Part I Theory and methods

1 The transformative power of globalization and the structure of political conflict in Western Europe 3
   Edgar Grande and Hanspeter Kriesi
   Introduction 3
   The theoretical framework: an extended and dynamic concept of cleavage formation 8
   The structural potential of the new political conflicts 12
   The political articulation of the new structural conflicts 16
      Two logics of globalization conflicts 16
      Four cleavage coalitions 20
   Contexts for articulating new political conflicts 23
      The national context 23
      The interplay of national and European contexts 25
   Linking the different arenas: party politics, protest politics, and public debates 27
   Plan of the book 31

2 Exploring the new cleavage across arenas and public debates: design and methods 36
   Martin Dolezal, Swen Hutter, and Bruno Wüest
   Introduction 36
   Selection of countries and time periods 37
   Data collection: sampling and coding newspaper articles 39
      Selection of newspapers 40
      The core-sentence approach 41
      Coding protest politics 45

Contents

Data analysis strategies 49

Categorizing actors and issues 50

Measures: position, salience, and conflict intensity 55

Multidimensional scaling: an empirical response to our critics 58

Summary 60

Appendix 2A An empirical response to our critics 61

Part II The development of the ‘integration–demarcation’ cleavage

3 Participation and party choice: comparing the demand side of the new cleavage across arenas 67

Martin Dolezal and Swen Hutter

Introduction 67

The structure of the demand space in the 2000s 69

Political participation: explaining turnout and protest participation 73

The impact of socio-structural characteristics on participation 77

The impact of issue positions on participation 79

Party choice in national and European elections 86

Conclusion 93

4 Restructuring the national political space: the supply side of national electoral politics 96

Hanspeter Kriesi

Introduction 96

The overall structure of the national political space in Western Europe 97

The structure of the national political space in the six countries 103

Positions, salience, and polarization at the system level 108

Positions 108

Salience 109

Polarization 113

Salience and position at the party level 120

Conclusion 123

Appendix 4A Dimensionality of the political space 125

5 Restructuring the European political space: the supply side of European electoral politics 127

Martin Dolezal

Introduction 127
Contents

European elections: from 'second-order' to a battleground of the new cleavage? 129
European election campaigns: definition and relative importance 132
European elections: issue salience, conflict intensity, and the positions of parties 134
Conclusion 149

6 Restructuring protest politics: the terrain of cultural winners 151
Swen Hutter
Introduction 151
General and country-specific expectations 152
Conflict intensity in the arena of protest politics 155
Issues of protest politics 158
The return of economics in the realm of cultural issues 160
The terrain of cultural winners' positions 163
New cultural and economic issues? 165
The specific issues, seen comparatively 171
The impact of (new) issues on transnationalization and action repertoires 173
Conclusion 177
Appendix 6A Classification of protest issues 179
Appendix 6B Salience of all issues by decade and country in the protest arena 180

7 Congruence, counterweight, or different logics? Comparing electoral and protest politics 182
Swen Hutter
Introduction 182
Patterns of change: new cultural issues across arenas 183
Three theses on the relationship between electoral and protest politics 189
Different logics at work? Tracing the salience of issue positions across arenas 192
Different logics at work? Political parties in electoral and protest politics 194
The populist radical right as the driving force of change 198
Conclusion 202

Contents

The main argument: restructuring political conflict 277
Is there a new cleavage and how stable is it? 279
How relevant are political parties and the electoral arena to organizing the new cleavage? 284
How national is the new cleavage? 287
Political dynamics, competing frames, conflicting cleavage coalitions 292
How does the new cleavage affect the intensity of political conflict? 297
The paradox of globalization conflicts: transformative change and structural stability 299

## Figures

1.1 The four coalitions in the two-dimensional space  
2.1 Combination of protest data sets  
3.1 Mean locations of educational levels and social classes (2002–07)  
3.2 Impact of education on participation in the electoral and protest arenas  
3.3 Impact of the new class cleavage on participation in the national electoral and protest arenas  
3.4 Spatial positions of participants in national elections and protest politics (2002–07)  
4.1 Overall configurations by decade: MDS analyses  
4.2 Country-specific configurations for the 2000s: MDS analyses  
4.3 Issue salience by country: economic versus cultural issues  
4.4 Overall levels of polarization by country and decade  
4.5 Issue-specific levels of polarization by country and decade  
4.6 Issue position by party family and decade: averages  
5.1 The rising importance of European issues  
5.2 The dominance of constitutive issues in European Parliament election campaigns  
5.3 Configuration of parties and constitutive issues in the 1994 campaign  
5.4 Configuration of parties and constitutive issues in the 2004 campaign  
6.1 Participants in protest politics per million inhabitants, 1975–2005  
6.2 Development of mobilization levels in protest politics  
6.3 Salience of cultural and economic issues by decade  
6.4 Salience of cultural and economic issues by decade and country  
6.5 Positions on economic and cultural issues by decade
List of figures

6.6 Salience of specific issues (1975–2005) 165
6.7 Salience of cultural liberalism, anti-immigration, and Europe by decade 168
6.8 Positions on cultural liberalism and anti-immigration by decade 169
6.9 Salience of global justice, welfare, and economic (rest) by decade 171
7.1 Positions on new cultural issues by arena 187
7.2 Presence of party groups by arena 196
7.3 Issue salience by party group and arena 199
7.4 Issue positions by party group and arena 200
7.5 Party groups in a West European protest space, 1975–2005 201
8.1 Support of and opposition to denationalization 222
8.2 Party positions 224
9.1 Frame average position on immigration, economic liberalization, and European integration 250
10.1 Overall configuration of the three globalization debates: MDS analysis 265

List of tables

5.3 Explaining positions on deepening and enlargement in 1994 and 2004: OLS regressions (unstandardized coefficients, standard errors, and levels of significance) 144
6.1 Logistic regressions of addressee and action form on protest issues and actor types (unstandardized coefficients) 175
7.1 Salience of Europe/immigration by arena and decade (percentages) 184
7.2 The expected relationship between electoral and protest politics 191
7.3 The relation of electoral and protest politics across decades 193
7.4 Impact of party group and electoral strength on presence in protest politics 197
8.1 Contribution of political arenas to public debates over globalization (percentages) 212
8.2 Standing of political actors in arenas (percentages) 217
9.1 The sub-issues of the three globalization debates 232
9.2 Typology of the frames 238
9.3 The framing of the three globalization debates 240
9.4 The framing of the sub-issues of the three globalization debates 242
9.5 How the different political actors frame globalization 245
10.1 Actor positions by sub-issue and country 256
10.2 OLS regression of actors’ positions on denationalization in public debates, overall and by cultural and economic sub-issues 257
10.3 The influence of coalitions, debates, and countries on the use of frames 270
