This is the market’s most student-friendly textbook on EU internal market law, covering everything students need to know about the legal and regulatory framework of the internal market and eliminating the need for a full EU law text. Concise and focused, chapters explore the underlying socio-economic and historical contexts of EU law, and offer a thorough examination of the law’s technical aspects, ensuring that students gain a rich understanding of the way that legal rules and structures have developed from key political and social debates. Key concepts are illustrated by excerpts, summaries and discussions of classic and modern cases. Numerous features include text boxes, illustrative cases, legal interpretations, tables, and suggestions for further reading, which support students with little background knowledge of the subject, leading them to total mastery of the material.

Friedl Weiss is Professor at the Department of European, International Law and Comparative Law, University of Vienna.

Clemens Kaupa is Assistant Professor at the Department of Transnational Legal Studies, VU University Amsterdam.
European Union Internal Market Law

Friedl Weiss and Clemens Kaupa
