Lawyering for the Rule of Law introduces a new model of government lawyering in which government lawyers function as an ancillary mechanism that enables the court to expand its influence on policy-making within the political branches by forming out-of-court settlements. It discusses the centrality of government lawyers with regard to judicial mobilization and the enforcement of social reforms through adjudication, and sheds light on particular functions of government lawyers as adjudicators and facilitators of institutional arrangements. It also discusses the ethical and professional dilemmas of government lawyers in judicial review and the relationship between lawyers’ professional morality and outcomes in litigation.

Yoav Dotan is Edwin A. Goodman Professor of Law and former Dean of the Faculty of Law at the Hebrew University of Jerusalem.
The aim of this series is to produce leading monographs in constitutional law. All areas of constitutional law and public law fall within the ambit of the series, including human rights and civil liberties law, administrative law, as well as constitutional theory and the history of constitutional law. A wide variety of scholarly approaches is encouraged, with the governing criterion being simply that the work is of interest to an international audience. Thus, works concerned with only one jurisdiction will be included in the series as appropriate, while, at the same time, the series will include works which are explicitly comparative or theoretical – or both. The series editors likewise welcome proposals that work at the intersection of constitutional and international law, or that seek to bridge the gaps between civil law systems, the US, and the common law jurisdictions of the Commonwealth.

ACKNOWLEDGMENTS

This book is a product of many years of research in the archives of the Israeli Supreme Court and the Ministry of Justice. Throughout the years and the various stages of the project I have benefited from the dedicated help of my research assistants whom are too numerous to be indicated by names. I am also thankful to the Ministry of Justice for allowing me access to their files and to the many lawyers and judges who agreed to be interviewed for this project. During the stage of writing the text I have benefited immensely from the assistance of Moshe Ostrovsky and Shira Gartenberg. I am also deeply indebted to Gali Aviv Weisman for her invaluable assistance as a statistical advisor and to Diana Rubanenko for her dedicated assistance as language editor.
FIGURES

1.1 HCJ Files and overall caseload in the Supreme Court 1970–2010. page 25
1.2 Costs imposed by the HCJ, by petitioner’s identity – 1970s and 1990s. 31
1.3 The proportion of group petitions among all petitions to HCJ (percent) 1977–1995. 40
2.1 The Ministry of Justice. 53
2.2 The Office of the Attorney General (OAG). 66
3.1 Outcome distribution in the 1970s and 1990s. 94
3.2 Settlement rates 1970s and 1990s. 99
3.3 Success rates and settlement rates: 1970s and 1990s. 99
3.4 Conditional orders issued in the 1970s and 1990s. 103
3.5 Success rates of petitions submitted against the state and municipalities during the 1990s. 108
3.6 Success and failure in court and through settlements for petitions submitted against the state and against municipalities. 109
3.7 Rate of settlements: state and municipalities. 109
3.8 Conditional orders issued against the state and municipalities. 112
4.1 Outcome distribution for high and low stature lawyers. 143
4.2 Type of proceeding distribution for high and low stature lawyers. 143
4.3 Distribution of conditional orders among high and low stature lawyers. 144
6.1 Numbers of pre-petitions 1990–1997. 176
6.2 Outcomes of pre-petitions 1990–1997. 177
6.3 Pre-petitions 1990–1997 by processing time. 181
6.4 Pre-petitions 1990–1997 by organizational affiliation and representation. 185
TABLES

3.1 Descriptive statistics of variables.  page 91
3.2 Summary of data on success rates (bivariate analysis).  95
3.3 Logistic regression coefficients for predicting success in litigation.  96
3.4 Summary of data on settlement rates (bivariate analysis).  98
3.5 Logistic regression coefficients for predicting the likelihood for disposition of the case by court decision.  100
3.6 Logistic regression coefficients for predicting the issuance of conditional orders during litigation.  102
3.7 Petitions against the state and local municipalities – descriptive statistics of variables.  106
3.8 Logistic regression coefficients for predicting success in litigation.  107
3.9 Logistic regression coefficients for predicting the likelihood for disposition of the case by court decision.  110
3.10 Logistic regression coefficients for predicting the issuing of a conditional order.  113
4.1 Descriptive statistics of variables.  141
