| <p>1 Pathological reaction to disease 1</p> <p>Normal anatomy 2</p> <p>Brain swelling and internal herniation 5</p> <p>Epilepsy 9</p> <p>Cerebellar atrophy 11</p> <p>Tract degeneration 12</p> <p>Swiss cheese artefact 13</p> <p>Pink spots of Hedley-Whyte artefact 13</p> <p>2 Developmental and perinatal disorders 14</p> <p>Perinatal pathology</p> <p>Hypoxic ischemic lesions 15</p> <p>Status marmoratus 19</p> <p>Kernicterus 20</p> <p>Aqueductal stenosis 20</p> <p>Hydrocephalus 21</p> <p>Malformations</p> <p>Neural tube defect 22</p> <p>Arnold–Chiari 23</p> <p>Disorders of forebrain induction 25</p> <p>Lissencephaly and polymicrogyria 27</p> <p>Gray matter heterotopia 29</p> <p>Dandy–Walker 30</p> <p>Cerebellar hypoplasia 31</p> <p>Syringobulbia and syringomyelia 33</p> <p>Diastematomyelia 34</p> <p>3 Vascular disease 36</p> <p>Territorial and focal infarction 37</p> <p>Embolic infarction 41</p> <p>Global hypoxic ischemic damage 44</p> <p>Binswanger's disease 46</p> <p>Venous infarction 46</p> <p>Parenchymal hemorrhage 48</p> <p>Intracranial aneurysm 50</p> <p>Vascular malformations</p> <p>Arterio-venous malformation 55</p> <p>Cavernous hemangioma 58</p> <p>Capillary telangiectasia 59</p> <p>Venous angioma 60</p> | <p>4 Trauma 62</p> <p>Blunt head injury</p> <p>Subdural hemorrhage 63</p> <p>Contusions 64</p> <p>Parenchymal hemorrhage 68</p> <p>Diffuse axonal injury 70</p> <p>Penetrating (missile) injury</p> <p>Foreign bodies 73</p> <p>Gunshot trauma 75</p> <p>Knife wound 77</p> <p>Iatrogenic trauma 78</p> <p>Functional neurosurgery 79</p> <p>5 Infection 82</p> <p>Bacteria</p> <p>Subdural empyema 83</p> <p>Meningitis 84</p> <p>Cerebral abscess 86</p> <p>Septic embolism 88</p> <p>Viruses</p> <p>Herpes simplex encephalitis 89</p> <p>Subacute sclerosing pan-encephalitis 91</p> <p>Progressive multifocal leukoencephalopathy 92</p> <p>Cytomegalovirus 93</p> <p>Fungi</p> <p>Mucor 94</p> <p>Aspergillus 95</p> <p>Histoplasma 96</p> <p>Parasites</p> <p>Toxoplasma 97</p> <p>Cysticercosis 98</p> <p>Neurosarcoidosis 99</p> <p>6 White matter disease 100</p> <p>Demyelination</p> <p>Multiple sclerosis 101</p> <p>Concentric sclerosis (Balo's disease) 104</p> <p>Myelinoclastic diffuse sclerosis (Schilder's disease) 104</p> <p>Neuromyelitis optica (Devic's disease) 105</p> |
|--|---|

Contents

- Central pontine and extrapontine myelinolysis 105
- Dysmyelination/Leukodystrophies**
- Alexander's disease 107
- Krabbe's disease 108
- Metachromatic leukodystrophy 109
- Adrenoleukodystrophy 112
- Pelizaeus-Merzbacher disease 114
- Leukoencephalopathy with vanishing white matter 115
- 7 **Metabolic disorders** 117
- Acquired metabolic disorders**
- Hypoglycemia 118
- Acquired hepatic encephalopathy 118
- Thiamine deficiency and Wernicke's encephalopathy 119
- Celiac disease 121
- Phenytoin toxicity 121
- Inherited metabolic disorders**
- Wilson's disease 122
- Mitochondrial encephalopathy 122
- Leigh's disease 124
- Neuronal ceroid lipofuscinosis 126
- Niemann–Pick Disease 127
- 8 **Phakomatoses** 129
- Neurofibromatosis type 1 131
- Neurofibromatosis type 2 133
- Tuberous sclerosis complex 135
- Von Hippel–Lindau disease 139
- L'hermitte–Duclos disease 140
- Sturge–Weber syndrome 142
- Neurocutaneous melanosis 143
- 9 **Neurodegenerative disease** 146
- Neurodegenerative sampling and workup 147
- Movement disorders**
- Huntington's disease 148
- Parkinson's disease 150
- Progressive supranuclear palsy 152
- Corticobasal degeneration 154
- Multiple system atrophy 155
- Amyotrophic lateral sclerosis 157
- Spinocerebellar ataxia 159
- Dentatorubropallidolysial atrophy 159
- Paraneoplastic cerebellar degeneration 161
- Dementias**
- Alzheimer's disease 161
- Frontotemporal lobar degeneration 164
- Dementia with Lewy bodies 165
- Creutzfeldt–Jakob disease 167
- 10 **Tumors** 169
- Astrocytic 170
- Oligodendroglial 178
- Ependymal 179
- Pineal parenchymal 181
- Embryonal 182
- Tumors of cranial and paraspinal nerves 183
- Tumors of the meninges 186
- Hemopoietic tumors 189
- Tumors of the sellar region 190
- Germ cell tumors 192
- Metastatic tumors to CNS 195
- Histiocytic tumors 197
- 11 **Spine and spinal cord** 199
- Spinal column**
- Cervical spondylosis 200
- Intervertebral disc prolapse 204
- Spinal trauma 205
- Rheumatoid disease 208
- Osteoporosis 209
- Ankylosing spondylitis 209
- Spinal tumors 210
- Spinal cord**
- Intrinsic tumors 213
- Metastatic disease 214
- Infection 216
- Adhesive arachnoidopathy 218
- Vascular malformation 218
- 12 **Cysts and miscellaneous lesions** 220
- Craniopharyngioma 221
- Epidermoid cyst 222
- Dermoid cyst 224
- Arachnoid cyst 225
- Neuroglial cyst 226
- Colloid cyst of the third ventricle 227
- Choroid plexus cyst 229
- Lipomas 229
- Index* 231
