Acknowledgments \hspace{1cm} xv

1 Extraordinary Events and Public Opinion \hspace{1cm} 1
Catastrophes as Regular Critical Moments in American Politics \hspace{1cm} 3
The Political Importance of Collective Experiences and Attributions of Blame \hspace{1cm} 7
Hurricane Katrina as a Test Case \hspace{1cm} 9
Advantages and Limits of Our Tests \hspace{1cm} 14
Overview of the Book \hspace{1cm} 16

2 A Theoretical Framework for Systematically Examining Extraordinary Events \hspace{1cm} 22
Normal Politics versus Extraordinary Moments \hspace{1cm} 24
Extraordinary Events as Political Context \hspace{1cm} 27
Media Coverage and the Information Environment in Extraordinary Events \hspace{1cm} 29
Public Reactions: Affective Attributions of Blame in Times of Crises \hspace{1cm} 34
Affective Attributions and Their Consequences for Political Opinions \hspace{1cm} 39
Affective Attributions and the Anger–Punishment Link \hspace{1cm} 42
Summary and Conclusions \hspace{1cm} 44
3  The Media Message Environment and the Emotional Context of Hurricane Katrina 46
   Media Data 46
   Public Attentiveness and Media Selection Following Hurricane Katrina 48
   Emotional Primes in Coverage of Hurricane Katrina 50
   Affective Engagement of the Public 54
   Media, Politics, and Blame Following Hurricane Katrina 60
   Summary and Conclusions 74

4  Affective Attributions: Assigning Blame during Extraordinary Times 76
   Public Agreement with Blame Frames 77
   Empirical Expectations from the Theory of Affective Attributions 82
   Empirical Models and Results, Attributions of Blame 84
   Race and Attributions of Blame 93
   The Emotional Fallout from Attribution of Blame 98
   Empirical Models and Results, Anger 100
   Summary and Conclusions 103

5  Federalism in a Multiple-Message Environment: Are the Appropriate Leaders Held Accountable? 105
   Evaluations of the Performance of Leaders during Hurricane Katrina 107
   Attributions and the Assignment of Political Responsibility 108
   Multiple Messages, Federalism, and Assignment of Responsibility 111
   Empirical Models and Results 118
   Direct Effects of Anxiety and Anger on Evaluation 129
   Conditional Effects of Anger on Evaluation 130
   Summary and Conclusions 133

6  Attributions of Blame, Political Efficacy, and Confidence in Government 135
   Public Confidence in Government 137
   Efficacy, Confidence, and the Case of Hurricane Katrina 139
   Empirical Results, Confidence in Government 147
   Examining Longer-Term Effects of Katrina with a Cuing Experiment 155
   Summary and Conclusions 158

7  Attributions, Emotions, and Policy Consequences 160
   Informational and Punitive Policy Proposals Following Hurricane Katrina 161

Tables

1.1 Selected Major Disasters Covered by NBC Nightly News, 1986–2010, Ordered by Amount of Coverage   page 6
3.1 Emotional Engagement by Level of Attentiveness   57
3.2 Attention and Emotion, by Race (Std Errors)   59
3.3 Percentage of All News Segments Containing Implicit or Explicit Attributions of Blame, Transcript Segments   71
4.1 Distribution of Public Responses to Attributions of Blame, in Percentages   79
4.2 Distributions of Responses of Belief that State Failure Had an Effect on National Government Response Time, in Percentages   79
4.3 Agreement with Attributions by Partisanship, in Percentages   81
4.4 Ordered-Probit Models of Attributions of Blame, Select Coefficients for Focal Variables   86
4.5 Predicted Probabilities of Agreement with Societal Breakdown Frames, by Race   95
4.6 Select Ordered-Probit Coefficients from the Model of Anger   102
5.1 Evaluations of Leader Performance in the First Few Days after the Storm, in Percentages   108
5.2 Mean Evaluations of President Bush, Governor Blanco, and Mayor Nagin   114
List of Tables

5.3 Mean Evaluations of Bush, Blanco, and Nagin by Dominant Attribution Frame 117
5.4 Select Ordered-Logit Coefficients from Models of Evaluations of Leaders 119
5.5 Predicted Probabilities of Evaluations of Bush, Blanco, and Nagin, by Party and Attribution to Nature 124
5.6 Predicted Probabilities of Evaluations of Bush, Blanco, and Nagin, by Party and Attribution to National Government 125
5.7 Comparing Coefficients across Performance Models of Bush with and without the Angry Interaction 131
6.1 Ordered-Probit Models of External Efficacy 144
6.2 Individual-Level Confidence in Government to Handle Future Catastrophes, in Percentages 149
6.3 Select Ordered-Probit Coefficients from Models of Confidence in Government to Handle Future Crises 150
6.4 Predicted Probabilities of Feeling Less Confident, by Attribution Agreement and Level of Anger 152
6.5 Select Coefficients from a Negative Binomial Model of Lowered Confidence in Crisis Response 154
6.6 Experimental Effects of Crisis Prompts on Level of Confidence in Government 156
6.7 Selected Coefficients, Ordered-Probit Models of Confidence in Government 157
7.1 Public Opinions about Post-Katrina Policies, in Percentages 162
7.2 Select Coefficients from Ordered-Probit Models of Public Policy Preferences 171
7.3 Predicted Probability of Agreement and Disagreement with Policy When the Independent Variable Is at Its Minimum and Maximum 173
8.1 Summary of Main Hypotheses and Supportive Evidence 186
D.1 Ordered-Probit Models of Attributions of Blame 209
D.2 Ordered-Probit Model of Anger about New Orleans 211
E.1 Ordered-Probit Models of Evaluations of Leaders 212
E.2 Ordered-Probit Models of Evaluations of Leaders with Anger Interaction 213
List of Tables

F.1 Ordered-Probit Model of External Efficacy 215
F.2 Ordered-Probit Models of Confidence in National Government to Handle Future Catastrophes 216
F.3 Negative Binomial Model of “Less Confident” Count 217
F.4 Ordered-Probit Model of Confidence in Government to Assist Victims and Maintain Order 218
G.1 Ordered-Probit Models of Policy Preferences 220
G.2 Ordered-Probit Models of Policy Preferences, with Emotion Interactions 221
Figures

2.1 Overview of the Opinion Formation Process during Extraordinary Events  page 24
2.2 Causal Linkages in Opinion Formation during Extraordinary Events  41
3.1 Average Primetime News Viewers Based on Nielsen Ratings for FNC, CNN, and MSNBC, Combined  47
3.2 Count of Attributions of Blame on All Networks, Three-Day Moving Average  73
4.1 Effects of Party Identification on Agreement with Attribution to National Government, Conditioned by Level of Anxiety  88
4.2 Effects of Party Identification on Agreement with Attribution to State Government, Conditioned by Level of Anxiety  88
4.3 Effects of Party Identification on Agreement with Criminal Behavior Attribution, Conditioned by Level of Anxiety  90
4.4 Effects of Party Identification on Agreement with Attribution to Nature, Conditioned by Level of Anxiety  90
4.5 Effects of Party Identification on Agreement with Non-evacuation Attribution, Conditioned by Level of Anxiety  91
4.6 Effects of Party Identification on Agreement with National Government Attribution, No-Anxiety and Low-Anxiety Respondents  93
List of Figures

5.1 Effect of Attribution of Blame to National Government on the Probability of a “Poor” Evaluation of President Bush, Conditioned by Level of Anger 132

6.1 Predicted Probabilities of Feeling Efficacious by Levels of Blame Attribution and Anger 146

6.2 Predicted Probabilities of Confidence in Government, by Experimental Prompt 158

7.1 The Effect of Blaming National Government on Agreement with Limiting Presidential Authority, Conditioned by Level of Anger 179

7.2 The Effect of Party Identification on Agreement with Limiting Presidential Authority, Conditioned by Level of Anxiety 180

8.1 Frequency of Disaster Polling Questions, 1986–2010 196
