- aggregate saving, the excess of total income
 over total consumption, 300
 agio, 430
 appropriable things, 22
 appropriation of scarce things, 33
 arbitrage, 127
 arbitrage assumed to be possible, 146
 arbitrage, brings about equilibrium, if no
 numeraire, 146
 arbitrages made on bills of exchange, 432
 arts and sciences distinguished, Coquelin
 on, 12
 asset holdings, analysis of consequences of
 changes, 161
 auction of total stock, special case, 175
 Auspitz and Lieben on price
 determination, 495
 Austrian economists, XIII
 average cost, components of, 227
- Bagehot, Lombard Street, 383
 balance of the Cash account, 214
 balance of trade, 431
 banknotes, 422, 425
 Bastiat, Frédéric on justice, 37
 bills of exchange, 426
 bills of exchange negotiated with a
 banker, 219
 bimetallism at a fixed ratio of quantities, 392
 bimetallism at a fixed ratio of values, 392
 bimetallism changes into gold
 monometallism, 414
 bimetallism changes into silver
 monometallism, 414
 bimetallism, mathematical theory of
 completed, 405
- bimetallism, when practicable, 411
 Blanqui, Adolphe on economics definition, 9
 book credit, 420
 bookkeeping, Cash account, 216
 bookkeeping, double entry bookkeeping,
 cardinal principle of, 215
 bookkeeping, Fixed Assets account, 216
 bookkeeping, Working Capital account, 216
 Boutron on rent, 371
 business inventories, 216
 business methods of accounting and
 inventorying, 213
 buyers make offers to buy at higher prices,
 xxxvi, 42
- capital and income, distinguished, 194
 capital formation, equilibrium of, 492
 capital formation, macroeconomic analysis
 of, 489
 capital formation, theory of real
 phenomena, xv
 capital goods assumed indestructible and
 imperishable, 301
 capital goods assumed perishable, 301
 capital goods in production model, old ones
 only, 232
 capital goods lent in money in reality, 232
 capital goods properly speaking are
 artificial, 198
 capital goods properly speaking are
 destructible and perishable capital, 265
 capital goods properly speaking are products
 and are consumable, 198
 capital goods properly speaking generally
 hired in money, 263
 capital goods quantity assumed to vary, 260

- capital goods summed in numeraire units, 489
- capital goods that yield consumable services, 212
- capital goods, condition for maximum effective utility of services, 307
- capital goods, defined, VIII
- capital goods, demand for, 260
- capital goods, determination of prices of, 260
- capital goods, existing movable, determination of prices of, 310
- capital goods, gross and net income of, 261
- capital goods, market for, 260
- capital goods, movable, 196
- capital goods, new, generate maximum satisfaction, 307
- capital goods, new, maximum utility of, 492
- capital goods, new, produced in disequilibrium, 280
- capital goods, new, tatonnement is stable, 293
- capital goods, properly speaking, 196
- capital, defined, 193
- capital, key to the whole theory of, 289
- capital, lending in kind, 289
- cash balance, 380
- cash balance, desired, changes in amount, 388
- cash balances, desired, 383
- checks, 423
- circulating money, 213
- circulating money, saved and spent, 204
- circulating or working capital, defined, 213
- clairvoyance, 46
- clearing-house for exchange bills, 432
- coefficients of production assumed variable, 320, 321
- coefficients of production vary with the quantity produced, 507
- commercial paper, 421
- commodities, defined, 42
- commodity as circulating money and money savings, 378
- commodity as numeraire and money, resulting simplification and realism, 169
- commodity newly introduced, consequences in reality, 170
- communism and individualism on the distribution of wealth, 35
- competition a self-activating and self-regulating mechanism of transformation of savings into capital properly speaking and of services into products, 308
- competition in the market is the practical solution, 66
- competition is not the only possible system of economic organization, 438
- competition, exchange and the mechanism of, 46
- competition, in organized markets, 42
- competition, limits to its applicability, 249
- competition, suppress impediments to, 248
- concepts of market structure and behavior in exact conformity with the facts, with observation, with experience, 208
- Condillac on value, 181
- constancy of the total quantities, 161
- consumers' surplus, 497
- continuous utility or want curves, 149
- Coquelin on science and the arts, 16
- Coquelin, Charles on economics definition, 11
- cost of production determines the quantity and not the price of the products, 474
- Cournot on monopoly profit maximization, 448
- Cournot on profit maximization, 446
- credit, and new capital goods, 263
- criers of prices, 42
- crying out of prices, 42
- Darwin on Malthusian law, 324
- data of the problem do not change during tatonnements, 279
- definitions of economics, 3
- demand and supply functions, how determined, 170
- demand and supply functions, partial, existence of, 170
- demand and supply, reciprocal, 105
- demand curve, expresses disposition to bid, 172
- demand curve, expresses reality, 172
- demand curve, slope of, 79
- demand curves, continuous, 56
- demand curves, explanation of, 77
- demand curves, partial and total, 56, 172
- demand curves, partial, addition of, 478
- demand curves, total, properties, 102
- demand for money, 382
- demand or supply, how determined by exchanger, 139
- demand schedule, 55
- demand, partial (individual) function, 54

- desired cash balances, 383
- destinies, of persons, 35
- Destutt de Tracy on tax on rent, 460
- determinants of prices, essentially variable, 114
- disequilibrium prices at which non-virtual profits or losses are made, 233
- disequilibrium prices, production, and sales, 229
- disequilibrium quantities produced, 236
- disequilibrium sales in product markets, 229
- dispositions to bid, deduced from utility functions, 135
- dispositions to buy or sell, 53
- distribution of output among the productive services, 509
- distribution of social wealth, an ethical fact, 34
- distribution of social wealth, debated, 35
- distribution of social wealth, equitable, 32
- distribution of wealth, effects of different systems of, 456
- division of labor, 30
- Dupont de Nemours's Physiocratie, 331
- Dupuit confuses utility curve and demand curve, 454
- Dupuit wrong on maximum sacrifice, 453
- Dupuit's erroneous measure of utility, 453
- each commodity has only one exchange value in equilibrium, 152
- economic advantageousness, 18
- economic equilibrium, complete picture of, 488
- economic facts ruled by the principle of free competition, 373
- economic theory, defined, viii
- economic theory, physico-mathematical science, 27
- economics as a natural science, 10
- economics as an ethical science, 10
- economics, as defined by Smith, 4
- economics, Blanqui on normative and positive, 14
- economics, different definitions, 11
- economics, not entirely a natural science, 7
- economics, not simultaneously natural and moral, 10
- economics, object, divisions, limits, 3
- economics, other definitions, 9
- economics, Say on objective of, 7
- economics, schools of, 480
- economics, Smith on objective of, 5
- economist's right and duty, 9
- economy, how its various parts function together, 488
- effective demand and effective supply, defined, 47
- effective demand, defined, 43
- effective supply, defined, 43
- empirical coefficients of demand and demand functions, 67
- English School determines neither wages nor interest, 358
- English school on expenses of production determining the price of products, 339
- English School on rent, wages, and interest, 337
- English School's profit, 369
- English theory of rent, 503
- English theory of the determination of the prices of productive services, 369
- English theory of wages, 362
- entrepreneur
- functions of, x
- entrepreneur a fourth person, entirely distinct, 207
- entrepreneur, agricultural, 211
- entrepreneur, commercial, 212
- entrepreneur, functions of, 211
- entrepreneur, industrial, 211
- entrepreneur, lacking in Say's theory, 370
- entrepreneur, not as such a capitalist, 367
- entrepreneurs in equilibrium make neither profit nor loss, 210
- entrepreneurs, in production, make neither profits nor losses, 232
- entrepreneurs' pricing tends to bring about equilibrium, 245
- equality of the effective supply and of the effective demand, 107
- equations of capital formation, how deduced, 268
- equations of equality of the average cost and the price of new capital goods, 270
- equations of exchange and of maximum satisfaction, 106

- equilibrating process in all markets, XII
- equilibria, multiple, two commodities, 71
- equilibria, multiple, in exchange of two commodities, 74
- equilibrium in production
 - equality of the price of products and their average cost, 485
- equilibrium in production, defined and conditions of, 209
- equilibrium in production, ideal state, 209
- equilibrium in the market for products, how reached, 483
- equilibrium of capital formation, 381
- equilibrium of circulation, 380
- equilibrium of exchange approached more and more closely by price tatonnement, 143
- equilibrium of exchange, found by the market through competition, 131
- equilibrium of exchange, general, conditions of, 145
- equilibrium of production, 380
- equilibrium of production, automatically attained by competition, 229
- equilibrium of production, equations, 237
- equilibrium prices the same before and after exchange if no disequilibrium transactions, 158
- equilibrium prices, equal to the ratios of the raretés, 113
- equilibrium prices, necessary and sufficient elements for the determination of, 145
- equilibrium probably always closer after the second round of tatonnement, 479
- equilibrium solved empirically in the market, 139
- equilibrium, preliminary in capital goods model, 284
- equilibrium, stable, in exchange of two commodities, 73
- equilibrium, unstable in exchange of two commodities, 73
- equivalent distributions before and after equilibrium trade, 161
- exchange bills, market for, 432
- exchange equilibrium, solved empirically in the market, 124
- exchange of savings for new capital goods, 489
- exchange of several commodities for one another, 118
- exchange of several commodities, equilibrium ordinarily unique, 177
- exchange of three commodities for one another, 119
- exchange rate, 425
- exchange rate of any one place on another, 431
- exchange rates, foreign, general formula of, 428
- exchange takes place at equilibrium prices, IX
- exchange, analysis of, general and scientific, 124
- exchange, equations of according to Jevons, 185
- exchange, equilibrium demonstrated, 124
- exchange, geometrical representation of, 469
- exchange, maximizes utility, 110
- exchange, multi-commodity case, 133
- exchanges by Book credit, 420
- exchanges by Commercial paper, 421
- exchanges with Banknotes, 422
- exchanges with Checks, 423
- exchanges, ways of making without the intervention of metallic money, 420
- expenses assumed proportional, 227
- facts and experience, provide accurate notion of competition, 201
- facts corroborate theory, 392
- facts, natural and human, 15
- fiduciary or paper money, 424
- Final Degree of Utility, Jevons on, 186
- fixed capital, defined, 213
- fixed expenses treated as proportional, 392
- foreign exchange brokers, 431
- franc, a word for a thing that does not exist, 165
- franc, quantity of silver and unit of value, 163
- free competition a principle of economic advantageousness, 248
- free competition demonstration does not consider justice, 249
- free will, 16
- free will subject to mathematical laws, 379
- free will, influences production and distribution, 32
- freedom of entry and departure of firms assumed, 249
- freedom of exchange and production, maximizes utility, 248
- French School of economics has no theory, 371
- functions or curves with concrete coefficients in study of money, 402

 Smith, Adam, definition of economics, 4
 Smith's theory of value, 179
 social economics, defined, 36
 social wealth, defined, 41, 194
 social wealth, four main categories, 195
 socialists advocated state intervention without proof, 249
 solution in real markets of the equations of exchange and production, 247
 stability analysis of capital goods formation, 490
 stability analysis of capital goods market, 286, 287, 292
 stability analysis of markets for products, 483, 484
 stability analysis of markets for services, 486
 stability analysis, price changes destroy temporary partial equilibrium, 479
 stability of capital formation process in real markets, 279
 stability conditions for path independence, 161
 stability of the monetary standard, 416
 stability of multi-commodity exchange equilibrium probable, 143
 stability in production, 239
 stability of production model probable, 241
 stability properties of a single market, 108
 stability in a single market, how it occurs, 66
 stability situation when new commodity introduced, 172
 stability of tatonnement probable in production, 244
 stable equilibrium in capital goods production, 287
 stable equilibrium in real markets for new capital goods, 288
 stable system, with production, 242
 state as entrepreneur, 441
 state intervention in regard to the distribution of wealth, 438
 stationary state or equilibrium of the market, 44
 stock exchange, functioning of, 43
 stock exchange, the market for movable capital, 313
 stocks, 193
 supply and demand equality, 161
 supply and demand equalization, marketplace solution of, 108
 supply and demand equivalence, 160
 supply and demand, fundamental law of economics, never demonstrated or formulated correctly, 155
 supply curve of individual, shape of, 476
 supply curves, partial, addition of, 478
 supply of money, 382
 supply of money equal to the existing quantity of money, 382
 tableau économique of Quesnay, 331
 tableau économique, criticism of, 333
 tableau économique, critique of, 335
 tatonnement by a monopolist, 444
 tatonnement criticism refuted, 479
 tatonnement finished, conditions, 280
 tatonnement in a particular market, 44
 tatonnement in a single market, 50
 tatonnement in production, 243
 tatonnement in production by entrepreneurs shifting resources, 237
 tatonnement in raising and lowering prices, 140
 tatonnement is the practical market determination of the calculated prices, 161
 tatonnement occurs naturally in the market for services, 242
 tatonnement of production occurs automatically in the market, 237
 tatonnement of quantities, non-virtual in disequilibrium, 235
 tatonnement solves the system of equations, 140

- tatonnement takes place under the regime of free competition, 244
- tatonnement, if assumed that data do not change during, 229
- tatonnement, in production of new capital goods, 280
- tatonnement, mathematical, 285, 286
- tatonnement, mathematical in new capital goods model, mirrors real market tatonnement, 294
- tatonnement, non-virtual, leads production and prices closer to equilibrium amounts, 236
- tatonnement, production, conditions when finished, 229
- tatonnement, reprise of, in production, 229
- tatonnements in the various markets take place simultaneously, 487
- tatonnements lead prices of services to equilibrium, 281
- tatonnements, a series of, 229
- tatonnements, before finished start anew, 318
- tax imposed directly on interest, 463
- tax levied in perpetuity on State bonds, 465
- tax on any type of capital good, effects of, 465
- tax on consumption, incidence of, 466
- tax on house rent, 465
- tax on products, 466
- tax on rent, direct, 460
- taxation, indirect, 459
- taxation, direct, 458
- taxes ought to be levied only on the fund available for consumption, 457
- taxes, effects of different kinds of, 456
- taxes, levy only on incomes, 458
- technical arts, 30
- theorem of equivalent redistributions, 165
- theorem of equivalent redistributions, 156
- theory and practice ought to be of help to one another, 216
- theory of exchange, mathematical, Walras's priority, *iv*
- theory of marginal productivity, 509
- theory of production and theory of capital formation, geometric demonstration of, 480
- theory of production founded on reality, 213
- theory of property, 36
- theory of rareté, enunciated by Burlamaqui, 182
- theory of the general equilibrium in exchange restated, 161
- theory of value, Say's, 180
- theory of value, Smith's, 180
- total demand curve, 56
- total quantity in existence supplied, xxxvi, 175
- trading is suspended, 44
- trading should be suspended if supply and demand unequal, 44
- Transactions balances of money, 203
- useful things, 22
- useful things limited in quantity, characteristics of, 22
- utility curves and the quantities possessed, elements for determination of the price, 110
- utility curves discontinuous if commodities by their nature are consumed in integral units, 148
- utility functions and asset holdings, effects of changes of, 252
- utility theory, Menger on, 186
- utility, assumed cardinally measurable, 80
- utility, effective, geometrically, 472
- utility, effects of changes of, 152
- utility, extensive, 78, 98
- utility, final degree of, 471
- utility, indirect, 29
- utility, intensive, 79
- utility, intensive, unmeasurable, 80
- value and wealth, measurable, 165
- value in exchange, 20, 23
- value in exchange, a relative fact, 113
- value in exchange, defined, 42
- value in exchange, measurable, 27
- value in exchange, measured by rareté, 113
- value in exchange, true character, 151
- value is mathematical in character, 26
- value of land and of land services rises constantly in a progressive society, 462, 463
- value of money, problem of, 378
- value, a fact, a natural phenomenon, 25
- value, Gossen on, 184
- value, origin of, different views, 179
- value, reality of the facts of, 182
- values in exchange, proportional to the raretés, 251
- variations in utility and in the quantity possessed disturb the state of maximum satisfaction, 116
- virtual model, only one tatonnement in, 500
