INDEX

AAB (American Association of Bioethics), 340–343
AAMC (American Association of Medical Colleges), health concepts of, 238–239
Abel, Emily, 24
abortion
  in Buddhism, 300–301
  in Christianity, 304–306
  Hindu beliefs concerning, 297–299
  Islam and, 306–308
  in Judaism, 303
About Schmidt (film), 148–149
Abu-Raiya, Hisham, 316–317
The Abuse of Casuistry (Jonsen), 340–343
academic health centers, emergence of, 68–72
access to health care
  bioethics and, 252–255
  equity in organization and distribution of, 277
  ethics of, 285–286
  gender differences in, 263–264
  medical technology and, 83
  power and, 263–264
  racism and, 270–272
Accreditation Council for Graduate Medical Education, 233–234
Ackerknecht, Erwin, 22
Acres of Skin (Hornblum), 270–272
ACS (American College of Surgeons), 82
Adab literature, 306–308
Addison, Heather, 139–140
Aesclepius
disease and cult of, 41–44
  medicine in time of, 27–29
  public health and, 90–91
  affirmative action, medicine and, 270–272
Affordable Care Act, 98–99
African Americans
  barriers to medical education for, 67–72
  on E.R., 163
  medical apartheid and, 270–272
  research involving, 49–50, 270–272
  Tuskegee Syphilis Study and, 52, 252–255, 272–273
agape, medieval norms in doctor-patient relationship
  and, 29–30
age, in medical humanities, 12–13
ageism, cultural emergence of, 138–139
“The Agent of Hope” (Capps), 367–370
aging populations
  cultural context for, 138–139
  disease rates in, 52, 145–147
  emergence in film of, 140–143
  in film, 138–151
  intergeneration and regeneration and, 143–145
  masculinity and, 149–151
  pathologization of, in film, 139–140
  sexuality and, 148–149
  vulnerability and care-giving in, 145–147
agnosticism and near-death experiences, 331–333
agriculture, disease and introduction of, 90
AIDS. See HIV/AIDS
Alexander, Shana, 252–255
Alport, Gordon, 321–323
Alsop, Stewart, 125–127
Alterra, Aaron, 125, 128, 133–135
Alzheimer’s disease
  in film, 146
  pathography of, 133–135
AMA. See American Medical Association
American Association of Bioethics (AAB), 340–343
American Association of Medical Colleges (AAMC), health concepts of, 238–239
American Board of Medical Specialties, 233–234
American College of Surgeons (ACS), 82
American Medical Association (AMA)
  Code of Ethics, 31–33, 104, 109
  medical education reforms and, 64–68
  medical technology and, 78
  opposition to health insurance, 278–279, 414n5
  Tuskegee Syphilis Study and, 272–273
American Psychiatric Association, 54–55, 244, 245–246
American Society for Bioethics and Humanities (ASBH), 291–293, 340–343
American Society for Reproductive Medicine, 229–230
Amherst, Jeffrey, 93–94

Amour (film), 147
An Unquiet Mind (Jamison), 246–247
“Ancient Gentilly” (Williams), 183–184
Anderson, Herbert, 317–318
anesthesia
in childbirth, 79–80
development of, 76–77, 78–79
intermittent positive pressure ventilation technique
and, 82–83
animal domestication, disease and, 90
Annas, George, 153, 165, 342
anorexia, 54–55
anthropology
bioethics and, 259
cultural competency and, 294–296
anti-heroism
in doctor show formula, 164–165
in medical narratives, 89–90
anti-miscegenation laws, 96
antibacterial medications, development of, 51
antibiotics, development of, 52
antimalarial drugs, ethical issues in development of, 52
Antiochis, 58–59
antiquity
death and dying in, 105–106
disease theory in, 41–44
doctor-patient relationship in, 27–29
Judaism in, 301
medical education in, 58–60
public health in, 90–91
technology in, 75–78
Antiseptic Principle of the Practice of Surgery
(Lister), 79–80
Antisepsis, development of, 79–80
Antoine Plague, 90–91
Aquinas. See Thomas Aquinas
Arab culture, early medical education and, 59–60
Ariès, Philippe, 24, 104–105, 106–107
Ars Moriendi (art of dying), 107
arsenotherapy, Tuskegee Syphilis Study and, 272–273
artificial blood substitutes, ethics of research on, 273–274
artificial respiration, 82–83, 84. See also mechanical ventilation systems
arts
medical humanities and, 13
medicine in, 123–124
mental illness and, 246–247
metaphor in, 333–336
Aryan ideology, public health policies and, 97
ASBH (American Society for Bioethics and Humanities), 291–293
assisted suicide, 115–116, 125–127
Atahualpa, 93–94
Atman (Hindu soul), 297–299
attention deficit/hyperactivity disorder, 54–55
Auden, W. H., 169, 187–188
Auenbrugger, Leopold, 77–78
Augustine of Hippo (St.), 304–306
auscultation
history of, 77–78
stethoscope and evolution of, 78
Autobiography of a Face (Grealy), 125, 128, 132–133
automatic utopianism, bioethics and, 255–257
autonomy principle
bioethics and, 256–257, 340–343
end of life care and, 226
proceduralism and, 257–259
autopsy. See also dissection
early medical education and, 58–59
history in Renaissance of, 30–31
during Scientific Revolution, 48
Avery, Eric, 99–101, 100f5, 131
AWARE study, 331–333
Away from Her (film), 146–147
Ayurvedic medicine, 297–299
Bacon, Francis, 47–48, 108–109
bacteriology, historical development of, 50–51
Bad Blood (Jones), 270–272
Balle con la Talaca (Dance with Death) (Jimenez), 118f6
Bailey, Henry, 270–272
Bakan Brown, Isaac, 268–270
Baker, Robert, 24
baptism, in Christianity, 304–306
barbers, surgeons and, 76–77
Barnard, Christian (Dr.), 114–115, 252–255
Barth, Karl, 345–346
Basic Christian Ethics, 341–342
Bates, Kathy, 148
Battery, Robert, 268–270
Bayley, John, 146
Beauchamp, Tom L., 226, 255–258
beauty
aesthetics of, 211–212
aging and concepts of, 139–140
arts as reflection of, 123
disease and, 246–247
feminist perspectives on, 268–270
scarring and, 125, 128, 132–133, 171–173
subjectification and, 264–266
Beecroft, Henry K., 252–255
Beginners (film), 149
Ben Casey (television show), 153, 156–157, 158–160
clinical ethics and, 425n53
proceduralism and, 257–259
Benjamin, Walter, 49–50
Benson, Herbert, 315
Berger, John, 123–124, 181
Bergman, Ingmar, 140–143
Berlin, Isaiah, 216
Between Darkness and Light (McCleary), 283f18
Bible
ancient theories of disease in, 41–44, 45
Christianity in, 301–304
in Judaism, 366–367
religion and health and, 330–331
religion and mental illness and, 333–336
suffering in, 362–364
Bicêtre, 49
Bichat, Xavier, 49, 50
Billings, John Shaw, 4, 21–22, 65
bimaristans (Islamic hospitals), 91–93
bioethics
access to health care and, 286–287
contemporary discussions in religion and, 352–355
disease and, 8–9, 77–78, 247–249
disease model of, 242–245
emergence of, 1–2
emergency room research, 273–274
emo
gender malleability theory and, 266–268
healthcare reform and, 285–286
Hinduism and, 297–299
historical evolution of, 252–255
history of religion and, 340–343
House, M.D. television show and, 164–165
medical technology and, 81–84
philosophy and, 255–257
professional ethics and, 348–350
public policy and religion, 352
religion and, 259, 340–355
secularization in, 291–293
theological founders of, 343–351
Tuskegee Syphilis Study and, 272–273
world religions and, 296–308
Bioethics at the Movies, 154
Bioethics in Pluralistic Societies” (Engelhardt), 350–351
Biomedical reductionism
dehumanization in health care and, 1–2, 36–38
in medical education, 4–6
physicians’ experiences with religion and, 329–330
biomedical science, medical education and prominence of, 4–6
biom
biomedical
biomedical science, medical education and prominence of, 4–6
birth of, 49–51
disease model of, 242–245
biopolitics, medical humanities and, 11–12
biopsychosocial model of medicine, 9–10
bioscience
knowledge theory and, 214–216
limits of education in, 199–201
biostatistical theory, normative model of disease and, 242–245
in pain, 9–10
in poetry, 170–171
Renaissance medicine and, 30–31, 46–47
scientific study of, 47–48, 213–214
x-ray images of, 80–81
Body Trauma TV, 154, 163
The Body Project (Brumberg), 264–266
Bok, Sissela, 342
Bologna, University of, early medical education at, 59–60
Bonner, Thomas, 24
Book of Job, suffering in, 362–364
Boorse, Christopher, 237, 242–245, 249
Boston Doctors (Southworth), 271
bottom-up reasoning, bioethics and, 259
Boulditch, H. I., 65
Brahma (Hindu Creator), 297–299
Brahms, Johannes, 130
brain death concept, 114–115
brain function
mental illness and, 245–247
personhood and, 347
Brancus, Constantin, 303
Brandt, Allen, 272–273
BRCA 1 and 2, breast cancer and, 53–54
Breaking Bad (television show), 156
Britain. See Great Britain
Brody, Baruch, 342–343
Brody, Howard, 239
Brozard, Anatole, 168, 195
Brumberg, Joan, 264–266
Buber, Martin, 220
blood transfusions, artificial blood substitutes and, 273–274
bloodletting
as early medical practice, 48
early technology for, 75–76
Boccaccio, Giovanni, 91–93
body. See also autopsy; dissection
