interventions: Slovakia, 2004–8  146
8.1 HICP inflation: euro area, the Czech Republic and Slovakia, 2001–10  164
List of figures

8.2 HICP inflation for passenger transport: Eurozone, Czech Republic and Slovakia, 2001–10 165
8.3 HICP inflation in restaurants, cafés and similar establishments: Eurozone, Czech Republic and Slovakia, 2000–10 166
8.4 HICP inflation in hairdressing salons and personal grooming establishments: Eurozone, Czech Republic and Slovakia, 2000–10 166
8.5 Perceived inflation: Eurozone, Czech Republic and Slovakia, 2001–10 170
8.6 Correlation of twelve-month moving sample of the Slovak HICP with Eurozone and Czech HICP, 2001–10 171
9.1 (a) Output growth, 2006–10 and (b) output differential, 2003–15: CEE and euro area 187
10.1 GDP per capita: OECD country groups 191
10.2 Real exchange rates: euro area, normalised, 1999–2009 191
10.3 Trade balance: euro area 192
10.4 Inflation rates before and after EMU entry 192
10.5 Exchange rate and GDP growth during the crisis 193
10.6 Spreads on government bonds 194
11.1 The PPF 210
11.2 Value added in construction, 1999–2009 213
14.1 Indebtedness of non-financial sectors: US and in the euro area, 1999–2010 272
14.2 Short-term interest rates and Taylor benchmarks: (a) euro area, (b) US, 1999–2009 274
14.3 HICP inflation: euro area, 1999–2010 275
14.4 Effects of shocks to credit standards and stance of monetary policy: euro area countries 277
14.5 Contribution of credit standards shocks and monetary policy shocks to variance of variables of interest: euro area countries 278
14.6 Counterfactuals without monetary policy shocks, 1985–2009 280
14.7 Average daily amount of excess reserves 282
14.8 ECB key rates, 2006–10 283
14.9 Spread between three-month interbank and overnight indexed swap (OIS) rates: euro area and US, 2007–9 284
14.10 Provision and liquidity absorption by Eurosystem, 2007–10 286
14.11 Covered bond spreads against five-year swap rate, 2008–10 287
List of figures

15.1 Prices over long periods: price-level targeting vs. IT in model simulations 302
15.2 Price index and price-level target path: selected countries, 1998–2008 303
15.3 Response of nominal interest rate to negative demand shock 306
15.4 The evolution of the CPI in Sweden, before and after price-level targeting, 1928–38 314
15.5 Exchange rate and policy discount rate: Sweden, 1928–38 314
16.1 Real effective exchange rates, 1999–2009 326

List of tables

7.1 Selected indicators at landmark dates, 1998–2007 132
7.2 Contribution of administered price and indirect taxes to year-on-year inflation, 1999–2008 136
7.3 Policy dilemma in new member states 142
7.4 Fiscal indicators, 2000–9 149
8.1 Answers by Eurozone respondents to the question: ‘For each of the following, do you personally have the feeling that, in the conversion to the euro, prices have been . . . ’ 158
8.2 Inflation in selected areas: July after euro adoption vs. the July prior to euro adoption 167
8.3 Nominal appreciation/depreciation in the run-up to the single currency 168
8.4 Perceived and actual HICP inflation in the six months prior to and twelve months after euro adoption 172
8.5 Actual and perceived inflation in period of euro adoption: Cyprus, the Eurozone, Slovakia and Slovenia 173
8.6 Summary statistics for datasets measuring changes in the prices of selected services: Bratislava and Brno, July 2008 and July 2009 174
8.7 Distribution of price changes for schnitzel and boiled potatoes: Bratislava and Brno 175
8.8 Distribution of price changes for a woman’s haircut: Bratislava and Brno 176
8.9 Frequency distribution of all price changes in the micro dataset, July 2008–July 2009 176
8.10 Comparison of enterprise-level inflation data: Bratislava and Brno, with national inflation data, July 2008–July 2009 177
8.A1 Inflation in selected areas, comparing prices eighteen months and six months prior to euro adoption 180
8.A2 Inflation in selected areas, comparing prices thirty months and eighteen months prior to euro adoption 181
8.A3 Inflation in selected areas, comparing prices forty-two months and thirty months prior to euro adoption 182
11.1 General government balance and debt, 2008–9 200
11.2 Cumulated current accounts, 1999–2008 201
11.3 Per capita income and labour productivity, 1998, 2000 and 2008 204
11.5 Determinants of growth, 1995–2005 206
11.6 Households, ratios to gross disposable income, 2000–8 214
11.7 Domestic credit, ratios to GDP, 2000, 2004 and 2008 214
List of tables

11.8 Portfolio investment of the four cohesion countries’ share of total investment, 2001 and 2008 215
12.1 Most common features of national fiscal frameworks in EU countries 227
13.1 Overview of resolution methods 252
13.2 Bail-in via write down/solvent wind down 258
13.3 Bail-in via conversion of back-up capital to common equity 260
13.4 Bail-in via conversion: timing and decision-maker for conversion ratios 261
15.1 The Swedish experience with price-level targeting 313
Box table 15.1 Compared simulated effects of IT and price-level targeting 298
Box table 15.2 Simulation results with backward-looking behaviour 298
Box table 15.3 IT vs. price-level targeting at very low equilibrium inflation rates 300
Boxes

15.1 Price-level targeting vs. higher inflation targets as protection against hitting the zero lower bound  page 296
