List of abbreviations  

1 Introduction  
1.1 Variation and invariance in Generative Grammar  
1.2 The Null Subject Parameter  
1.3 Variation in the Minimalist Program  
1.4 Macro- and micro-parameters  
1.5 Organization of the book  

PART I WHAT IS THE NULL SUBJECT PARAMETER? A LITTLE HISTORY  

2 The Null Subject Parameter: introduction  
2.1 Syntactic properties associated with the Null Subject Parameter  
2.2 Interpretive differences between null and overt subjects  
2.3 Typology of Null Subject Languages  
2.4 Chapter summary  

3 The core content of the Null Subject Parameter  
3.1 Introduction  
3.2 Null thematic subjects and no null expletives  
3.3 Subject inversion and no null expletives  
3.4 That-trace effects and overt expletives  
3.5 Free subject inversion and that-trace effect violations  
3.6 Variation in logophoricity  
3.7 Chapter summary  

4 The nature of the Extended Projection Principle and the Null Subject Parameter  
4.1 Pro  

Table of Contents

4.2 The pronominal agreement hypothesis 76
4.3 Deletion 86
4.4 Is the Extended Projection Principle universal? 93
4.5 The revised Null Subject Parameter 105
4.6 Chapter summary 106

PART II ON IDENTIFICATION

5 Identification and morphology 109
5.1 The minimal morphological threshold (MMT) 112
5.2 The structure of φ-features 115
5.3 Agree 120
5.4 Deriving null subjects in sample languages 124
5.5 Identification and locality 138

6 Discourse identification 146
6.1 Topics and pro 146
6.2 Typology of topics 149
6.3 Topic identification in an inflection-rich null subject language 151
6.4 Subject identification in discourse null subject languages 164
6.5 Chapter summary 173

7 Null/overt subject contrasts 174
7.1 Pro as a weak pronoun 175
7.2 On the difference between null and overt pronouns 177
7.3 Deriving expletives 186
7.4 Chapter summary 189

8 The status of preverbal subjects in null subject languages 190
8.1 Preverbal subjects as CLLD phrases 192
8.2 Against PS-as-CLLD 202
8.3 The status of preverbal subjects 208
8.4 Chapter summary 208

9 Parametrization, learnability and acquisition 210
9.1 L1 acquisition and the unmarked value of the Null Subject Parameter 211
9.2 Null subjects in early bilinguals and in L2 acquisition 220
9.3 Development of null subjects 225
9.4 General conclusions 227
