combinatorial, 209
networks, 190
transcription–translation, 24, 30
transcriptional activator, 41
transcriptional bursting
RNAP recruits RNAP, 99
slow transcription factors, 98
transcriptional repressor, 41
translation, 28
speed, 30, 33
speed differences between codons, 18, 30
speed with growth rate, 34
traffic, 30
tRNA, 20
turbid plaques, 57
umbrella motifs, 164
variance
equal sum of variances for sub-processes, 113
