INDEX

- active integration of concepts, 78
- aesthetic
 - behavior, 260
 - experience, 260, 261, 264, 270, 277
 - experience and embodied simulation, 262, 273
 - experience, bottom-up factors, 262
 - experience, individual differences, 269
 - experience levels, 261
 - experience, top-down factors, 262
 - judgment, 261, 270, 275, 277
- algorithm, 235
- Arnheim, Rudolf, 260
- art
 - communicative function of, 266
 - communicative theory, 262, 264
 - and embodied theory, 263
 - system, component of, 267
- attachment, 105
 - Adult Attachment Interview, 105
 - proximal development zone, 104
 - and theory of mind, 103, 105–107
- autism
 - and moral development, 122
 - and theory of mind, 122, 123
- behaviorism, 16
- Bronfenbrenner, Urie, 40
- Chomsky, Noam, 230
- cognitive development
 - theory of, 16
- cognitivism, 261, 264
- collective actions, 41
- competencies
 - in writing, 246
- constructivism, 17, 18, 22, 59
- Corsaro, William, 40, 41, 42, 47
- cultural
 - influences, in art, 264
 - knowledge, 226
 - means, 221
 - routines, 41
 - routines, in interpretive reproduction, 40
- deafness, 178, 185, 190
 - children, 122, 171
 - late signing, 173
 - and metacognitive skills, 117
 - mothers, 121
 - native signers, 190
 - oral, 119
- decision making, 71
- developmental disorders, 122
- distributive justice, 19, 20, 35
- dynamic view of text, 251
- ecology of human development
 - theory of, 40
- embodied
 - simulation, 272, 273
- empathy
 - in art, 270
- epistemological beliefs, 70, 85
- equity
 - proportional, 37
 - theory of, 36
- equity principle, 20

- expectancy
 cultural, 224
- experience
 socialization, 226
- expressive dynamic, 260
- false belief
 deficit in, 172
 non verbal, 125
 task, 122, 127, 130, 141, 171, 187, 269
 understanding, 117, 118, 125, 140, 173, 193
- figurative language, 114
- Fonagy, Peter, 103, 104, 105, 127, 266
- Freedberg, David, 262, 263, 270, 274, 275, 277
- Freeman, Norman, 186, 262, 265, 266, 267, 268, 269, 270
- Gallese, Vittorio, 261, 262, 263, 270, 271, 272, 273, 274, 275, 276, 277
- gender identity, 29
 development of, 29
 and economic life, 31
 in economic life, 31–33
 and intelligence, 43–44
 and interpersonal behaviour, 30–31
 parent's role, 30–31
- grammar, 231
- hearing
 children, 171
- hypothesis theory of perception, 223
- i-grammar, 230
- implicit personal theories
 of education, 288
- income difference
 cultural differences, 36
- income differences, 34, 39
- institutionalized relation
 and authority, 33
- istituzionalized relations
 cultural differences, 34
- intelligence, 43
 gender differences, 44–45
 at school, 45–47
 theory of, 18
- intention, 265
 in art, 270
 comprehension of, in irony, 115
- in moral action, 124
 reading, 124
 sharing, 124
- intentional
 agent, 139
 attunement, 272, 273
 relationship, 272
 stance, 132
- intentionality
 in aesthetic experience, 268
- interpretive reproduction, 39, 41, 47
- intersubjective connotation
 of communicative theory of art, 265
 of embodied theory of the art, 272
- intertextuality, 251, 252
- intragroup favoritism, 23
- irony. *figurative language*
 communicative aspects, 115
 relational aspects, 116
 and theory of mind, 114
- Kelchtermans, Geert, 284, 285, 287
- knowledge
 acquisition of, 239, 247
 computer-based, 77
 conceptions of, 74
 conditional, 61
 construction of, 23
 declarative, 61
 elaboration of, 248, 249
 explicit, 229, 235
 explicit in literacy, 229
 implicit, 230
 integrative, 77
 metacognitive, 62
 organization of, 17
 procedural, 61
 social, 19, 20, 23, 31
 social development of, 47
 Supporting Knowledge Acquisition
 Through Enhanced Displays
 SKATED, 71
- Kohlberg, Lawrence, 19
- Kuhn, Thomas Samuel, 140, 160
- landscape of consciousness, 159, 162
- language
 access and family environment, 172
 contextualized, 144

- decontextualized, 144
- effect of language input, 170
- environment and effect on metacognition
 - skills, 181–182
- environment at school, 174
- environment, oralism, 174
- explicit theory, 231
- implicit properties, 231
 - and knowledge, 232–234
- mentalistic, 160
- mention, 229
- skills and sensorial condition,
 - 119
- and theory of mind, 117, 139
- use of, 229
- late signers, 119, 171, 179, 187, 190, 191
- learning, 84
 - computer-mediated distance, 77
 - conception of, 74
 - intentional, 63
 - meaningful, 74
 - Rule-Generating environment, 80
 - self-regulated, 86
 - successful, 76
- life story, 286
 - in narration, 285
- literacy, 228, 232
 - development of, 147
 - mastery, 163
 - social, 237
- making-meaning process, 285
- maltreatment
 - and children, 126
 - and environment, 127
- Mayer, Richard, 56, 60, 63, 66, 67, 70, 77, 78, 81, 82
- mediation
 - in narrative comprehension, 142
 - in storybook, 160
- mental model
 - of story, 145
- mental representation
 - in narration, 285
- mentalizing, 104
- metacognition, 229
- metacognitive
 - categories, 62
 - competence, 58
 - control, 60, 64, 68, 69, 70, 82, 88
 - knowledge, 60, 65, 69, 70, 88
 - knowledge, and multimedia
 - learning, 66
 - language, 142, 143, 155
 - language, measure of, 150
 - metacognitive awareness inventory (MAI), 61
 - monitoring, 68, 69, 88
 - skills, 60, 62, 69
- metacomprehension, 62, 63, 72, 76, 78
 - accuracy, 68, 71, 72, 77, 78
 - bias, 71, 78
- metalanguage, 142
- metalinguistic judgment, 230
- metarepresentation, 190, 201
 - comprehension in theory
