**List of Contributors**  
Page vii

1. Why Tip-of-the-Tongue States Are Important  
*Alan S. Brown and Bennett L. Schwartz*  
Page 1

2. Tip-of-the-Tongue (TOT) States: Mechanisms and Metacognitive Control  
*Bennett L. Schwartz and Janet Metcalfe*  
Page 15

3. There It Is Again on My Tongue: Tracking Repeat TOTs  
*Alan S. Brown and Katie Croft Caderao*  
Page 32

4. Retrieval Failures for the Names of Familiar People  
*J. Richard Hanley*  
Page 50

5. The Effect of Tip-of-the-Tongue States on Other Cognitive Judgments  
*Anne M. Cleary, Shelly R. Staley, and Kimberly R. Klein*  
Page 75

6. Why the Journey to a Word Takes You No Closer  
*Trevor A. Harley and Siobhan B. G. MacAndrew*  
Page 95

7. Tip-of-the-Tongue in Mild Cognitive Impairment (MCI)  
*Onésimo Juncos-Rabadán, David Facal, and Arturo X. Pereiro*  
Page 116

8. Metamemory and Parkinson’s Disease  
*Justin D. Oh-Lee and Hajime Otani*  
Page 144

9. The Psychopharmacological Approach to Metamemory and the TOT Phenomenon  
*Marie Izaute and Elisabeth Bacon*  
Page 175
Contents

10. Neurofunctional Correlates of the Tip-of-the-Tongue State  
    Fernando Díaz, Mónica Lindín, Santiago Galdó-Álvarez,  
    and Ana Buján  

11. The Blank-in-the-Mind Experience: Another Manifestation  
    of the Tip-of-the-Tongue State or Something Else?  
    Anastasia Efklides  

    from the Study of the Tip-of-the-Tongue Phenomenon  
    Anne M. Cleary  

13. Déjà Vu in Older Adults  
    Chris J. A. Moulin, Celine Souchay, Sarah Buchanan, Rosemary  
    Bradley, Dilay Zeynep Karadoller, and Melisa Akan  

    Experience  
    Fredrik U. Jonsson and Richard J. Stevenson  

15. What Do We Know When We Forget?  
    Asher Koriat and Ravit Nussinson
