

## Index

- aggregate saving, the excess of total income over total consumption, 300
- agio, 430
- appropriable things, 22
- appropriation of scarce things, 33
- arbitrage, 127
- arbitrage assumed to be possible, 146
- arbitrage, brings about equilibrium, if no numeraire, 146
- arbitrages made on bills of exchange, 432
- arts and sciences distinguished, Coquelin on, 12
- asset holdings, analysis of consequences of changes, 161
- auction of total stock, special case, 175
- Auspitz and Lieben on price determination, 495
- Austrian economists, XIII
- average cost, components of, 227
- Bagehot, Lombard Street, 383
- balance of the Cash account, 214
- balance of trade, 431
- banknotes, 422, 425
- Bastiat, Frédéric on justice, 37
- bills of exchange, 426
- bills of exchange negotiated with a banker, 219
- bimetallism at a fixed ratio of quantities, 392
- bimetallism at a fixed ratio of values, 392
- bimetallism changes into gold monometallism, 414
- bimetallism changes into silver monometallism, 414
- bimetallism, mathematical theory of completed, 405
- bimetallism, when practicable, 411
- Blanqui, Adolphe on economics definition, 9
- book credit, 420
- bookkeeping, Cash account, 216
- bookkeeping, double entry bookkeeping, cardinal principle of, 215
- bookkeeping, Fixed Assets account, 216
- bookkeeping, Working Capital account, 216
- Boutron on rent, 371
- business inventories, 216
- business methods of accounting and inventorying, 213
- buyers make offers to buy at higher prices, xxxvi, 42
- capital and income, distinguished, 194
- capital formation, equilibrium of, 492
- capital formation, macroeconomic analysis of, 489
- capital formation, theory of real phenomena, xv
- capital goods assumed indestructible and imperishable, 301
- capital goods assumed perishable, 301
- capital goods in production model, old ones only, 232
- capital goods lent in money in reality, 232
- capital goods properly speaking are artificial, 198
- capital goods properly speaking are destructible and perishable capital, 265
- capital goods properly speaking are products and are consumable, 198
- capital goods properly speaking generally hired in money, 263
- capital goods quantity assumed to vary, 260

- capital goods summed in numeraire units, 489
- capital goods that yield consumable services, 212
- capital goods, condition for maximum effective utility of services, 307
- capital goods, defined, viii
- capital goods, demand for, 260
- capital goods, determination of prices of, 260
- capital goods, existing movable, determination of prices of, 310
- capital goods, gross and net income of, 261
- capital goods, market for, 260
- capital goods, movable, 196
- capital goods, new, generate maximum satisfaction, 307
- capital goods, new, maximum utility of, 492
- capital goods, new, produced in disequilibrium, 280
- capital goods, new, tatonnement is stable, 293
- capital goods, properly speaking, 196
- capital, defined, 193
- capital, key to the whole theory of, 289
- capital, lending in kind, 289
- cash balance, 380
- cash balance, desired, changes in amount, 388
- cash balances, desired, 383
- checks, 423
- circulating money, 213
- circulating money, saved and spent, 204
- circulating or working capital, defined, 213
- clairvoyance, 46
- clearing-house for exchange bills, 432
- coefficients of production assumed variable, 320, 321
- coefficients of production vary with the quantity produced, 507
- commercial paper, 421
- commodities, defined, 42
- commodity as circulating money and money savings, 378
- commodity as numeraire and money, resulting simplification and realism, 169
- commodity newly introduced, consequences in reality, 170
- communism and individualism on the distribution of wealth, 35
- competition a self-activating and self-regulating mechanism of transformation of savings into capital properly speaking and of services into products, 308
- competition in the market is the practical solution, 66
- competition is not the only possible system of economic organization, 438
- competition, exchange and the mechanism of, 46
- competition, in organized markets, 42
- competition, limits to its applicability, 249
- competition, suppress impediments to, 248
- concepts of market structure and behavior in exact conformity with the facts, with observation, with experience, 208
- Condillac on value, 181
- constancy of the total quantities, 161
- consumers' surplus, 497
- continuous utility or want curves, 149
- Coquelin on science and the arts, 16
- Coquelin, Charles on economics definition, 11
- cost of production determines the quantity and not the price of the products, 474
- Cournot on monopoly profit maximization, 448
- Cournot on profit maximization, 446
- credit, and new capital goods, 263
- criers of prices, 42
- crying out of prices, 42
- Darwin on Malthusian law, 324
- data of the problem do not change during tatonnements, 279
- definitions of economics, 3
- demand and supply functions, how determined, 170
- demand and supply functions, partial, existence of, 170
- demand and supply, reciprocal, 105
- demand curve, expresses disposition to bid, 172
- demand curve, expresses reality, 172
- demand curve, slope of, 79
- demand curves, continuous, 56
- demand curves, explanation of, 77
- demand curves, partial and total, 56, 172
- demand curves, partial, addition of, 478
- demand curves, total, properties, 102
- demand for money, 382
- demand or supply, how determined by exchanger, 139
- demand schedule, 55
- demand, partial (individual) function, 54

- demands are functions of several variables, 497
- demonetization of gold, 393
- demonetization of silver, 393
- depreciation of capital goods, *see* capital goods, depreciation of
- desired cash balances, 383
- destinies, of persons, 35
- Destutt de Tracy on tax on rent, 460
- determinants of prices, essentially variable, 114
- disequilibrium prices at which non-virtual profits or losses are made, 233
- disequilibrium prices, production, and sales, 229
- disequilibrium quantities produced, 236
- disequilibrium sales in product markets, 229
- dispositions to bid, deduced from utility functions, 135
- dispositions to buy or sell, 53
- distribution of output among the productive services, 509
- distribution of social wealth, an ethical fact, 34
- distribution of social wealth, debated, 35
- distribution of social wealth, equitable, 32
- distribution of wealth, effects of different systems of, 456
- division of labor, 30
- Dupont de Nemours's Physiocratie, 331
- Dupuit confuses utility curve and demand curve, 454
- Dupuit wrong on maximum sacrifice, 453
- Dupuit's erroneous measure of utility, 453
  
- each commodity has only one exchange value in equilibrium, 152
- economic advantageousness, 18
- economic equilibrium, complete picture of, 488
- economic facts ruled by the principle of free competition, 373
- economic theory, defined, viii
- economic theory, physico-mathematical science, 27
- economics as a natural science, 10
- economics as an ethical science, 10
- economics, as defined by Smith, 4
- economics, Blanqui on normative and positive, 14
- economics, different definitions, 11
- economics, not entirely a natural science, 7
- economics, not simultaneously natural and moral, 10
- economics, object, divisions, limits, 3
- economics, other definitions, 9
- economics, Say on objective of, 7
- economics, schools of, 480
- economics, Smith on objective of, 5
- economist's right and duty, 9
- economy, how its various parts function together, 488
- effective demand and effective supply, defined, 47
- effective demand, defined, 43
- effective supply, defined, 43
- empirical coefficients of demand and demand functions, 67
- English School determines neither wages nor interest, 358
- English school on expenses of production determining the price of products, 339
- English School on rent, wages, and interest, 337
- English School's profit, 369
- English theory of rent, 503
- English theory of the determination of the prices of productive services, 369
- English theory of wages, 362
- entrepreneur
  - functions of, x
- entrepreneur a fourth person, entirely distinct, 207
- entrepreneur, agricultural, 211
- entrepreneur, commercial, 212
- entrepreneur, functions of, 211
- entrepreneur, industrial, 211
- entrepreneur, lacking in Say's theory, 370
- entrepreneur, not as such a capitalist, 367
- entrepreneurs in equilibrium make neither profit nor loss, 210
- entrepreneurs, in production, make neither profits nor losses, 232
- entrepreneurs' pricing tends to bring about equilibrium, 245
- equality of the effective supply and of the effective demand, 107
- equations of capital formation, how deduced, 268
- equations of equality of the average cost and the price of new capital goods, 270
- equations of exchange and of maximum satisfaction, 106

- equilibrating process in all markets, xii
- equilibria, multiple, two commodities, 71
- equilibria, multiple, in exchange of two commodities, 74
- equilibrium in production
  - equality of the price of products and their average cost, 485
- equilibrium in production, defined and conditions of, 209
- equilibrium in production, ideal state, 209
- equilibrium in the market for products, how reached, 483
- equilibrium of capital formation, 381
- equilibrium of circulation, 380
- equilibrium of exchange approached
  - more and more closely by price tatonnement, 143
- equilibrium of exchange, found by the market through competition, 131
- equilibrium of exchange, general, conditions of, 145
- equilibrium of production, 380
- equilibrium of production, automatically attained by competition, 229
- equilibrium of production, equations, 237
- equilibrium prices the same before and after exchange if no disequilibrium transactions, 158
- equilibrium prices, equal to the ratios of the raretés, 113
- equilibrium prices, necessary and sufficient elements for the determination of, 145
- equilibrium probably always closer after the second round of tatonnement, 479
- equilibrium solved empirically in the market, 139
- equilibrium, preliminary in capital goods model, 284
- equilibrium, stable, in exchange of two commodities, 73
- equilibrium, unstable in exchange of two commodities, 73
- equivalent distributions before and after equilibrium trade, 161
- exchange bills, market for, 432
- exchange equilibrium, solved empirically in the market, 124
- exchange of savings for new capital goods, 489
- exchange of several commodities for one another, 118
- exchange of several commodities, equilibrium ordinarily unique, 177
- exchange of three commodities for one another, 119
- exchange rate, 425
- exchange rate of any one place on another, 431
- exchange rates, foreign, general formula of, 428
- exchange takes place at equilibrium prices, ix
- exchange, analysis of, general and scientific, 124
- exchange, equations of according to Jevons, 185
- exchange, equilibrium demonstrated, 124
- exchange, geometrical representation of, 469
- exchange, maximizes utility, 110
- exchange, multi-commodity case, 133
- exchanges by Book credit, 420
- exchanges by Commercial paper, 421
- exchanges with Banknotes, 422
- exchanges with Checks, 423
- exchanges, ways of making without the intervention of metallic money, 420
- expenses assumed proportional, 227
- facts and experience, provide accurate notion of competition, 201
- facts corroborate theory, 392
- facts, natural and human, 15
- fiduciary or paper money, 424
- Final Degree of Utility, Jevons on, 186
- fixed capital, defined, 213
- fixed expenses treated as proportional, 392
- foreign exchange brokers, 431
- franc, a word for a thing that does not exist, 165
- franc, quantity of silver and unit of value, 163
- free competition a principle of economic advantageousness, 248
- free competition demonstration does not consider justice, 249
- free will, 16
- free will subject to mathematical laws, 379
- free will, influences production and distribution, 32
- freedom of entry and departure of firms assumed, 249
- freedom of exchange and production, maximizes utility, 248
- French School of economics has no theory, 371
- functions or curves with concrete coefficients in study of money, 402

- Garnier, Joseph on economics definition, 9  
 general and scientific form of analysis of exchange, 124  
 general system of economic phenomena, concrete figures for, 316  
 Goschen, his Theory of Foreign Exchange, 432  
 Gossen, Hermann-Henri, similar theories, v  
 greatest possible satisfaction of wants achieved under free competition, 247
- hiring out of a capital good, 206
- income goods or consumer goods, 202  
 income goods, defined, viii  
 income of a capital good, the price of its service, 260  
 income, characteristics of, 206  
 indirect exchange to direct exchange, passage from, 168  
 indirect price to direct price, passage from, 168  
 individual a holder of two commodities, dispositions to trade, 102  
 individual learns prices when enters the market, 120  
 industrial operations, 30  
 industrial practice, expressed through accounting, establishes the theory of production, 216  
 industrial production, 29  
 industry, theory of, 18  
 institutions, theory of, 18  
 instrument of measurement of value and wealth, role of, 166  
 insurance of capital goods, *see* capital goods, insurance of  
 interest, rate of  
   theory of determination of, xiv  
 intervention of money, hypothesis that conforms to reality, 166
- Jevons on money and the mechanism of exchange, 416  
 Jevons, W.S., similar theories, iv  
 justice, 18  
 justice and economic advantage, conflict or compatible, 37
- labor, specialized, the exceptional case, 341  
 laissez faire, laissez aller, when appropriate, 8  
 laissez faire, laissez aller, where applicable, 249  
 laissez faire, laissez passer, 32  
 laissez faire, laissez passer applied to a competitive industry, consumers obtain the greatest possible satisfaction, 446  
 laissez faire, restrictions on, 438  
 laissez passer, laissez aller, where applicable, 250  
 laissez faire, laissez passer, 8  
 land income, also called land services, 195  
 land is natural capital, 197  
 land is unconsumable capital, 197  
 land services, how value of comes into existence, 328  
 land, labor, and capital, defined, 192  
 land, man, and capital goods properly speaking, cooperate, 206  
 land, net product of, 352  
 land, quantity of, not increase in the progressive state, 323  
 land, value of in a progressive society, 462  
 landed capital, examples, 202  
 law of effective supply and effective demand, or the law of the determination of equilibrium prices, two-commodity case, 66  
 law of great numbers, 161

- services, equations of total supply of, 275
- services, market for, described x
- services, productive, 194
- slavery, 313
- Smith, Adam, definition of economics, 4
- Smith's theory of value, 179
- social economics, defined, 36
- social wealth, defined, 41, 194
- social wealth, four main categories, 195
- socialists advocated state intervention without proof, 249
- solution in real markets of the equations of exchange and production, 247
- stability analysis of capital goods formation, 490
- stability analysis of capital goods market, 286, 287, 292
- stability analysis of markets for products, 483, 484
- stability analysis of markets for services, 486
- stability analysis, price changes destroy temporary partial equilibrium, 479
- stability of capital formation process in real markets, 279
- stability conditions for path independence, 161
- stability of the monetary standard, 416
- stability of multi-commodity exchange equilibrium probable, 143
- stability in production, 239
- stability of production model probable, 241
- stability properties of a single market, 108
- stability in a single market, how it occurs, 66
- stability situation when new commodity introduced, 172
- stability of tatonnement probable in production, 244
- stable equilibrium in capital goods production, 287
- stable equilibrium in real markets for new capital goods, 288
- stable system, with production, 242
- state as entrepreneur, 441
- state intervention in regard to the distribution of wealth, 438
- stationary state or equilibrium of the market, 44
- stock exchange, functioning of, 43
- stock exchange, the market for movable capital, 313
- stocks, 193
- supply and demand equality, 161
- supply and demand equalization, marketplace solution of, 108
- supply and demand equivalence, 160
- supply and demand, fundamental law of economics, never demonstrated or formulated correctly, 155
- supply curve of individual, shape of, 476
- supply curves, partial, addition of, 478
- supply of money, 382
- supply of money equal to the existing quantity of money, 382
- tableau économique of Quesnay, 331
- tableau économique, criticism of, 333
- tableau économique, critique of, 335
- tatonnement by a monopolist, 444
- tatonnement criticism refuted, 479
- tatonnement finished, conditions, 280
- tatonnement in a particular market, 44
- tatonnement in a single market, 50
- tatonnement in production, 243
- tatonnement in production by entrepreneurs shifting resources, 237
- tatonnement in raising and lowering prices, 140
- tatonnement is the practical market determination of the calculated prices, 161
- tatonnement occurs naturally in the market for services, 242
- tatonnement of production occurs automatically in the market, 237
- tatonnement of quantities, non-virtual in disequilibrium, 235
- tatonnement solves the system of equations, 140

- tatonnement takes place under the regime of free competition, 244
- tatonnement, if assumed that data do not change during, 229
- tatonnement, in production of new capital goods, 280
- tatonnement, mathematical, 285, 286
- tatonnement, mathematical in new capital goods model, mirrors real market tatatonnement, 294
- tatonnement, non-virtual, leads production and prices closer to equilibrium amounts, 236
- tatonnement, production, conditions when finished, 229
- tatonnement, reprise of, in production, 229
- tatonnements in the various markets take place simultaneously, 487
- tatonnements lead prices of services to equilibrium, 281
- tatonnements, a series of, 229
- tatonnements, before finished start anew, 318
- tax imposed directly on interest, 463
- tax levied in perpetuity on State bonds, 465
- tax on any type of capital good, effects of, 465
- tax on consumption, incidence of, 466
- tax on house rent, 465
- tax on products, 466
- tax on rent, direct, 460
- taxation, indirect, 459
- taxation, direct, 458
- taxes ought to be levied only on the fund available for consumption, 457
- taxes, effects of different kinds of, 456
- taxes, levy only on incomes, 458
- technical arts, 30
- theorem of equivalent redistributions, 165
- theorem of equivalent redistributions, 156
- theory and practice ought to be of help to one another, 216
- theory of exchange, mathematical, Walras's priority, iv
- theory of marginal productivity, 509
- theory of production and theory of capital formation, geometric demonstration of, 480
- theory of production founded on reality, 213
- theory of property, 36
- theory of rareté, enunciated by Burlamaqui, 182
- theory of the general equilibrium in exchange restated, 161
- theory of value, Say's, 180
- theory of value, Smith's, 180
- total demand curve, 56
- total quantity in existence supplied, xxxvi, 175
- trading is suspended, 44
- trading should be suspended if supply and demand unequal, 44
- Transactions balances of money, 203
- useful things, 22
- useful things limited in quantity, characteristics of, 22
- utility curves and the quantities possessed, elements for determination of the price, 110
- utility curves discontinuous if commodities by their nature are consumed in integral units, 148
- utility functions and asset holdings, effects of changes of, 252
- utility theory, Menger on, 186
- utility, assumed cardinally measurable, 80
- utility, effective, geometrically, 472
- utility, effects of changes of, 152
- utility, extensive, 78, 98
- utility, final degree of, 471
- utility, indirect, 29
- utility, intensive, 79
- utility, intensive, unmeasurable, 80
- value and wealth, measurable, 165
- value in exchange, 20, 23
- value in exchange, a relative fact, 113
- value in exchange, defined, 42
- value in exchange, measurable, 27
- value in exchange, measured by rareté, 113
- value in exchange, true character, 151
- value is mathematical in character, 26
- value of land and of land services rises constantly in a progressive society, 462, 463
- value of money, problem of, 378
- value, a fact, a natural phenomenon, 25
- value, Gossen on, 184
- value, origin of, different views, 179
- value, reality of the facts of, 182
- values in exchange, proportional to the raretés, 251
- variations in utility and in the quantity possessed disturb the state of maximum satisfaction, 116
- virtual model, only one tatonnement in, 500

wages, English theory of, 362	Wicksteed on coefficients of production, 501
wages, English theory of, invalid, 367	Wicksteed's Essay on the Coordination of the Laws of Distribution, 506
want (utility) curves, continuous and discontinuous, 91	working capital, effects of creation, 314
wants, satisfaction of, <i>see</i> satisfaction, maximization of	working capital, fund for consumption, 314
wealth, social, defined, 20	working capital, fund for production, 314
Wicksteed did not acknowledge Walras on marginal productivity, 505
