Every effort has been made in preparing this book to provide accurate
and up-to-date information which is in accord with accepted standards
and practice at the time of publication. Although case histories are
drawn from actual cases, every effort has been made to disguise the
identities of the individuals involved. Nevertheless, the authors,
editors, and publishers can make no warranties that the information
contained herein is totally free from error, not least because clinical
standards are constantly changing through research and regulation.
The authors, editors, and publishers therefore disclaim all liability for
direct or consequential damages resulting from the use of material
contained in this book. Readers are strongly advised to pay careful
attention to information provided by the manufacturer of any drugs or
equipment that they plan to use.
