[More information](#)

INDEX

Page number in bold type indicate tables and figures

- accountability *see* responsibility for causing climate change
- Acketoft, Tina 375
- adaptation to climate change 70, 138, 139, 161, 181, 247, 252
- coastal settlements 169
- encouraged 151
- international cooperation 111, 112
- migration as failure 266
- migration as strategy 2, 25, 51–2, 126, 143, 211, 266
- origin and host countries 126
- planned movement 120
- sea level rise 163, 171–3
- strategies 155, 181
- technology / social organization 172, 174
- Affi, T. and Warner, K. (2008) 7, 9, 75
- Africa, drought / desertification, impact of 8, 331, 332, 349
- African Union(AU), Convention for the Protection and Assistance of Internally Displaced Persons in Africa (Kampala 2009) 295–6, 346, 371
- alarmist perspective 226, 227, 231–6, 238–9, 249
- environmental policy 252, 253, 254
- proposed policy developments 235, 239–42
- security challenges 231–43
- alarmist predictions 4–5, 139, 415–16, 418–19
- Alaska, sea level rise 178–9, 180
- relocation / resettlement 178–9
- official mismanagement of 179
- Aleinikoff, T. A. (2007) 130
- Americas, drought / desertification–population movement 8–9
- Annan, Kofi 303
- Antarctic, ice loss 42, 160, 164
- Anthoff et al. (2006) 11
- Arctic
- climate change 178
- ice loss 42, 160
- Arendt, H. (1973) 252
- asylum
- crisis 248
- policies 236, 237, 240, 243, 252
- right of 366
- seekers 369, 415
- Australia and climate change
- migration
- ad hoc visa schemes 119
- attitude and legislation 118–19
- government ideas and actions 124–5
- Pacific immigration policy 121–2, 381
- Refugee Review Tribunal (RRT) 118
- Bangladesh flooding 145–50, 316, 423
- adaptation / social organizational adjustment 174
- call for Western assistance 138, 144, 150
- climate change scenarios 151
- Disaster Emergency Response committee 147
- extreme weather 173

- IDP population 294
 improved weather forecasting 38
 mangrove forests 173
 rehabilitation of climate refugees 103
 river deltas 173–4
 sea level rise displacement 138,
 143–4, 146, 173–4, 231, 422
 shrimp aquaculture 173–4
 vulnerability to sea level rise 146,
 173–4
 water salination 43, 173
- Bangladesh flooding, research in
 affected communities 146–50
 attitude to mobility 148–9, 155
 debt and population movement
 149–50
 devastation 146
 effects on population 148
 extent of flood and damage 147–8
 food insecurity 148, 150
 international migration 148
 NGOs / emergency relief 147
 rural-urban migration 150
 temporary / local population
 movement 148, 149, 150,
 155, 156
 varying cultures of mobility 148, 150
- Ban Ki-moon, UN Secretary General,
 alarmist views 233
- Bankoff, G. (2004) 178
- Barrios, S. et al. (2006) 8
- Barros, M. (2006) 60
- Basher, R. (2008) 264
- Bateman, J. and Edwards, B. (2002) 319
- Bates, D.C. (2002) 234
- Bell, D. (2004) 235
- Biermann, F. and Boas, I.
 (2007;2008) 103–4
 (2010) 242
- Bilsborrow, R.E.
 (1992) 338
 (2009) 343
 and DeLargy, P.F. (1991) 75
- Black, R.
 (2001) 75, 224
 et al. (2008) 340, 344
New Issues in Refugee Research
 (2001) 237
- Refugees, Environment and
 Development* (1998) 236–7
- Boano, C. et al. (2008) 266
- Bohra-Mishra, P. and Masey, D. (2009)
 86, 310
- Bouteillet-Paquet, D. (2002) 369
- Brazilian Northeast, climate change,
 migration and health 49–70
 adaptability of population 51, 70
 climate change scenarios 57–8
 economic impacts on agriculture 58–9
 endemic infectious diseases 49, 68
 migration patterns 54–5, 56–7
 population / migration scenarios
 59–60
 study area 55–7, **56**
 vulnerability 49–50, 52–5, 60–1,
 69, 70
- Brazilian Northeast, projected migration
 scenarios 61–8, **62, 64**
- General Vulnerability Index 66,
68, 69
- IMAGEMB model 58–9
- implications for public health 66,
 68, 70
- IPPC's A2 and B2 scenarios 57–8,
 61–5, 69
- Standardized Economic-
 Demographic Index 66–7,
66, 67
- Brown, Lester
 (2008) 235
 World Watch Institute 140, 228, 235
- Brown, O. (2008) 221
- Burkina Faso
 drought / desertification 334, 335, 339
 drought and migration 214
 mobility trends 145
- Burson, B. (2008) 244
- Byravan, S. and Rajan, S.C. (2006) 234
- Canadian Security Intelligence Service,
 report (2004) 232
- Carr, E.R. (2005) 154
- Cartaret Islands, sea level rise 171,
 179–81
 access to land on Bougainville
 179–80

- Cartaret Islands, sea level rise (cont.)
 lack of funds 179–80
 relocation strategies 180, 181
 Tulele Peisa organization 179–80
 urgency of relocation 179–80
- Castles, S. (2002) 237–41

 sovereign rights 301
 Three Gorges Dam, displacement
 and resettlement 273–4, 275
- Chitwan Valley Family Study 74–99, 336
 data and methods 77–90, 422
 definition of migration 77–8
 definition of variables 78, 79
 dependent and independent
 variables 88–9
 education 90
 environmental indicators 78–83,
 90, 310
 agricultural productivity 82, 83,
 97, 98
 animal fodder / firewood,
 availability 78, 82, 83
 drinking water quality 82, 83, 97, 98
 human / social capital 85
 neighbourhood development
 82–3, 84, 85, 87, 98
 physical capital 83, 84, 86, 87, 89
 ethnicity 86
 independent and control variables
 78, 79–81
 internal warfare, effects of 85–6
 migration and environmental
 degradation 90–7, 99
 competing risks / locations 91–2
 fodder and firewood 90, 93, 97,
 98, 99
 gender interactions 94, 95–6, 97,
 98, 99
 international migration 93, 98
 moving to other districts 93, 98
 moving within Chitwan 90, 93
 study site 76–7
 time period 85
- Christian Aid, climate change
 predictions 235
- climate change
 acceleration of 422–24
 causes 424
 as focus of migration research 246
 ‘international climate change
 regime’ 247
 as main driver of migration? 106,
 112, 113, 115, 117, 118–19, 139,
 140, 142, 144, 151, 155, 156,
 253, 422
 need for action 45
 parameters 37–45
 politics of 415, 419
 spectrum of 139
see also slow-onset climate change
- climate change refugees 104–5
 definition 378
 international status 104
 responsibility for 105–6
 specific protection proposed
 373–6
see also environmental migration;
 environmental refugees
- climate displaced person category 105
- climate, forecasting changes
 disaster frequency and intensity
 22, 44
 meltwater reduction 41–2
 precipitation patterns 43–4
 sea level rise 11–12, 38, 42–3
 significance of timescale 45
 temperature change 38–41
 weather forecasting 37–8
- climate-induced displacement *see*
 displacement and climate
 change
