

## INDEX

- abortion, 3–5, 8, 9, 177, 185–197, 204, 205, 206, 207, 285, 291, 293, 294  
 1967 Act, 189–197  
 ethics, 202–207  
 late-term, 205  
 medicalisation of, 188, 194  
 pre-1967 statutes and case law, 186–189  
 abrogation of responsibility, 10, 111  
 absolute autonomy, 36  
 accepted medical practice, 54, 195  
 access to information, and confidentiality, 16–42  
 active euthanasia, 258–263, 284  
 administrative error, 77  
 adults, 76, 95, 109–111, 117, 123–124, 131–134, 215, 244, 246, 247, 254  
 and children distinguished, 133–134  
 competent, 134, 142  
 incapable, *see* adults, lacking capacity.  
 incapacitated, *see* adults, lacking capacity.  
 lacking capacity, 110–121, 132, 141–142, 218, 242, 249, 254, 271  
 end of life, 270–278  
 and organ transplants/tissue use, 218–221  
 temporary vs permanent incapacity, 132–133  
 advice, 6–7, 90, 119, 125, 151, 166, 246  
 contraceptive, 124–125  
 ethical, 6  
 age, 101, 118, 121, 123–124, 125–128, 132–134, 145, 164–166, 176, 178, 180  
 agency, 97–98, 105–106, 286  
 rational, 99, 105  
 Alder Hey, 212, 217, 222  
 all or nothing approach, 61–62  
 alternatives, 75–76, 84, 85, 106  
 informing patient of, 84–85  
 altruism, 181, 219, 230  
 amniocentesis, 85, 205  
 angiography, 84  
 ANH, *see* artificial nutrition and hydration.  
 anonymisation, 17, 29–31, 32, 35, 38–39  
 anorexia, 118–120  
 appropriate consent, 213–216, 217–218, 222  
 ART, *see* assisted reproductive technology.  
 artificial nutrition and hydration (ANH), 258–261, 270–273, 276–280, 289, 292  
 artificial ventilation, *see* ventilation.  
 assisted reproduction, 161–183, 240, 292  
 access to treatment, 162–166  
 ethics, 175–183  
 fatherhood, 168–171  
 IVF (in vitro fertilisation), 164–165, 173, 175–178, 179, 181, 205  
 motherhood, 169–171  
 parentage, 169  
 same-sex couples, 171  
 seeking treatment together, 166–169  
 surrogacy, *see* surrogacy.  
 Warnock Committee, 161–163, 174  
 assisted reproductive technology (ART), 175, 180  
 assisted suicide, 264–270, 284  
 atrocities, 97, 101, 249–250, 294  
 Australia, 82, 84, 87, 88–89, 94  
 Austria, 229  
 autonomous agents, 130, 286  
 autonomous choices/decisions, 84, 86, 102–104, 109, 115, 129, 294  
 autonomy, 9–11, 96, 97, 98, 99, 100, 103, 104, 105, 106, 119–120, 121–123, 127–142, 194, 226, 234–235, 264, 286–288, 293–294  
 absolute, 36  
 after *Blyth* and *Gold*, 82–84  
 and consent, 75–107  
 and ethics, 68–69, 99–103  
 exercise of, 90, 96, 100–103  
 illusion of, 123, 128–129

- autonomy (cont.)  
 individual, 69, 100, 103, 105, 133–135  
 and organ transplantation/human tissue use,  
 226–227, 231–232  
 patient, 68–69, 82, 87–88, 95, 115, 120, 133,  
 135, 138, 287–288, 292, 293  
 prioritisation of, 41, 84, 87, 88  
 professional, 74  
 reproductive, 182  
 autonomy-free zones, 81  
 avascular necrosis, 60–61
- babies, 173, 181–183, 186, 204, 259, 276  
 newborn, 186, 200–202, 206–207
- Bailey, S., 137, 138
- Baines, P., 132–134, 135
- balance of probabilities, 58–60
- balance of rights, 56, 183, 256, 291
- balancing acts, 182, 208, 249, 276, 280
- balancing exercises, 35, 36, 39, 182, 207–208,  
 225, 229, 253, 276–277, 292
- Beauchamp, T., 11, 68, 71–72, 98–99, 100,  
 102–103, 105, 106
- beliefs, 5, 97, 106–107, 113, 117, 119, 141, 145,  
 180, 185, 267, 279  
 religious, 89–90, 117, 122, 135, 136, 199
- beneficence, 11–12, 68–70, 140, 157
- best interests, 36, 109–114, 116–120,  
 125–129, 138–142, 197–200, 218–221,  
 238–239, 287  
 and *Bland* case, 270–278  
 and end of life, 270–281, 287–288  
 test, 117, 140
- best medical interests, 112, 113, 127, 275, 280,  
 282
- biobank research, 222, 226
- biobanks, 35, 37, 40, 211, 221–222, 232–234  
 ethics, 232–234
- biological material, human, 210–211, 221,  
 226, 232
- biomedical ethics, 11, 37, 68, 71, 100, 103,  
 105, 106
- biomedical research, 29, 37, 71, 130, 158,  
 221–223, 250
- blanket consent, 222
- blastocysts; *see also* embryos, 176–177, 202–203
- blindness, 57, 59–60, 63  
 partial, 57
- blood, 47, 135, 168, 213, 221, 231, 233  
 transfusions, 9, 89, 122, 128, 135
- bodily harm, 101, 259, 262
- body parts  
 human, 223–224  
 retained, 212
- Bolam* test, 9–10, 79–81, 86, 111, 239, 272, 293
- Bolitho* test, 54
- bone marrow, 147, 218–219
- brain death, 223
- breach of statutory duty, 59, 144, 153–155
- budding life, 202, 282
- but for test, 58, 69
- caesarean, life-saving, 135
- cancer, 40, 55, 62–63, 211, 221, 273
- capacity, 75–76, 90–99, 105–106, 109–110,  
 112–113, 114, 116, 119–120, 129–132,  
 244–246, 247, 291–292  
*see also* incapacity.  
 assessment of capacity to consent, 90–94  
 decision-making, 135, 136  
 of understanding, 247, 248
- cardiovascular death, 223
- care, duty of, *see* duties, of care.
- casualty departments, 46
- catheters, 57–59, 260
- causation, 44, 46, 52, 53, 57, 58–62, 64–69, 78, 84,  
 86–87, 88, 95  
 and negligence, 58–63  
 and risk disclosure, 86–88  
 single and multiple causes, 59
- cavernoma, 263
- chance of recovery, loss of, 60–63
- checklists, 112, 116–117, 119–120, 276
- children, 121–123, 126–128, 130–134, 135, 146,  
 163–164, 168–173, 175–182, 186–187,  
 190–194, 196–201, 215–216, 254  
*see also* minors.  
 and adults distinguished, 133–134  
 born alive but severely disabled, 197–200  
 competent, 126–127, 134  
 healthy, 205, 219  
 older, *see* older children.  
 resulting, 163, 165, 169–170, 186, 193, 196  
 unborn, 188, 208  
 welfare, 122–123, 125, 164, 199
- Childress, J., 11, 68, 71–72, 100, 102–103,  
 105, 106
- choice, 89–92, 94, 97–99, 102, 104, 157, 180–181,  
 205, 208, 229, 264, 267  
 autonomous, 84, 86, 102–104, 109, 115, 129, 294  
 free power of, 98, 250  
 parental, 208
- clinical discretion and NHS Constitution, 145–147
- clinical trials, 37, 238, 241–242, 243, 244,  
 246–249, 250, 254
