Preface ix

## Section 1. Cardiac pseudotumors and other challenging diagnoses

- Case 1. Right atrial pseudotumor due to crista terminalis 1  
*Stefan L. Zimmerman*
- Case 2. Cardiac pseudotumor due to lipomatous hypertrophy of the interatrial septum 4  
*Pejman Motarjem and Stefan L. Zimmerman*
- Case 3. Cardiac pseudotumor due to caseous mitral annular calcification 8  
*Stefan L. Zimmerman*
- Case 4. Cardiac pseudotumor due to focal hypertrophic cardiomyopathy 11  
*Celia P. Corona-Villalobos and Stefan L. Zimmerman*
- Case 5. Pseudothrombus in the left ventricle due to microvascular obstruction 16  
*Stefan L. Zimmerman*
- Case 6. Pseudothrombus in the left atrial appendage 20  
*Stefan L. Zimmerman*
- Case 7. Pseudolymphadenopathy due to fluid in the pericardial recess 22  
*Satomi Kawamoto*
- Case 8. Valvular masses 26  
*Stefan L. Zimmerman*
- Case 9. Cardiac angiosarcoma 30  
*Stefan L. Zimmerman*
- Case 10. Ventricular non-compaction 34  
*Nathan Johnson and Stefan L. Zimmerman*
- Case 11. Hypertrophic cardiomyopathy mimics 38  
*Stefan L. Zimmerman*
- Case 12. Stress cardiomyopathy 41  
*Stefan L. Zimmerman*
- Case 13. Epipericardial fat necrosis 45  
*Atif Zaheer*

## Section 2. Cardiac aneurysms and diverticula

- Case 14. True and false left ventricular aneurysms 47  
*Stefan L. Zimmerman*
- Case 15. Ventricular diverticula, clefts, and crypts 50  
*Stefan L. Zimmerman*
- Case 16. Left atrial diverticula 54  
*Stefan L. Zimmerman*

- Case 17. Aneurysm of the membranous ventricular septum 57  
*Stefan L. Zimmerman*
- Case 18. Aneurysm of the interatrial septum 60  
*Stefan L. Zimmerman*
- Case 19. Sinus of Valsalva aneurysm 64  
*Vivek Halappa and Atif Zaheer*

## Section 3. Anatomic variants and congenital lesions

- Case 20. Patent foramen ovale and left atrial septal pouch 67  
*Stefan L. Zimmerman*
- Case 21. Partial cor triatriatum 69  
*Stefan L. Zimmerman*
- Case 22. Congenital absence of the pericardium 72  
*Tessa S. Cook*
- Case 23. Partial anomalous pulmonary venous return 74  
*Tessa S. Cook*
- Case 24. Unroofed coronary sinus 78  
*Mark Stellingworth and Stefan L. Zimmerman*
- Case 25. Patent ductus arteriosus 81  
*Tessa S. Cook*
- Case 26. Bicuspid aortic valve with raphe mimicking tricuspid valve 84  
*Stefan L. Zimmerman*
- Case 27. Pseudocoarctation due to aortic tortuosity 87  
*Vivek Halappa and Atif Zaheer*

## Section 4. Coronary arteries

- Case 28. Respiratory and cardiac gating artifacts in cardiac CT 90  
*Tessa S. Cook*
- Case 29. Overestimation of coronary artery stenosis due to calcified plaque 93  
*Stefan L. Zimmerman*
- Case 30. Right coronary artery pseudostenosis due to streak artifact 96  
*Stefan L. Zimmerman*
- Case 31. Pseudostenosis from stair-step reconstruction artifact 99  
*Stefan L. Zimmerman*

## Table of Contents

- Case 32.** Pseudostenosis in the coronary arteries due to motion artifact 102  
*Stefan L. Zimmerman*
- Case 33.** Pseudostenosis on curved planar reformatted images 105  
*Stefan L. Zimmerman*
- Case 34.** Coronary stent visualization 107  
*Stefan L. Zimmerman*
- Case 35.** Myocardial bridging 109  
*Stefan L. Zimmerman*
- Case 36.** Intramural versus septal course for anomalous interarterial coronary arteries 113  
*Stefan L. Zimmerman*
- Case 37.** Coronary artery fistulas and anomalous coronary artery origin 117  
*Stefan L. Zimmerman*
- Case 38.** Giant coronary artery aneurysms 120  
*Mark Stellingworth, Saurabh Jha, Koteswara Pothineni, and Stefan L. Zimmerman*
- Case 39.** Caseous calcification of the mitral annulus mimicking circumflex coronary artery aneurysm 124  
*Stefan L. Zimmerman*
- Case 40.** Vein graft aneurysms after CABG 127  
*Tessa S. Cook*
- Case 41.** Hypoattenuating myocardium 129  
*Vivek Halappa and Atif Zaheer*

**Section 5. Pulmonary arteries**

- Case 42.** Pitfalls in obtaining optimal vascular contrast for pulmonary embolism examinations 131  
*Pamela T. Johnson*
- Case 43.** Artifacts mimicking pulmonary embolism 134  
*Pamela T. Johnson*
- Case 44.** Pulmonary artery imaging for pulmonary embolism in patients with Fontan shunt for congenital heart disease 137  
*Pamela T. Johnson*
- Case 45.** Pulmonary arteriovenous malformations 141  
*Maera Haider and Atif Zaheer*
- Case 46.** Pulmonary artery sarcoma 143  
*Stefan L. Zimmerman*

**Section 6. Cardiovascular MRI artifacts**

- Case 47.** Inappropriate inversion time selection for late gadolinium enhancement imaging 146  
*David Bonekamp and Stefan L. Zimmerman*
- Case 48.** Pseudothrombus on dark blood images 150  
*Stefan L. Zimmerman*
- Case 49.** Gibbs ringing artifact 154  
*David Bonekamp and Stefan L. Zimmerman*
- Case 50.** Aliasing artifact in phase-contrast cardiac MRI 159  
*Stefan L. Zimmerman*

- Case 51.** Pseudostenoses on MR angiography from susceptibility artifact 162  
*Stefan L. Zimmerman*
- Case 52.** Pseudostenosis on time-of-flight magnetic resonance angiography 165  
*David Bonekamp and Stefan L. Zimmerman*
- Case 53.** Maki effect 168  
*David Bonekamp and Stefan L. Zimmerman*

**Section 7. Acute aorta and aortic aneurysms**

- Case 54.** Pitfalls in arterial enhancement timing 171  
*Pamela T. Johnson and Spencer T. Lake*
- Case 55.** Misdiagnosis of acute aortic syndrome in the ascending aorta due to cardiac motion 176  
*Nathan Johnson and Stefan L. Zimmerman*
- Case 56.** Aortic pseudodissection from penetrating atherosclerotic ulcer 179  
*Tessa S. Cook*
- Case 57.** Ductus diverticulum mimicking ductus arteriosus aneurysm 181  
*Pejman Motarjem and Stefan L. Zimmerman*
- Case 58.** Pericardial recess mimicking traumatic aortic injury 186  
*Stefan L. Zimmerman*
- Case 59.** Neointimal calcifications mimicking displaced intimal calcifications on unenhanced CT 189  
*Saurabh Jha*
- Case 60.** The value of non-contrast CT in vascular imaging 193  
*Saurabh Jha and Benoit Desjardins*
- Case 61.** Shearing of branch arteries in intramural hematoma: a mimic of active extravasation 197  
*Saurabh Jha*
- Case 62.** Imaging features of aortic aneurysm instability 200  
*Pamela T. Johnson*
- Case 63.** Aortoenteric fistula 204  
*Siva P. Raman*
- Case 64.** Inflammatory aortic aneurysm 206  
*Atif Zaheer*
- Case 65.** Incorrect aneurysm measurement due to aortic tortuosity 210  
*Pamela T. Johnson*

**Section 8. Post-operative aorta**

- Case 66.** Surgical pledget mimicking aortic pseudoaneurysm 213  
*Stefan L. Zimmerman*
- Case 67.** Pseudoendoleak post-endovascular stent graft placement due to calcified material in the aneurysm sac 216  
*Pamela T. Johnson*

- Case 68.** Type II endoleak occult on arterial phase images 218  
*Pamela T. Johnson*
- Case 69.** Elephant trunk graft mimicking aortic dissection 221  
*Pamela T. Johnson*
- Case 70.** Pseudodissection due to aortic graft kinking 224  
*Stefan L. Zimmerman*
- Case 71.** Perigraft fluid collections 227  
*Stefan L. Zimmerman*
- Case 72.** Post-operative air in the aorta: when is it of concern? 231  
*Saurabh Jha*

## Section 9. Mesenteric vascular

- Case 73.** Pseudostenosis of the common bile duct from crossing hepatic artery 234  
*Sumera Ali and Atif Zaheer*
- Case 74.** Pseudometastatic disease from hepatic arteriportal shunts 236  
*Atif Zaheer*
- Case 75.** Pancreatic pseudomass due to thrombosed pseudoaneurysm 239  
*Vivek Halappa and Atif Zaheer*
- Case 76.** Splenic artery aneurysm mimicking pancreatic neuroendocrine tumor 241  
*Pamela T. Johnson*
- Case 77.** Median arcuate ligament compression 243  
*Sumera Ali and Atif Zaheer*
- Case 78.** Non-occlusive mesenteric ischemia 245  
*Atif Zaheer*
- Case 79.** Segmental arterial mediolysis 248  
*Atif Zaheer*
- Case 80.** Superior mesenteric artery syndrome 250  
*Maera Haider and Atif Zaheer*
- Case 81.** Renal fibromuscular dysplasia 252  
*Atif Zaheer*
- Case 82.** Reversal of superior mesenteric artery and vein in midgut volvulus 255  
*Vivek Halappa and Atif Zaheer*
- Case 83.** Mesenteric artery collateral pathways 258  
*Atif Zaheer*
- Case 84.** Mesenteric artery anatomic variants 260  
*Satomi Kawamoto*

## Section 10. Peripheral vascular

- Case 85.** Superficial femoral artery occlusions 263  
*Stefan L. Zimmerman*
- Case 86.** Popliteal artery entrapment 266  
*Vivek Halappa and Atif Zaheer*
- Case 87.** Suboptimal bolus timing in CT angiography of the extremities 269  
*Tessa S. Cook*
- Case 88.** Lower extremity arteriovenous fistula 272  
*Atif Zaheer*
- Case 89.** Persistent sciatic artery 275  
*Tessa S. Cook*

## Section 11. Veins

- Case 90.** Pseudolipoma of the inferior vena cava 278  
*Satomi Kawamoto*
- Case 91.** Pseudomass from varicose veins 281  
*Satomi Kawamoto*
- Case 92.** Catheter malpositions 285  
*Satomi Kawamoto*
- Case 93.** Pseudothrombus in the inferior vena cava and other venous systems 288  
*Satomi Kawamoto*
- Case 94.** Venous collateral pathways in caval obstruction 292  
*Sumera Ali and Atif Zaheer*
- Case 95.** Catheter-related thrombus and incidental small vein thrombosis 295  
*Satomi Kawamoto*
- Case 96.** Nutcracker syndrome 299  
*Satomi Kawamoto*
- Case 97.** May–Thurner syndrome 302  
*Satomi Kawamoto*
- Case 98.** Pseudocarcinomatosis due to venous malformation 305  
*Atif Zaheer*
- Case 99.** Inferior vena cava anatomic variants 308  
*Satomi Kawamoto*
- Case 100.** Superior vena cava anatomic variants 312  
*Pamela T. Johnson*

*Index* 315
